CE approval (European Union)

The AirCard 750 is certified to be used in the member states of the EU.

Declaration of conformity for CE Marking

We,

Sierra Wireless, Inc.

13811 Wireless Way
Richmond, BC
Canada V6V 3A4

declare under our sole responsibility that the product *AirCard 750*, to which this declaration relates, is in conformity with the following standard(s) or other normative document(s):

- R&TTE 1999/EEC
 - EN 301 511; V7.0.1
 - EN 301 489-7 (9-2000)
 - EN 60950:2000
 - EC Recommendation 1999/519/EC

A handwritten signature in blue ink, appearing to read 'M. Dutkiewicz', is positioned above the printed name.

Marek Dutkiewicz

Industry Canada approval

WARNING (EMI) – Canada – This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus as set out in the interference causing equipment standard entitled “Digital Apparatus”, ICES-003 of the Department of Communications.

Cet appareil numérique respecte les limites de bruits radioélectriques applicables aux appareils numériques de Classe B prescrites dans la norme sur le matériel brouilleur: “Appareils Numériques”, NMB-003 édictée par le ministre des Communications.

Industry Canada #: 2417C11897

Singapore IDA Safety Notices

Aircraft Safety

Switch off your AirCard 750 when in an aircraft. The use of cellular equipment in an aircraft may be dangerous to the operation of the aircraft, disrupt the cellular network and is illegal. Failure to observe this instruction may lead to suspension or denial of cellular telephone services to the offender, or legal action or both.

Explosive Atmospheres

- Users are advised not to use the equipment when at a refuelling point.
- Users are reminded of the need to observe restrictions on the use of radio equipment in fuel depots, chemical plants or where blasting operations are in progress.

Road Safety

Users are advised to use only a fixed, neck slung, or clipped-on microphone when using the AirCard as a phone while operating a vehicle, except in an emergency.

Non-Ionising Radiations

As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

FCC approval (US)

Tested to comply with FCC standards
FOR HOME OR OFFICE USE.

This device complies with Part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

CAUTION When the AirCard 750 is in use, users should maintain a distance of at least 25 mm (1") between the antenna and the user's torso, head, or legs. This device has been tested for compliance with FCC RF exposure limits in three typical laptop computers and three PDAs¹. This device is only authorized to be used in laptop computers or PDAs that are identical or substantially similar to those in the grant application.

FCC ID: N7NAC750

Where appropriate, the use of the equipment is subject to the following conditions:

CAUTION Unauthorized modifications or changes not expressly approved by Sierra Wireless, Inc. could void compliance with regulatory rules, and thereby your authority to use this equipment.

WARNING (EMI) – United States FCC Information – This equipment has been tested and found to comply with the limits pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in an appropriate installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation.

1. PDAs are sometimes referred to as Pocket PCs or Palmtop Computers.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

If you have purchased this product under a United States Government contract, it shall be subject to restrictions as set forth in subparagraph (c)(1)(ii) of Defense Federal Acquisitions Regulations (DFARs) Section 252.227-7013 for Department of Defense contracts, and as set forth in Federal Acquisitions Regulations (FARs) Section 52.227-19 for civilian agency contracts or any successor regulations. If further government regulations apply, it is your responsibility to ensure compliance with such regulations.
