指示

乳幼児の手の届かない場所に保管してください。

誤って飲み込んだり、けがなどの原因となったりします。

指示

FOMA端末をアダプタに接続した状態で長時間連続使用される場合には特にご注意ください。

充電しながらiアプリやテレビ電話、ワンセグ視聴、投影などを長時間行うとFOMA端末や電池パック・アダプタの温度が高くなる場合があります。投影中はプロジェクター付近の温度が高くなりますので、表面に直接長時間触れないようにしてください。

温度の高い部分に直接長時間触れるとお客様の体質や体調によっては肌に赤みやかゆみ、かぶれなどが生じたり、低温やけどの原因となる恐れがあります。

FOMA端末の取り扱いについて

警告

禁止

赤外線ポートを目に向けて送信しないでください。

目に悪影響を及ぼす原因となります。

禁止

赤外線通信使用時に、赤外線ポートを赤外線装置のついた家電製品などに向けて操作しないでください。

赤外線装置の誤動作により、事故の原因となります。

禁止

ピクチャーライトの発光部を人の目に近づけて点灯発光させないでください。

視力障害の原因となります。また、目がくらんだり驚いたりしてけがなどの事故の原因となります。

注意事項:

当製品に使用されているピクチャーライト光源LEDは、指定されていない調整などの操作を意図的に行った場合、眼の安全性を超える光量を放出する可能性がありますので分解しないでください。

EN60825-1:1994 A1:2002 & A2:2001

クラス 1 LED製品

ピクチャーライト

禁止

FOMA端末内のドコモUIMカードやmicroSDカード挿入口に水などの液体や金属片、燃えやすいものなどの異物を入れないでください。

火災、やけど、けが、感電の原因となります。

禁止

自動車などの運転者に向けてライトを点灯しないでください。

運転の妨げとなり、事故の原因となります。

禁止

投影中は、プロジェクターのレンズを覗いたり、人に向けたりしないでください。

視力障害の原因となります。また、目がくらんだり驚いたりしてけがなどの事故の原因となります。

指示

航空機内や病院など、使用を禁止された区域では、FOMA端末の電源を切ってください。

電子機器や医用電気機器に悪影響を及ぼす原因となります。また、自動的に電源が入る機能を設定している場合は、設定を解除してから電源を切ってください。

医療機関内における使用については各医療機関の指示に従ってください。

また、航空機内での使用などの禁止行為をした場合、法令により罰せられます。

指示

ハンズフリーに設定して通話する際や、着信音が鳴っているときなどは、必ずFOMA端末を耳から離してください。

また、イヤホンマイクなどをFOMA端末に装着し、ゲームや音楽再生をする場合は、適度なボリュームに調節してください。

音量が大きすぎると難聴の原因となります。また、周囲の音が聞こえにくいと、事故の原因となります。

Earphone Signal Level

The maximum output voltage for the music player function, measured in accordance with EN 50332-2, is **28.0 mV**.

Quick Manual

CAUTION

Use only the battery packs and adapters specified by NTT DOCOMO for use with the FOMA terminal.

May cause fires, burns, bodily injury or electric shock.

Do not throw the battery pack into a fire.

The battery pack may catch fire, explode, overheat or leak.

Do not dispose of used battery packs in ordinary garbage.

May cause fires or damage to the environment. Place tape over the terminals to insulate unnecessary battery packs, and take them to a docomo Shop, retailer or institution that handles used batteries in your area.

Avoid using the handset in extremely high or low temperatures.

Use the FOMA terminal within the range of a temperature between 5°C and 35°C and a humidity between 45% and 85%.

Charge battery in areas where ambient temperature is between 5°C and 35°C.

Do not point the illuminated light directly at someone's eyes.

Do not use Picture Light near people's faces. Eyesight may be temporarily affected leading to accidents.

EN60825-1:1994 A1:2002 & A2:2001

Picture Light

CAUTION:

Use of controls, adjustments or performance of procedure other than those specified herein may result in hazardous radiation exposure. As the emission level from Picture Light LED used in this product is harmful to the eyes, do not attempt to disassemble the cabinet. Servicing is limited to qualified servicing station only.

