FOMA SH905i

DRAFT

OPERATION MANUAL

Component Names and Functions

※ Key illustrations are examples and may look different from actual keys.

The brightness sensor area

When Brightness of Light/Power Saver (☞P. 134, P. 136) is set to [Automatic], the sensor detects the light of the surrounding area and automatically adjusts the display brightness and keypad backlight. Do not cover the sensor area (🔟) with a sticker. May interfere with the sensor.

1 Earpiece
- Emits the other party's voice.
- When in stand-by, listen to Record message/Voice memo using the earpiece.

2 Display (☞P. 28)

3 i-mode/Guidance key 🗊 (⊄)
- Press to make or receive a Videophone call (☞P. 53, P. 67).
- Press to use i-mode (☞P. 184).
- Press to execute the function displayed at the lower left of the display in guidance (☞P. 27).
- In stand-by, press twice to display the i-αppli screen. Press for 1+ seconds to display the i-αppli software list screen (☞P. 253).

4 Multi-guide key (four-way key ⊙ and OK key ⊙) (☞P. 27)
- Press to display/select Menu, Redial, Received calls, Shortcut menu, Active marker (☞P. 405) as well as use these functions.
- In stand-by, press ⊙ for 1+ seconds to set/cancel Multi easy lock (☞P. 150). To disable, terminal security code is required.
- In stand-by, press ⊙ for 1+ seconds to set/cancel IC card lock (☞P. 278). To disable, terminal security code is required.
- In stand-by, press ⊙ for 1+ seconds to adjust earpiece volume (☞P. 128).

5 Mail/Guidance key 🖂
- Press to use mail functions (☞P. 210).

- In stand-by, press for 1+ seconds to display a new mail message screen (☞P. 211). Press twice to check new messages (☞P. 211, P. 223).
- Press to execute the function displayed at the lower left of the display in guidance (☞P. 27).
- Press to switch between upper and lower case when entering text (☞P. 429).
- Press for 1+ seconds in text input screen to use emoticons (☞P. 433).
- Press for 1+ seconds while Mail ticker is being displayed to to view Inbox (☞P. 222).

6 Start/Hands-free key 🗨
- Press to make or receive a voice call.
- Press for 1+ seconds during a voice call to turn Hands-free on and off (☞P. 55).
- Press during a Videophone call to turn Hands-free ON/OFF (☞P. 84).
- Press during a PushTalk transmission to turn Hands-free ON/OFF (☞P. 91).

7 microSD Memory Card slot (☞P. 343)
Insert a microSD Memory Card.

8 Charger terminal (☞P. 44)
Terminal for recharging with the desktop holder.

9 ✳/Line break/Public mode (Drive mode) key ✳
- Press to enter an [✳] (asterisk), [゙] (dakuten), [゚] (handakuten) or a line break (☞P. 429).
- In stand-by, press for 1+ seconds to set/cancel Public mode (Drive mode) (☞P. 72).
- In text input screen, press for 1+ seconds to paste text (☞P. 434).

10 Brightness sensor (☞P. 134, P. 136)
The sensor detects the light of the surrounding area and automatically adjusts the display brightness and key backlight ON/OFF.

11 Up/Down key (front) ∧, ∨
- Use for camera function or music player.
- Press while charging in the viewer position to show the desktop clock (☞P. 132).
- Press ∧ for 1+ seconds while running an application in the viewer position to use the phonebook, mail or other functions (☞P. 298).

12 TOUCH CRUISER pad (☞P. 28)

13 Camera/Guidance key 📷
- Press to activate Camera (☞P. 163).
- Press to execute the function displayed at the lower right of the display in guidance (☞P. 27).
- In stand-by, press for 1+ seconds to display Data box (☞P. 356).

14 Phonebook/Guidance key 📖
- Press to use the phonebook (☞P. 102).
- In stand-by, press for 1+ seconds to display the phonebook entry screen (☞P. 104, P. 108).
- Press to execute the function displayed at the lower right of the display in guidance (☞P. 27).
- Press to change the type of text to be entered (☞P. 430).
- In text input screen, press for 1+ seconds to display insert phrase screen (☞P. 432).

15 i-Channel/Clear/i-αppli stand-by key CLR (ch)
- Press to show the channel list (☞P. 206).
- Use to delete phone numbers and text (☞P. 430).
- Press to return to the previous screen.
- Press when i-αppli stand-by is set and i-αppli starts (☞P. 263).

16 Power/End/On hold key ⌐
- Press for 2+ seconds to turn the power on/off (☞P. 45).
- Press to end a call or i-mode, or to put calls on hold (☞P. 71).
- Press to play/pause when animated GIF or Flash movies are set as the stand-by display. Press while setting i-motion to play/stop (☞P. 131).

