

# LIGHTNING BOLT PRO

## MICRO BALL PITCHING MACHINE

### USAGE AND SET-UP INSTRUCTIONS

#### CONFIGURATION AND PARTS

#### BEFORE YOU BEGIN:

- » Make sure you have all of the Lightning Bolt components. Please contact SKLZ customer service toll free at 877-225-7275 if you are missing anything.
- » Read all setup and usage instructions carefully.
- » Ensure your practice area is clear and no people, animals or objects are in the path of the ball.

#### CAUTION:

To avoid electrical injury, adults should always be present during use.

Only use Bolt Balls with the Lightning Bolt Pro pitching machine. Failure to do so may result in a damaged machine.

#### TOOLS NEEDED:

Screwdriver to remove battery cover.

#### STEP 1: ASSEMBLE LIGHTNING BOLT PRO

Connect the Grip Connector to the Shagger Feeder Tube that has the Ball Shagger logo.

Connect the remaining tubes with the connectors. Fill with Bolt Balls and add Tube Cap. Insert the Ball Shagger into the Base.

#### STEP 2: PLUG IN OR ADD BATTERIES

Remove AC Adaptor from box and insert into the back of the Lightning Bolt Pro. Plug in to the nearest outlet. If an electrical outlet is not available unscrew the battery cover from the bottom of the Lightning Bolt Pro and add 6 C batteries.

#### STEP 3: ADJUST LIGHTNING BOLT PRO

Use the Pitch Height Adjustment Knob to adjust the Lightning Bolt Pro to the desired trajectory.

Turn on machine and begin training.

#### COLLECT BOLT BALLS

Collect the Bolt Balls with the Ball Shagger. Ensure the Ball Shagger arrow is facing down.

Place the Ball Shagger over the ball and press down. Repeat until the shagger is full.

Reconnect the Ball Shagger to the Lightning Bolt and begin training.

#### PURCHASE ADDITIONAL BOLT BALLS AT SKLZ.com

Refills available in: 12 pack, 36 or 50 pack bucket

Additional Bolt Ball Shaggers are also available with 24 Bolt Balls included.
