

User's manual

Model: RUITZ0001MPZZ

FCC ID: APY-RUITZ0001MP

IC: 548B-RUITZ0001MP

For OEM integration only – device cannot be sold to general public.

Therefore we will not supply the User's manual, the installation manual is the official for OEM.

(Note)

This module was granted as FCC/IC Limited Modular Approval. Host systems must provide regulated supply voltages to the module. OEM integrators are instructed to ensure that the end user has no manual instructions to remove or install the device. The antenna of this device must not be co-located or used in conjunction with any other antenna or transmitter. OEM integrators must be provided with antenna installation instructions. Only those antennas tested with the device or similar antennas with equal or lesser gain may be used with this transmitter.

We will ask OEM to include the following Notices required by FCC/ IC on the product and in the User's manual.

■ Requirement of Labeling

(For FCC)

Please describe the following item on the host device of the this module:

Contains FCC ID: APY-RUITZ0001MP

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

*If it is difficult to describe this statement on the host product due to the size, please describe in the User's manual.

(For IC)

Please describe the following item on the host device of the this module:

Contains IC: 548B-RUITZ0001MP

■ Requirement of User's Manual Statement

(For FCC)

User's manual shall contain following sentence

FCC CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

When installing in Mobile device

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE).

When installing in Portable device

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).

* Portable device: Distance between the person's body and the antenna is 20cm or less.

* Mobile device: Distance between the person's body and the antenna is more than 20cm.

(For IC)

Indicate the following information.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

* It can be also indicated on the equipment in place of the manual

When installing in Mobile device

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE).

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation de l'exposition maximale autorisée.

When installing in Portable device

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation du débit d'absorption spécifique (DAS).