17 Dial/Text entry keys 1 to 9, 0
- Press to enter a phone number (☞P. 53).
- Press to enter text (☞P. 428).

18 #/Manner mode key #
- Press to enter a [#], [−] (prolonged sound), [、] (touten), [。] (kuten), [!] (exclamation mark), [?] (question mark), or [・] (chuten).
- When in the normal position, press for 1+ seconds in stand-by to set/disable Manner mode (☞P. 129).
- In text input screen, press for 1+ seconds to cut text (☞P. 434).

19 Multi/GPS/Supportbook key MULTI
- To activate Multi Assistant: Press while running an application to use the phonebook, mail or other useful functions (☞P. 404).
- GPS positioning: In stand-by, press for 1+ seconds to position the present location (☞P. 280).
- To view Supportbook: Press in stand-by to view Supportbook (preset) (☞P. 37).
- To save a shortcut in the Shortcut menu: Press for 1+ seconds when 🔲 is on the screen to save a shortcut (☞P. 417).

20 Microphone
Sends out your own voice.

21 Speakers
- Emits ring tones and other sounds.
- Emits the other party's voice during hands-free voice/Videophone/PushTalk calls.

22 Up/Down key (side) ▤ (▨/Eco), ▾
- Use for camera function or Music player.
- Press ▤ (▨) while the stand-by display is shown in the normal position to set to Power saver (Eco). When Power saver (Eco) is already set, the Power saver set screen appears (☞P. 134).
- Press ▤ (▨) for 1+ seconds in the normal position to enable or disable Private filter (☞P. 142).
- Press ▤ (▨) for 1+ seconds in the viewer position or while the stand-by display is shown with the FOMA terminal closed to activate Music player (☞P. 393).

23 PushTalk key ▨ (℗)
- Press to use the PushTalk phonebook (☞P. 94).
- Press to send PushTalk transmissions. Hold key to talk during PushTalk transmission (☞P. 91).
- Press for 1+ seconds to enable/disable the side key operation (☞P. 151).
- Use for Internet movie player or Video player.

24 Camera/TV key ▨ (▢/TV)
- Use for camera function or Music player.
- Press in stand-by,etc. to activate 1Seg (☞P. 295).
- Press for 1+ seconds while the stand-by display is shown in the viewer position to activate camera (☞P. 163).

25 Called LED/Charging LED
- Flashes while receiving a call, engaged in a call, using GPS function, etc (☞P. 139).
- Stays lit while charging (☞P. 41).

26 Strap ring
Attach a commercially available strap with the FOMA terminal closed.

27 TV antenna (☞P. 293)
Receive 1Seg.

28 Earphone/Microphone terminal (☞P. 423)
Connect a flat-plug earphone/microphone with switch (sold separately).
When using an earphone plug adapter (sold separately), an earphone/microphone with switch can also be used.

29 Infrared port (☞P. 362)
Use for the Ir exchange (☞P. 360) and Ir remote control (☞P. 364).

30 Camera LED
Lights when the camera is activated or during shooting (☞P. 163, P. 164, P. 167).

31 FOMA antenna
An antenna is built in. To speak in better conditions, do not cover the antenna area by hand.

32 Camera
Use to shoot still pictures or movies (☞P. 158) or send a camera image shot during a Videophone call (☞P. 52) to the other party.

33 FeliCa mark ⌒ (☞P. 271)
The IC card is included (The IC card cannot be removed).
Use Osaifu-Keitai holding the FeliCa mark up to the scanning device.

34 Back cover (☞P. 40)

35 External connector terminal
Terminal for connecting external devices, such as an AC adapter, a DC adapter (☞P. 42), or a FOMA USB cable (sold separately).

How to Open the FOMA Terminal

To use the FOMA terminal, open it (normal position) or use it in the viewer position.
- When carrying, keeping the FOMA terminal closed as shown in the diagram for step 1 is recommended.

■ Normal position

1
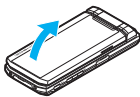

Open carefully with both hands.

2

Push the display back as far as it will go.

■ Viewer position

● To rotate the FOMA terminal display from the normal position, bring the display back to where it stops midway (step 2 position) and then rotate it 180° to the right.

1

Open carefully with both hands.

2

Open the display until it stops midway.

3

Rotate the display 180° to the right.

4
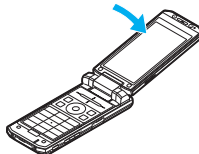

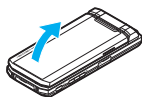

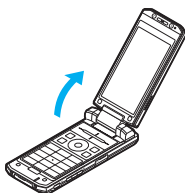

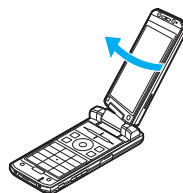

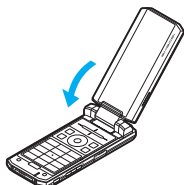

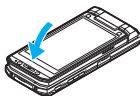

Flip the display forward.