Picture light source LED characteristics

- Continuous illumination
- Wavelength
White: 400–700 nm
- Maximum output
White: 548μW (inside FOMA terminal 0.62 mW)

Before Using

Inserting UIM

- Hook a finger on the tab and pull out the tray (1)**
 - Pull out the tray straight until it stops.
- Hold the UIM with the IC (gold) turned up and set on the tray (2)**

- Push the tray all the way in (3)**

- Note that inserting or removing the UIM forcibly may damage the UIM or deform the tray.

Attaching battery pack

- Perform with the FOMA terminal turned off while holding with your both hands.

- 1 Push the catch of the back cover in the direction of the arrow (1), slide the back cover approximately 3 mm (2) and remove it (3)**

- 2 Attach the battery pack (2)**

- Turn a recycle mark side of the battery pack up, match tabs and attach the battery pack.

With a recycle mark side up

- 3 Place the back cover to the FOMA terminal slot with the back cover open approximately 3 mm, push it (5) and slide it (6) to the direction of arrow to insert**

- Using unnecessary force when attaching or removing the battery pack may damage the connector terminal for the battery pack (charger terminal) on the FOMA terminal.
- Securely close the back cover. If not closed securely, the back cover may come off and the battery pack may fall out due to vibration.

Charging

- 1 Open the external connector terminal cover and insert the AC adapter horizontally into the external connector terminal (1)**

- 2 When inserting the AC adapter power plug into an outlet, charge alert is heard, charging LED illuminates, and charging starts**

- 3 When charge alert is heard and charging LED turns off, charging is complete**

- When removing the connector, always hold the release buttons on both sides (1) and unplug it horizontally (2).

- Do not forcibly insert or remove. May cause damage to the external connector terminal and the connector.

Basic Operations

Turning power on

- 1 (for at least 2 seconds)
 ● Press for at least 2 seconds to turn the power off.

Changing screen display to English

- 1 In the Normal menu, [本体設定] (Setting) ▶ [文字表示/入力] (Text display/input) ▶ [Select language] ▶ [English]

Making initial setting

- 1 [Date and time setting] ▶ set the date and time
- 2 [Password] ▶ register a terminal security code
- 3 [Keypad sound] ▶ set the keypad sound
- 4 [Text size] ▶ set the font size collectively
- 5 [Request permit/deny] ▶ set GPS location provision
- 6 [Complete]

Checking your own phone number

- 1 In the Normal menu, [Profile]

Character entry

■ Switching entry modes

1 In the character entry screen, [TxtMode]

2 Select the entry mode

■ Entering characters

Ex.) When entering “電話”

1 In the character entry screen, enter “でんわ”

- To enter “でんわ”: [た] (four times) ▶ [大/小] (once) ▶ [わ] (three times) ▶ [▶] ▶ [わ] (once)
- To enter multiple characters assigned to the same touch button: Enter a character ▶ [▶] ▶ enter a character

2 [Convert]

3 [Enter]

■ Entering pictograms/symbols

1 In the character entry screen, [Pic/Sym]

- To switch to pictogram: [Pictog···]
- To switch to Deco-mail pictogram: [Pic-D]
- To switch to single-byte symbols: [Symbol-S]
- To switch to double-byte symbols: [Symbol-L]

2 Select a candidate

■ Using phrases

1 In the character entry screen, [Menu] ▶ [Quote phrase/data] ▶ [Phrase]

2 Select a phrase

■ Entering emoticons

1 In the character entry screen, [Menu] ▶ [Pict/Symbol/Smiley] ▶ [Smiley]

- For a mail message: In the character entry screen, [Menu] ▶ [Quote phrase/data] ▶ [Pict/Symbol/Smiley] ▶ [Smiley]

2 Select a category ▶ select an emoticon

Changing ring tone

1 In the Normal menu, [Setting] ▶ [Sound/Vibration/Manner] ▶ [Ring tone]

2 Select an item

- ◆ [Call ring tone] ▶ select an item
- ◆ [Videophone]
- ◆ [Mail] ▶ select an item

3 Set each item ▶ [Set]

Lock/Security

Changing terminal security code

1 In the Normal menu, [Setting] ▶ [Lock/Security] ▶ [Change security code] ▶ enter the current terminal security code

2 Enter the new terminal security code

3 Enter the new terminal security code again

4 [Save]

