# Helmet Bluetooth® Intercom Kit

## Warranty Details

The product is guaranteed to be free from defects in workmanship and parts for a period of 12 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion.

You are entitled to replace or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

# Welcome

Congratulations on choosing to buy T-COMVB / TCOM-SC. By doing so you now have the assurance and peace of mind that comes with purchasing a product made by one of the leading manufacturers. All products brought to you are manufactured to the highest standards of performance and safety and, as part of our philosophy of customer service and satisfaction, are backed by our comprehensive 1 Year Warranty. We hope you will enjoy using your purchase for many years to come.

## General Safety Instructions

Read this manual thoroughly before first use and keep it in a safe place for future reference, along with the warranty card, purchase receipt and carton. The safety precautions enclosed herein reduce the risk of fire, electric shock and injury when correctly adhered to. **Follow all instructions and take notice of all warning to reduce the risk of fire or electric shock.**

- Do not remove the cover or the back of this product. There are no user-serviceable parts inside this product.
- Do not repair the unit yourself. Only have it serviced by qualified personnel. Supervise young children to ensure they do not play with the product.
- Do not submerge the product in liquids.
- Do not place the product near other items that may damage it, such as naked flame sources (lit candles) or excessive heat (Bar radiator)

**WARNING:** Using headphones while operating a motorcycle, motor vehicle, watercraft or bicycle can be dangerous, Use caution while using your motorcycle Helmet Bluetooth® Kit when you are engaging in any activity that requires your full attention.

# Motorcycle Helmet Bluetooth®Kit

**Battery Type:** Rechargeable Polymer 400mAh

**Stand by:** Up to 300hrs

**Talk Time**

**-Phone:** Up to 10 hours

**-Intercom:** Up to 7 hours

**Charging Time:** About 4 hours

**Headset:** High Power ultra slim speaker with integrated boom

**Power Adaptor:** DC 5V 500mA

# Product Controls

- 1.Power/Intercom Button
- 2.Multi-function Button(MFB)
- 3.Charger and Headset Socket
- 4.Jog Wheel
- 5.Headset Plug
- 6.Microphone
- 7.Ear Speaker

# Instructions

## Fitting the Bluetooth® receiver to your helmet

1. Using the provided screw driver, loosen the Headset Clip screws.
2. Slide the Headset Clip onto the left side of the helmet (when on your head). Take care to place the inside of the Headset Clip under the helmet padding.
3. Adjust the clip until you find the best location for your helmet. Ensure that the slots in the headset clip mount are facing away from the helmet.
4. Tighten the screws to hold the clip firmly in place. **WARNING:** Excessive tightening may damage the clips.
5. Slide the Bluetooth® receiver down into the slots on the headset clip mount. Make sure that it is locked in securely.
6. To attach the ear speaker & microphone headset, test which part of the helmet will be the best location by putting your helmet on and locating the place closest to your ears. You will need to put the helmet on a few times to find the optimum position to apply the pad. When the correct position is found, remove the adhesive protective strip and apply the felted earphone pad.

7. Attach ear speaker to the felted pad. Run the microphone arm along the inside wall of the helmet, to where your mouth will be. the microphone arm is flexible and should be adjusted so it sits in the best position in front of your mouth. Some helmets have removable padding; if yours does, it is recommended to run the speaker and microphone under the padding.

8. Connect the headset to the Bluetooth® receiver. The plug can only be inserted in one orientation. **WARNING:** Inserting the plug backwards will cause damage to the Bluetooth® receiver. Use caution when assembling.

9. Secure the cord of the headset plug inside the helmet. Tuck any extra wire into the helmet. Ensure that only few centimetres of the cord comes out.

You have successfully mounted the motorcycle helmet Bluetooth®.

## Charging the Bluetooth® Device

Before using this device, fully charge the Bluetooth® device.

1. Insert the USB plug of the charging cable into the small USB jack on the headset. Insert the other end of the charging cable into the Power Adaptor or your computer's USB port.
2. While charging, the red LED on the headset module will illuminate, when the charging is finished, the red LED will switch off. A normal charge from a low battery will take about 4 hours.

**Tip:** To maintain long life from the internal polymer battery, charge your device at least once each month.

## Powering On and Off

1. To turn the device on, press the **Power/Intercom** button for 3 seconds until you hear a beep. a blue light will flash quickly 3 times and then continue short flashes at regular intervals.
2. To turn the device off, press the **Power/Intercom** button for 5 seconds until you hear a beep. The headset and LED lights will turn off.

## Pairing to your Bluetooth® Enabled Mobile Phone

1. Place your Bluetooth® enabled phone and the Bluetooth® receiver near each other (within 1m).
2. Make sure the Bluetooth® receiver is turned off.

3. Press and hold down the **Power/Intercom** button for 8 seconds to turn on the Bluetooth® devices until you see a red & blue lights flashing. You will also hear a “DuDu” tone when the unit enters pairing mode.
4. Activate the Bluetooth® function on your mobile phone and search for the device. You may need to refer to your phones instructions to do this.
5. Choose the Bluetooth® device named T-COM then choose to pair this device with your phone. If your phone asks for password, it is 0000.
6. The Bluetooth® device will beep twice, your phone will confirm that pairing was successful.

