Smart Bracelet Instruction

Please read this user manual carefully before use

Binding Bracelet

In order to ensure pairing of devices successfully, the mobile phone should be kept close with the device.

1. Scan the QR code below or search "Skyring Health" through mobile app market, follow the prompts to download and install.

Mobile system requirements: Android 4.3 / IOS 9.0 and above.

2. Open the downloaded app, create and log in the account, and select adding devices on the "device" page to complete the addition and pairing of devices.

How to wear it

The best Bracelet should be worn behind styloid process of ulna.

1.Operation method:

Make sure the power of your bracelet is normal for the first time. If the device can't be started normally with low power, please charge the device. The bracelet will start automatically.

2.Charging mode:

(1) Remove the strap from the bracelet body;

(2) Put the end of the main body of the bracelet with the charging metal into the USB port to make the charging metal contact with the metal in the USB port, so as to charge correctly (please pay attention to the direction).

3. Device connection:

The first time you use the bracelet, you need to connect the app for calibration. After the connection is successful, the bracelet will automatically synchronize the time, otherwise the time is not accurate and the data cannot be transmitted.