Changing network security code

1 In the Normal menu, [i-mode/web] ▶ [iMenu Search] ▶ [お客様サポート] (user support) ▶ [各種設定 (確認・変更・利用)] (settings (check/change/use)) ▶ [ネットワーク暗証番号変更] (change network security code)

Changing i-mode password

1 In the Normal menu, [i-mode/web] ▶ [iMenu Search] ▶ [ENGLISH] ▶ [Options] ▶ [Change i-mode Password]

Setting PIN code

1 In the Normal menu, [Setting] ▶ [Lock/Security] ▶ [UIM setting]

2 Select an item

- ◆ [Change PIN1 code] ▶ enter the terminal security code ▶ enter the current PIN1 code ▶ enter the new PIN1 code ▶ enter the new PIN1 code again ▶ [Save]
- ◆ [Change PIN2 code] ▶ enter the terminal security code ▶ enter the current PIN2 code ▶ enter the new PIN2 code ▶ enter the new PIN2 code again ▶ [Save]
- ◆ [PIN1 entry ON/OFF] ▶ [ON] ▶ enter the PIN1 code

Various lock functions

■ All lock

1 In the Normal menu, [Setting] ▶ [Lock/Security] ▶ [Lock settings] ▶ [All lock] ▶ enter the terminal security code

■ Omakase Lock

Omakase Lock is a service to lock the personal data and IC card functions in case of loss, etc. by only your request to DOCOMO via phone.

- Refer to “Mobile Phone User’s Guide [Basic Usage]” for details on Omakase Lock.

Set/Release Omakase Lock

 0120-524-360 Office hours: 24 hours (in Japanese only) (open all year round)

※ Unavailable from part of IP phones.

※ Omakase Lock can also be set/released from the My docomo website using PCs.

■ Self mode

1 In the Normal menu, [Setting] ▶ [Other setting] ▶ [Self mode] ▶ select the setting ▶ [Yes]

■ Personal data lock

1 In the Normal menu, [Setting] ▶ [Lock/Security] ▶ [Lock settings] ▶ [Personal data lock] ▶ enter the terminal security code ▶ select the setting

■ Keypad dial lock

1 In the Normal menu, [Setting] ▶ [Lock/Security] ▶ [Keypad dial lock] ▶ enter the terminal security code ▶ select the setting

■ Display off lock setting

1 In the Normal menu, [Setting] ▶ [Lock/Security] ▶ [Lock settings] ▶ [Display off lock setting] ▶ enter the terminal security code ▶ set each item ▶ [Save]

■ IC card lock

1 In the Normal menu, [OsaiFu-Keitai] ▶ [IC card lock setting] ▶ [IC card lock] ▶ enter the terminal security code ▶ select the setting

Incoming call restriction

■ Setting response to a call with no caller ID

1 In the Normal menu, [Setting] ▶ [Lock/Security] ▶ [Call rejection setting] ▶ enter the terminal security code

2 Select the reason

3 Set each item ▶ [Set]

■ Rejecting a call from a caller unset in phonebook

1 In the Normal menu, [TEL function] ▶ [Dial/Receive call setting] ▶ [Reject/ Accept call]

2 [Unregistered caller] ▶ enter the terminal security code ▶ select the setting

Voice/Videophone Calls

Making a voice/videophone call

- 1 In stand-by,  ▶ enter a phone number
- 2 [] (Phone)/[VP Call]
- 3  to end the call

Receiving a voice/videophone call

- 1 When a call is received, the ring tone sounds and the called LED flashes
- 2 
- 3  to end the call

Making a call with redials/received calls

- 1 In the Normal menu, [TEL function] ▶ [Dialed/Received calls] ▶ [Received calls]/[Redial]
- 2 Select the phone number
- 3 [] (Phone)/[VP Call]

Using overseas

- Making a call to outside the country you stay in (including Japan)
 - 1 In stand-by,  ▶ enter “+” (touch [0/+] for a while), country code, area code (city code) and other party's phone number
 - When the area code (city code) begins with “0”, omit the “0” when dialing (Include “0” when making a call to some countries or regions such as Italy).
 - 2 [] (Phone)/[VP Call]
- Making a call in country you stay
 - 1 In stand-by,  ▶ enter a phone number
 - 2 [] (Phone)/[VP Call]
- Making a call to WORLD WING user overseas

When you make a call to a WORLD WING user overseas, you make a call as an international call to Japan regardless of your country of stay.

