PREPARE TO BE READY

SKLZ»

Ready is all or nothing. We either are, or we aren't. In the history of human endeavor, no man has ever achieved anything with almost. It's why we burn so many hours. It's why our muscles throb, it's why our eyes ache, and it's why we live with blinders on—in constant pursuit of preparedness. And we know that as much as we pride ourselves on our dedication, this alone is not enough. Plenty of people are dedicated. Our worthiest opponents are just as hardworking as we are. So if we ever hope to win, we need to work smarter.

WE MUST BE READY.

THE EXTRA BAT SPEED THAT LEADS TO EXTRA BASES

Using an under load/overload training philosophy, this revolutionary system is a 6-week program that's proven to increase swing velocity. This best-in-class system is also the only bat speed program designed for use during live batting practice. On average, hitters add 10+MPH to their swings using this program.

Ammo Bat System Features:

- On average, hitters add 10+MPH to their swings (60' of hitting distance) using this system.
- System includes three bats — unloaded, head loaded, hand loaded — and instructional videos.
- Six-week, step-by-step system with results proven at the nation's top baseball programs.
- Choose your program based on your age and size preference.