5

Cautions when rotating
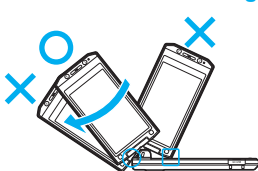

Note

● Note the following when rotating the FOMA terminal display.
  ■ Do not hit the key surface, stoppers, or terminal. May damage the key surface, stoppers, or terminal (See "Cautions when rotating" above).
  ■ When using the TV antenna pulled out, do not make the TV antenna touch the display.
  ■ Do not rotate in the opposite direction or further than 180°.

How to Use the Multi-guide Key and Guidance Key

■ Multi-guide key

Use the Multi-guide key (four-way key ✪ and OK key ⦿) to select and set menus that are shown in the screen. Move the cursor with ✪ and set the selection using ⦿.

■ Guidance keys

Use keys allotted to operate menu items of operation guidance that appear in the lower part of the display. Allotted functions differ depending on the situation.

TOUCH CRUISER Pad

How to Use the TOUCH CRUISER Pad

Use TOUCH CRUISER pad to perform the same operations as those of Multi-guide key (e.g. selecting an item, moving the cursor or scrolling the screen).

● Move the pointer or double-tap the TOUCH CRUISER pad in the range where there is a logo, "TOUCH CRUISER".
● Make the finger stand a little bit to operate easily.
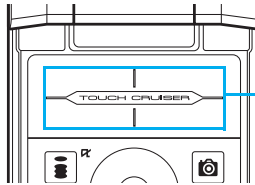

Operating range of
TOUCH CRUISER
pad
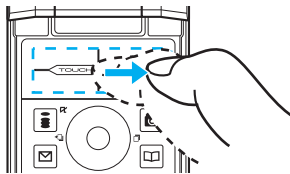

The pointer or cursor moves in
conjunction with sliding of the finger
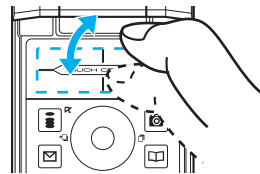

Double-tap the finger to select

Note

● In the following cases (screens), the TOUCH CRUISER pad is not available. However, when the Submenu appears, the pad can be operated.
  ■ Stand-by   ■ i-αppli   ■ Notice window   ■ Dial Input screen
  ■ While making, receiving or during the Voice call/Videophone call/PushTalk, etc.

■ Move the pointer

In the Custom menu or while i-mode or Full Browser is connected, move the pointer (κ, ϕ , $\triangledown$, etc.) up/down, left/right or diagonally to select an item.

● In some Custom menus, the pointer shape varies or the pointer is not supported.
● Move the pointer to the edge of the screen while i-mode or Full Browser is connected to show ⬆, ⬇/⬅, ➡ and scroll the screen to the direction of the arrow. If Link is set, ϕ appears and double-tap to move to the linked page.
● The pointer moving speed varies depending on the finger sliding speed.

Custom menu
screen

■ Move the cursor

In the Basic menu or Submenu, move the cursor up/down and left/right instead of using four-way key.
● When there are multiple pages, move the cursor to switch the pages.

Basic menu
screen

■ Determining

After moving the pointer or cursor, double-tap the item pointed with the pointer or cursor to set it instead of using the OK key.

When using the TOUCH CRUISER pad

● Avoid using the TOUCH CRUISER pad continuously for more than 30 minutes. Take regular breaks to rest your eyes and do a stretching exercise to relax your finger, hand, wrist, forearm and shoulders.
● Do not operate it with unnecessary force or in an improper posture. May hurt your finger and wrist.
● This product is designed to be operated with one finger. In the following cases, the TOUOCH CRUISER pad is not activated.
  ■ When operated with a gloved finger　　■ When operated with a pen, ballpoint pen, pencil, etc.
  ■ When operated with two or more fingers　■ When operated with foreign objects placed on the operation pad
  ■ When operated with a fingernail
● The TOUCH CRUISER pad may not be properly operated when there are droplets or condensation on the operation pad or when the operation pad is operated with a wet finger or a moist finger with sweat.
● The following usages may cause a malfunction.
  ■ Do not drop or bang the FOMA terminal, or do not subject to strong force or impacts.
  ■ Do not spill a liquid such as coffee and juice on the FOMA terminal.
  ■ Do not attempt to disassemble.
● Keep the surface sheet clean with a dry cloth. When the surface sheet gets too dirty, wipe it with a wet cloth and fully dry before using it.
● Note that putting a sticker, etc. to the operating range may cause a malfunction.

