▶ **Warning (EMI) - Canada**

This section outlines important regulatory notices concerning your new PCS Connection Card™.

Regulatory Notices

This device is compliant with Parts 15 and 24 of the FCC Rules. Operation of this device is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesirable operations.

FCC guidelines stipulate that the antenna should be more than 2.5 cm (1") from by-standers and 1.0 cm (0.39") from the user. When in use, the antenna should be fully extended upward at a 90 degree angle.

The highest reported SAR values of the PCS Connection Card - Model PC3200 are:

1. Separation distance of 2.5 cm (1") to nearby persons (0.85 W/kg).
2. Direct contact to user's lap with PCS Connection Card inserted into the top PC Card slot of the laptop computer with antenna fully extended upward (0.17 W/kg).

FCC ID: PNF-PC3200P

CAUTION Unauthorized modifications or changes not expressly approved by Sprint Communications Company L.P. could void compliance with regulatory rules and thereby your authority to use this equipment.

WARNING (EMI) - United States FCC Information - This equipment has been tested and found to comply with the limits pursuant to Part 15 & 24 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in an appropriate installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ Reorient or relocate the receiving antenna

- ▶ Increase the separation between the equipment and receiver
- ▶ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- ▶ Consult the dealer or an experienced radio/TV technician for help

-

This section outlines important liability and safety guidelines concerning your new PCS Connection Card™.

Important Notice

Because of the nature of wireless communications, transmission and reception of data can never be guaranteed. Data may be delayed, corrupted (i.e., have errors) or be totally lost. Although significant delays or losses of data are rare when wireless devices such as the PCS Connection Card - Model PC3200 CDMA modem are used in a normal manner with a well-constructed network, they should not be used in situations where failure to transmit or receive data could result in damage of any kind to the user or any other party, including but not limited to personal injury, death, or loss of property. SPRINT SPECTRUM L.P. accepts no responsibility for damages of any kind resulting from delays or errors in data transmitted or received using the PCS Connection Card - Model PC3200 CDMA modem, or for failure of the PCS Connection Card - Model PC3200 to transmit or receive such data.

Safety and Hazards

Do not operate the PCS Connection Card - Model PC3200 in areas where blasting is in progress, where explosive atmospheres may be present, near medical equipment, life support equipment, or any equipment which may be susceptible to any form of radio interference. In such areas, the PCS Connection Card - Model PC3200 **MUST BE POWERED OFF**. It can transmit signals that could interfere with this equipment.

Do not operate the PCS Connection Card - Model PC3200 in any aircraft, whether the aircraft is on the ground or in flight. In aircraft, the PCS Connection Card - Model PC3200 **MUST BE POWERED OFF**. When operating, it can transmit signals that could interfere with various onboard systems.

The driver or operator of any vehicle should not operate the PCS Connection Card - Model PC3200 while in control of a vehicle. Doing so will detract from the driver or operator's control and operation of that vehicle. In some jurisdictions, operating such communications devices while in control of a vehicle is an offense.