## Pairing 2 Devices In Intercom Mode

1. Place both receivers near each other (within 1m).
2. Make sure both receivers are turned off
3. Press and hold down the **Power/Intercom** button on both units at the same time for approx 6 seconds, until the receivers beep twice. The red & blue lights will flash alternately.
4. Quickly press the **Power/Intercom** button on one of the receivers. This will now search for the other receiver so they can be paired.
5. When they have successfully paired, the red & blue lights will then change to blue only (flashing) and the receiver will beep once.

## Pairing 3 Devices In Intercom Mode

1. Follow the above procedure for each combination of the three units. (A-B, A-C, B-C).
2. Firstly, pair two devices A and B as described above. Secondly, turn off A and B, pair A and C as described above. Thirdly, turn off C and A, pair B and C. At Last, Turn on A.
3. Any one of them can connect one of the two by press **Power/intercom** button once or twice. From Standby press the **Power/Intercom** button 1 time for one of the pairings to be called, or 2 times for the other pairing to be called.
4. The pairing for 1 or 2 presses will depend on the sequence in which you paired the 3 helmets, but once paired the relevant pairings will maintain the number.
5. Pressing the **Power/Intercom** button of A 1 time to call C and 2 times to call B. Pressing the button of B 1 time to call C and 2 times to call A. Pressing the button of C 1 time to call B and 2 times to call A.

## To Start A Conversation Via Intercom

1. Once the two headsets are paired with each other, press the **Power/Intercom** button on either receiver to begin.
2. Use the **Jog wheel** to increase or decrease the headset volume.

**Tip:** You only need to press the **Power/Intercom** button once to establish a connection; conversation between the two paired headsets can now be carried out hands free.

## To End A Conversation Via Intercom

Press the **Power/Intercom** button on either of the receiver.

**Tip:** If the intercom headset is also paired with a mobile phone, the intercom conversation will be automatically disconnected to answer the phone when there is an incoming call. The intercom function will resume once the has ended.

## To Answer An Incoming Mobile Phone Call

1. Press the **Multi-function** button on the receiver while the phone is ringing.
2. Use the **Jog Wheel** to increase or decrease the headset volume.

**Tip:** The incoming call will answer automatically once the phone has rung for 15 seconds.

## Rejecting A Mobile Phone Call

When you hear the phone ringing, immediately press and hold the **Multi-function** button on the headset until you hear a beep.

## Ending A Mobile Phone Call

Press the **Multi-function** button to end the call.

## Redial The Last Number

Press and hold the **Multi-function** button for 2 seconds or until it beeps. It will then dial you last number called.

## To Play Music Via Bluetooth® Mp3 Player

If you are using a dedicated Mp3 player, the player must be a Bluetooth®enable device and be paired your Motorcycle Bluetooth®receiver.

1. Select music to play directly from your music device (check your Mp3 player instructions for how to do this).
2. Play music through the headset press the **Multi-function** button once.
3. Pause music press the **Multi-function** button again.
4. Skip songs forward by quickly flicking the **Jog Wheel** in a clockwise direction.
5. Rewind songs backward by quickly flicking the **Jog Wheel** in a anticlockwise direction.
6. Volume Up by turning the **Jog Wheel** anticlockwise and holding until the volume is at the right level.
7. Volume Down by turning the **Jog Wheel** clockwise and holding until the volume is at the right level. you will hear a long beep if the volume is at the highest or lowest level.

**Tip:** To improve the performance of your headset, make sure the volume is set to the highest on your music device.

## To Answer A Call While Listening to Music

1. Calls will automatically come through the headset while music is playing. To reject a call hold the multi function button down until you hear a beep.
2. Music will hold over the call duration and resume automatically once the call has ended.

## To Use FM Function

1. Headset idle status, press **Multi-function** button twice to turn FM on.
2. When FM is on, turn the **Multi-function** button clockwise or counterclockwise and it will seek out the next or previous FM station and begin playing.
3. When FM is on, press **Multi-function** button twice to turn FM off.

# Tips & Troubleshooting

Problem	Solution
The Bluetooth® Receiver has no power.	The headset must be charged for at least 4 hours prior to first use. Refer to Charging the Bluetooth® Device on page 8(12) for further details.
My helmet is uncomfortable to wear after fitting the speakers.	The placement of the speakers within the helmet may require repositioning. Two additional felted adhesive earphone pads are supplied for this purpose. Note: Some helmets have removable padding; if yours does, it is recommended to run the speaker and microphone under the padding.
My Phone won't pair with the Bluetooth® Receiver.	Activate the Bluetooth® function on your mobile phone and search for the device, which will show up as T-COMVB/T-COM on the Device List, Refer to your phones instructions to do this. Refer to Pairing to your Bluetooth® Enabled Mobile Phone on page 8 (13) for further details.
The audio reception breaks down.	Bluetooth® enabled device are susceptible to occasional interference from other common devices such as GPS units, laptops, alarms and WIFI routers etc. Move away from potential sources of interference if you are experiencing problems.
I can't hear my music/incoming calls.	Check the volume on the attached device. Setting your phone or MP3 player to the maximum volume usually resolves this issue.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