Setting the TOUCH CRUISER Pad <TOUCH CRUISER Set>

◾ Setting whether to use the TOUCH CRUISER pad

1 **In stand-by, press ⊙ ▸ [Settings] ▸ [General settings] ▸ [TOUCH CRUISER set] ▸ [Usage settings] ▸ [ON]/[OFF].**

◾ Setting pointer speed/scroll speed/double tap speed

1 **In stand-by, press ⊙ ▸ [Settings] ▸ [General settings] ▸ [TOUCH CRUISER set].**

2 **Select speed.**

Pointer speed	[Pointer speed] → [Fast]/[Normal]/[Slow]
Scroll speed	[Scroll speed] → [Fast]/[Normal]/[Slow]
Double tap speed	[Double tap speed] → [Fast]/[Normal]/[Slow]

Menu Selections

Set, change or save functions from the menu screens.

When a stock icon (☞P. 31) appears in stand-by, perform from **MENU** (MENU) being selected.

Switching the Menu Screens

In stand-by, press ⊙ to show the menu screen that is selected in Menu priority. Select from the Custom menu and Basic menu.

◾ Menu screens

Custom menu	Use the Kisekae Tool (☞P. 136) to change the menu design. The design set by default differs depending on the color of the FOMA terminal handset.
Basic menu	Input the function number to quickly retrieve the function to be used. Alternatively, select from 12 icons to retrieve the function. Icons and background images in the Basic menu can also be changed (☞P. 139).
Shortcut menu	Retrieve the saved functions quickly. Other function can also be saved (☞P. 417).

Related Operations

Set the menu screen to be used <Menu priority>
 1 **In stand-by, press ⊙ ▸ [Settings] ▸ [Disp/LED/Power saver] ▸ [Menu priority].**
 2 **Select [Custom menu]/[Basic menu].**

■ Method for switching the menu screens

Stand-by   Custom menu   Basic menu   Shortcut menu
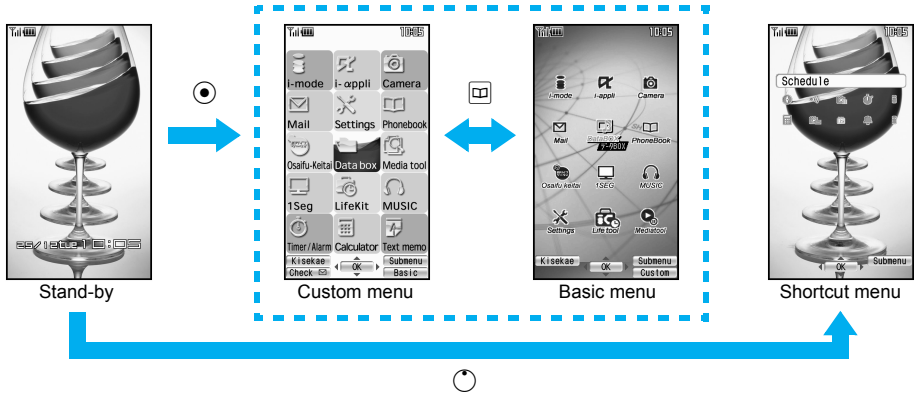

Method for Retrieving a Function

Perform one of the following to retrieve a function.

■ Use Multi-guide key, TOUCH CRUISER pad or pre-assigned button to select each menu and retrieve a function while checking the function name.

The explanations in this manual are based on this method.

■ Input the function number to quickly retrieve the function to be used (Available for the Basic menu only).

● Refer to Menu List (☞P. 456) for available functions.

● In the Custom menu, unavailable menus can also be selected. However, the functions are not available.

● When functions appear in guidance, use the assigned buttons to operate them (☞P. 27).

● Press [CLR] to re-select a function and the previous screen reappears. Press [ ] to return to stand-by.

● The method for selecting functions may differ depending on the Kisekae Tool set for the Custom menu.

Retrieving a Function from Each Menu Screen

Example: When retrieving [My picture(phone)] from each menu screen to show still pictures in [Camera]

● Double-tap the [ ] mark to select a function name or icon in TOUCH CRUISER pad (double-tapping may not be required depending on the menu screen). Refer to P. 28 for instructions on TOUCH CRUISER pad.

■ Using Multi-guide key or TOUCH CRUISER pad to retrieve from the Custom menu

● The following shows the screen operated with the TOUCH CRUISER pad.

When the handset color is "White" or "Black" (the screen of the handset color "White")

Custom menu   When [Data box] appears   When [My picture(phone)] appears   When [Camera] appears