- 1 In stand-by,  ▶ enter “+” (touch [0/+] for a while), country code “81” (Japan) and the other party's mobile phone number excluding the first “0”
- 2 [] (Phone)/[VP Call]

Mail

Sending i-mode mail

- 1 In the Normal menu, [Mail] ▶ [Compose message]
- 2 Select the TO field ▶ select an item
- 3 Select the SUB field ▶ enter a subject
- 4 [Message] ▶ enter a message
- 5 [Send]

Checking new i-mode mail

- 1 In the Normal menu, [Mail] ▶ [Check new mail/message]

Replying to i-mode mail

- 1 In the received mail details screen, [Submenu] ▶ [Reply/Forward]
- 2 Select the reply method
- 3 Compose and send a mail

Displaying a mail in Inbox/Outbox/Unsent box

- 1 In the Normal menu, [Mail]
- 2 Select a box
- 3 Select a mail

Phonebook

Adding phonebook entries

- 1 In the Normal menu, [TEL function] ▶ [Phonebook] ▶ [Add to phonebook]/[UIM operation]
- 2 Set each item ▶ [Save]

Camera

Shooting still pictures

- 1 In the Normal menu, [CAMERA/TV/MUSIC] ▶ [Camera] ▶ [Still image shooting]
- 2 0
- 3 0

Shooting moving pictures

- 1 In the Normal menu, [CAMERA/TV/MUSIC] ▶ [Camera] ▶ [Movie shooting]
- 2 0
- 3 0 to end shooting
- 4 [Save]

Displaying shot still pictures

- 1 In the Normal menu, [Data box] ▶ [My picture]
- 2 [Camera] folder ▶ select a still picture

Playing shot moving pictures

- 1 In the Normal menu, [Data box] ▶ [i-motion/Movie]
- 2 [Camera] folder ▶ select a moving picture

Watching 1Seg

Performing channel setting

- 1 In the Normal menu, [CAMERA/TV/MUSIC] ▶ [1Seg] ▶ [Channel setting]
 - When the confirmation screen appears: [Yes] ▶ proceed to step 3
- 2 [Submenu] ▶ [Create]
- 3 Select the registration method
 - ◆ [Use preset]
 - ◆ [Auto setting] ▶ [Yes]
 - When you do not set the area: [No] ▶ proceed to step 6
- 4 Select an area
- 5 Select a prefecture/district
- 6 [Yes]

Watching 1Seg

- 1 In the Normal menu, [CAMERA/TV/MUSIC] ▶ [1Seg] ▶ [Activate 1Seg]

Playing recorded videos

- 1 In the Normal menu, [Data box] ▶ [1Seg]
- 2 [Video] folder ▶ select a video

Music Playback

Using Music&Video Channel

The Music&Video Channel service is provided in Japanese.

- 1 In the Normal menu, [CAMERA/TV/MUSIC] ▶ [Music&Video Channel]
- 2 Select a program

Using MUSIC Player

- 1 In the Normal menu, [Data box] ▶ [MUSIC]
- 2 Select music data

Network Services

Setting Voice Mail Service

Voice Mail Service is a paid option (monthly fees apply) that requires subscription.

- 1 In the Normal menu, [TEL function] ▶ [Voice mail service]
- 2 [Activate] ▶ [Yes] ▶ [Yes] ▶ enter the ringing time ▶ [OK]

Setting Call waiting service

Call waiting service is a paid option (monthly fees apply) that requires subscription.

- 1 In the Normal menu, [TEL function] ▶ [Other network service] ▶ [Call waiting]
- 2 [Activate] ▶ [Yes] ▶ [OK]

Setting Call Forwarding Service

Call Forwarding Service is a free option (no monthly fees) that requires subscription.

- 1 In the Normal menu, [TEL function] ▶ [Other network service] ▶ [Call forwarding]
- 2 [Activate] ▶ [Yes] ▶ [Yes] ▶ enter a phone number ▶ [Complete] ▶ [Yes] ▶ enter the ringing time ▶ [OK]

Osaifu-Keitai

Hold the  mark of the FOMA terminal over the scanning device to use as electronic money or railway tickets or to retrieve ToruCa.

- When the FOMA terminal is stolen or lost, immediately contact your provider of Osaifu-Keitai compatible service for handling methods.

