IMPORTANT SAFETY INSTRUCTIONS

WARNINGS

Please read these warnings before using your headphones. To ensure safety, observe all warnings while using this equipment.

- Do not disassemble or attempt to repair headphones.
- Always include this user manual when passing to third party.
- Do not use a defective product if found.

Preventing damages to health and accidents

- Do not disassemble or attempt to repair headphones.
- Always include this user manual when passing to third party.
- Do not use a defective product if found.
- Do not listen at high volume levels for long period of time to prevent damages to the ear.
- Always maintain a distance of 3.94" (10cm) between the ear cups and any cardiac pacemaker or implanted defibrillator since the product generates permanent magnetic fields.
- Keep the product, accessory and packaging parts out of reach of children/pets who could swallow smaller pieces.

Preventing damages to the product and malfunctions

- Always keep the product dry and do not expose it to extreme temperatures (e.g. hair dryers, heater, extended exposure to sunlight, etc.) to avoid corrosion or deformation.
- Only clean the product with a soft, dry cloth.
- Switch off the product after use to conserve battery power.

Intended Use

The Nakamichi BTHP06 Noise Isolating is a wireless headphone designed to work with mobile phones or other Bluetooth devices/Bluetooth compliant devices and allows for wireless streaming or phone calls.

"Improper use" means using the product other than as described in this user manual under operating conditions which differ those described in this user manual.

Remote controlling the audio source

Buttons	Functions
	Press Once: Increase volume Press & Hold: Next Track
	Press once: Decrease volume Press & Hold: Previous Track
	Music PLAY/PAUSE Button
	ON/OFF/PAIRING Button Call pick up function.

*These functions are not supported by all connected Bluetooth devices.

Managing calls

When you received a call, the red LED light will flash twice per second. Your mobile phone's ringtone will also alert you to a call, if your mobile phone supports this function. If your mobile phone automatically transfers the call to the headphone, you will hear a beep sound from the device. If your mobile phone does not automatically transfer the call to the headphone, see the instruction manual of your mobile phone. To manage a call from your BTHP06, press the On/Off button.

Buttons	Functions
	Press once to accept the call. Press and hold for at least 2 seconds to reject the call. Press once during a phone conversation to end the call.

IMPORTANT SAFETY INSTRUCTIONS

SAFETY INSTRUCTIONS for Lithium-Polymer Battery Pack

If abused or misused, the battery pack may leak. In extreme cases, it may even present an explosion or fire hazard.

- Heat generation
- Fire development
- Explosion
- Smoke or gas development

Please note that Nakamichi does not accept liability for damage arising from abuse or misuse.

- Keep away from children.
- Immediately remove the battery from an obvious defective product.
- Dispose the battery pack at special collection points or return it to a specialist dealer.
- When not using the device for extended periods of time, please charge it before usage.
- Only charge the device at ambient temperature between 10°C/50°F and 40°C/104°F.
- Do not heat above 70°C/158°F, e.g. do not expose to sunlight or throw the device into a fire.
- Do not dismantle or mutilate the device.
- Do not expose to moisture.

WIRELESS HEADPHONE

The 897 Noise Isolating is a wireless headphones which allows for wireless music streaming when used with mobile phones or other Bluetooth devices/Bluetooth compliant devices.

Bluetooth

The 897 complies with the Bluetooth 4.0 standard. Via its Bluetooth interface, it can be connected to a wide variety of Bluetooth enabled devices. Bluetooth wireless technology allows the Nakamichi BTHP06 to link with your Bluetooth enable devices (e.g. mobile phones, MP3 player, PC or tablets) with a range of up to 33 feet (10 meters).

Additional features

- Great for travel: comfortable, rugged and twistable construction
- Optional connection via audio for music enjoyment with Bluetooth technology.

Cleaning and maintaining

CAUTION

Liquids can damage the electronics of the headphones! Liquids entering the housing of the product can cause a short-circuit and damages the electronics.

- Keep all liquids far away from the headphone.
- Do not use any solvents or cleaning agents.

For reasons of hygiene, the device should always be clean regularly:
Before cleaning, make sure that the product is being charged.
Only use a dry and soft cloth to clean the product.

Troubleshooting

Problems	Possible Cause	Solutions
Device cannot be switched on.	The battery is dead.	Recharge the device.
No audio signal during a connected Bluetooth connection.	The device is switched off.	Switch the device on.
	The device is not paired with an audio source.	Check if the device is paired. If not, pair the device with the audio source again.
	The volume is adjusted too low.	Increase the volume.

Troubleshooting

Problems	Possible Cause	Solutions
Device cannot be paired.	The pairing does not work. The audio source is switched off.	Check if the audio source supports the A2DP profile. If not, use an alternative optional dongles. Switch the audio source on.

If a problem occurs that is not listed in the above table or the problem cannot be solved with the proposed solution, please email to support@nakamichi-usa.com

ANATOMY

2. Aux-in
3. ON / OFF , Music Play / Pause
4. BT LED Indicator
5. Charging USB Port
6. Volume Increase / Next Track
7. Volume Decrease / Previous Track
8. LED Charging Indicator

Adjusting The Headband

For optimum transmission of good noise attenuation and best possible comfort, the headband has to be adjusted to properly.

- Wear the headset so that the headband runs over the top of your head.
- Adjust the length of the headband so that:
 - The ear pads rest comfortably against your ears
 - You feel an even and gentle pressure around your ears
 - The headband fits snugly on the head

CAUTION

Danger of malfunction due to radio waves! The transmitted radio wave of mobile phones can impair the operation of sensitive and unprotect devices.

•Only use the headphone in environment where wireless Bluetooth transmission is permitted.

