Model RCSS-129

REMOTE CONTROLLED **SCARY SOUNDS** MACHINE™

Boo !!! You have just purchased Halloween's newest and scariest product ever...
The Remote Controlled Scary Sounds Machine™. Its 7 terrifying sounds are
sure to frighten your victims and send chills through their bones.

Where did those
sounds come from???

I don't know
but I'm scared!!!

Hide it anywhere ... outside your front door, in the bushes
leading to your house, in the candy dish, under someone's
bed or wherever it's dark and spooky.

Directions

1. Turn on and hide
Scary Sounds Machine™
2. Press remote control button
to activate sounds

To mount the **Scary Sounds Machine™**
under a chair or table etc., apply double
faced tape to back.

Caution: Do not apply tape to
finished surfaces that may be
damaged by the adhesive.

Note: To preserve battery life,
turn unit off when not in use.

False activations may occur if
strong radio signals are present.

**The Remote Controlled Scary Sounds Machine™ operates on 4 AAA Batteries (not included).
Remote Control includes battery**

Made in China

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and;
2. This device must accept any interference received, including interference that may cause undesired operation.