Bluetooth function

- The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc. and any use of such marks by NTT DOCOMO, INC. is under license. Other trademarks and trade names are those of their respective owners.

Registering Bluetooth devices on FOMA terminal

- Switch the other party's Bluetooth device to the registration stand-by status in advance.
- 1 In the Normal menu, [Tool] ▶ [Bluetooth] ▶ [List/cnnect/discnct]
 - The device list screen appears when registered device exists. Select [Search] and proceed to step 3.
 - 2 [Yes]
 - 3 Point the cursor to the Bluetooth device to register ▶ [Submenu] ▶ [Register Devices]
 - 4 Enter the Bluetooth passkey

Connecting with Bluetooth devices

- 1 In the Normal menu, [Tool] ▶ [Bluetooth] ▶ [List/cnnect/discnct]
- 2 Select a Bluetooth device to connect to

* Approximate value

Specific Absorption Rate (SAR) of Mobile Phones

This model SH-06C mobile phone complies with Japanese technical regulations and international guidelines regarding exposure to radio waves.

This mobile phone was designed in observance of Japanese technical regulations regarding exposure to radio waves (*1) and limits to exposure to radio waves recommended by a set of equivalent international guidelines. This set of international guidelines was set out by the International Commission on Non-Ionizing Radiation Protection (ICNIRP), which is in collaboration with the World Health Organization (WHO), and the permissible limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health condition.

The technical regulations and international guidelines set out limits for radio waves as the Specific Absorption Rate, or SAR, which is the value of absorbed energy in any 10 grams of tissue over a 6-minute period. The SAR limit for mobile phones is 2.0 W/kg. The highest SAR value for this mobile phone when tested for use at the ear is 1.16W/kg. There may be slight differences between the SAR levels for each product, but they all satisfy the limit.

The actual SAR of this mobile phone while operating can be well below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum required to reach the network. Therefore in general, the closer you are to a base station, the lower the power output of the device.

This mobile phone can be used in positions other than against your ear. This mobile phone satisfies the international guidelines when used with a carrying case or a wearable accessory approved by NTT DOCOMO, INC. (*2). In case you are not using the approved accessory, please use a product that does not contain any metals, and one that positions the mobile phone at least 1.5 cm away from your body.

The World Health Organization has stated that present scientific information does not indicate that there are harmful effects attributed to the use of mobile devices. They recommend that if you are worried about your exposure then you can limit your usage or simply use a hands-free kit to keep the mobile device away from the head and body.

Please refer to the WHO website if you would like more detailed information.
http://www.who.int/docstore/peh-emf/publications/facts_press/fact_english.htm

Please refer to the websites listed below if you would like more detailed information regarding SAR.

<http://www.nttdocomo.co.jp/english/product/sar/>

SHARP Corporation Website:

<http://www.sharp.co.jp/products/menu/phone/cellular/sar/index.html>
(in Japanese only)

*1 Technical regulations are defined by the Ministerial Ordinance Related to Radio Law (Article 14-2 of Radio Equipment Regulations).

*2 Regarding the method of measuring SAR when using mobile phones in positions other than against the ear, international standards (IEC62209-2) were set in March of 2010. On the other hand, technical regulation is currently being deliberated on by national council (As of \$\$, 2010).

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was 1.08mW/g*.

As SAR is measured utilizing the devices highest transmitting power the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the network.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head.

* The tests are carried out in accordance with international guidelines for testing.

Declaration of Conformity

CE 0168

Hereby, Sharp Telecommunications of Europe Ltd, declares that this SH-06C is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

A copy of the original declaration of conformity can be found at the following Internet address:
<http://www.sharp.co.jp/k-tai/> (in Japanese only)

FCC Notice

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

Information to User

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient/relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC RF Exposure Information

Your handset is a radio transmitter and receiver.

It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The guidelines are based on standards that were developed by independent scientific organisations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.

The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model handset when tested for use at the ear is 0.809W/kg and when worn on the body, as described in this user guide, is 0.581W/kg.

Body-worn Operation; This device was tested for typical body-worn operations with the back of the handset kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5 cm separation distance between the user's body and the back of the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/ea/fccid/> after searching on FCC ID APYHRO00133.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) Website at <http://www.ctia.org/>.
