**(10)**

**Compatibility**

Compatible with mobile phone, notebook, desktop and PDA which has Bluetooth function.

**Packaging content**

Bluetooth headset , Charging line , user manual.

- Is my headset compatible with notebook, desktop and PDA ?  
Your headset is compatible with devices which has Bluetooth function of the same version of headset. (Device with Bluetooth module can be used directly. Bluetooth dongle and driver are needed when it is applied to devices without Bluetooth module.
- Why there' s static electricity noise interference during conversation ?  
Wireless communication and cordless network equipment devices may cause interference which sounds like static electricity noise. For better use, please avoid such wireless devices.
- Will the electronic equipment, FM radio or PC in the car be disturbed by this headset ?  
Power from our headset is far below mobile phone. And the signal 100% meet international Bluetooth standard. Hence, please rest assured to use.

**(11)**

4.Will my conversation be heard by third party like other mobile phone with Bluetooth ?  
It is with pass code security between headset and mobile phone connection. For radio-frequency power, Bluetooth wireless signal is far below mobile phone, no one is able to monitor wireless Bluetooth technology.

Why there' s echo during conversation?  
You could adjust headset volume or move to other area and try again.

How to clean the headset ?  
Use soft cloth for cleaning.

Headset can not be charged ?  
Please separate your headset and charger and re-connect.

I can not process part of the function stated in the manual ?  
It may vary with different devices your headset paired with.

**Battery warning**  
warning : do not disassemble, collide, squeeze or throw it into fire.

If there is serious bloating, do not continue to use it.

Do not place it in high temperature.

**(12)**

**FCC WARNING**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) this device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter
