File Name: MechaPede_Instr_Outside041813.ai
Revision:
Licensor Approval Date: 04-18-13
Production Release Artist: Orlando Villagran
Colors: PANTONE 3435
Trim Size:
Notes:

TROUBLESHOOTING

PROBLEM	SOLUTION
Vehicle will not run. Vehicle is running slow. Lights are dim.	Make sure both the remote and vehicle have fresh batteries installed. The vehicle holds 4 batteries, not 2. Make sure both units are turned ON.
Vehicle turns to the left or right while the steering knob is not engaged.	Turn the steering trim knob on the bottom of the vehicle slightly to one direction or the other until the vehicle drives straight.
Vehicle lights start blinking erratically.	Interference may be caused by electronic signals from another source. Turn both the vehicle and remote off for 30 seconds. Turn both units back on and try again.
REPLACEMENT ANTENNA	Should the controller antenna become damaged, DO NOT return to your local retailer. Contact Skyrocket Customer Support for replacement instructions.

BATTERY CAUTIONS

- Do not use rechargeable batteries.
- Non-rechargeable batteries are not to be recharged.
- Different types of batteries or new and old batteries are not to be mixed.
- Batteries are to be inserted using correct polarity.
- Remove exhausted batteries as soon as possible and discard properly.
- Remove all batteries from compartment if toy is not used for a long period (seven months).
- The supply terminals are not to be short circuited.

This device complies with PART 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