SAFETY INFORMATION

WARNING

Please read these safety warnings and cautions carefully to ensure your personal safety and prevent property damage.

Fire and Electric Shock Hazard

- Do not expose your 897 to liquid, moisture, humidity, or rain. Do not use the 897 near a bathtub, sink, sauna, pool, or steam room. Exposure of the 897 to moisture could result in electric shock.
- Do not drop, disassemble, open, crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects in to the Nakamichi BTHP06. Such actions could result in electric shock.
- Clean the 897 only with a dry cloth.
- Do not expose your 897 to extremely high or low temperatures.
- Do not leave your 897 in direct sunlight for extended periods of time.
- Do not leave your 897 near open flames such as cooking burners, candles, or fireplaces.
- Do not block any ventilation openings.

BATTERY/CHARGER HAZARD

- Do not dispose of your 897 in a fire. The battery could explode causing injury or death.
- Only charge the battery in accordance with the user instructions supplied with the 897.
- Do not attempt to disassemble the 897 charger or force open the built-in battery because this may result in electric shock.

WARNING

- Do not charge the 897 in damp areas or in extremely high or low temperatures because this could result in electric shock.
- Do not clean the 897 when it is being charged. Always unplug the charger first before cleaning the 897

Automobile Accident Hazard

- Do not leave or store the 897 or any of its accessories near or over your automobile's air bag because serious injury may result when an air bag deploys.

Fall Hazard

- Do not place the 897 on high surfaces such as shelves. During music playback the 897 may move which could cause the 897 to shift and fall off of the edge.

CAUTION

- Do not use abrasive cleaners to clean your Nakamichi BTHP06 because this could cause scratches and damage.
- Do not bring your 897 in to contact with any sharp objects because this could cause scratches and damage.
- Do not insert anything into your 897 unless otherwise specified in the user instructions. This may damage the internal components.
- Do not attempt to repair, modify, or disassemble your 897 yourself, it does not contain any user-serviceable components.
- Do not attempt to replace your 897 battery, it is built-in and is not changeable.
- Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas.
- Turn off your 897 prior to boarding an aircraft. Do not use the 897 inside an aircraft unless allowed by your airline.
- Dispose of the 897 and the Nakamichi BTHP06 battery in accordance with local regulations. Do not dispose of the battery with regular household waste.

The device complies with Bluetooth 4.0 standard. When switching the device on for the first time, it will automatically go into pair mode. The device is waiting to be paired with a Bluetooth enable device.

• Press the On/Off button, the blue and red LED lights will start flashing. This indicates that the headset has entered pairing mode.

• The LEDs will flash blue and red alternately to indicate the device is in pairing mode.

• When turning the device on for the first time the device will automatically go into a pairing mode.

• If the device is already paired to an audio source, the Bluetooth connection is automatically connected to the audio source, the device's blue LED will be constantly on.

• If the device is already paired to an audio source, but if the audio device is switched off or out of range, the device's LED will flash blue.

Pairing

• Press and hold the On/Off Button for 2 seconds and it will go into a pairing mode immediately.

• Pairing mode - search for previous device and new device automatically

• Pairing mode - didn't found previous device and it will search for new available device

• Pairing mode - it will pair for 3 minutes on going.

• Pairing mode - after 3 minutes press the On/Off button once to reactivate the bluetooth pairing; if no device is found, it will go into an 8 minutes sleep mode. It will also pair with any previous devices that had been paired before.

• Pairing mode - after 8 minutes of sleep mode and if there isn't any previous paired devices active, the 897 will turn off.

Disconnecting

To disconnect the device from the audio source, you can switch off the headphone or by pressing the power button once. The device will still retain the audio source setting until the Bluetooth function is switch on again.

WARNING

Danger of hearing damage!
Listening at high volume levels for long periods can lead to permanent hearing defects.

• Before putting the device on, set the volume to a low level.

• Do not continuously expose yourself to high volumes.

FCC Statement

FCC NOTICE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

FCC CAUTION

• Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
• This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Specifications

Speaker Diameter	40mmØ
Frequency Response	20Hz - 20,000Hz
Impedance	32Ω
Sound Pressure Level	96dB S.P.L.at 1KHz
Rated output power	20mW
Aggregate capability	50 mW
Battery	400mAh
Microphone Diameter	Ø4*1.5mm.
Microphone Directivity	Omnidirectional
Operating temperature range	-10 °C - 45 °C
Storage temperature range	-25 °C - 60 °C

Bluetooth

Bluetooth	V4.0
Range	33 (feet)
Transmission frequency	2402 - 2408 GHz
Modulation	CSR8635
Transmitter class type	Class 2

• Press and hold the On/Off button until the red LED flashes twice per second, red LED light will disappear after 2 seconds.

• You will hear a descending beep. The Bluetooth connection will be deactivated and the device switches off automatically.

Changing volume

• The 897 allows you to change the volume of the audio signal during a call or while listening to music

Buttons	Functions
⏪/V+	Press Once: Increase volume Press & Hold: Next Track
⏩/V-	Press once: Decrease volume Press & Hold: Previous Track

Changing the volume

If you press the respective button briefly, the volume changes incrementally. If you press and hold the buttons down, it will not change volume.

When the minimum or maximum volume is reached, an acknowledgment tone will be heard.

Using AUX-IN 3.5mm cable

The 897 comes equipped with a convenient 3.5mm cable allowing you to still enjoy your music when the BTHP06 headphones run out of battery.

Take note: When you plug in the 3.5mm cable to your 897 the LED blue light will not turn off. When the AUX-In cables is connected to the headphone it will function as an ordinary headphone, therefore all buttons will not be able to function.
