

## Ford 6R80; ZF6HP26, ZF6HP28

### Rear Stator Support Bushing

**Part No.**

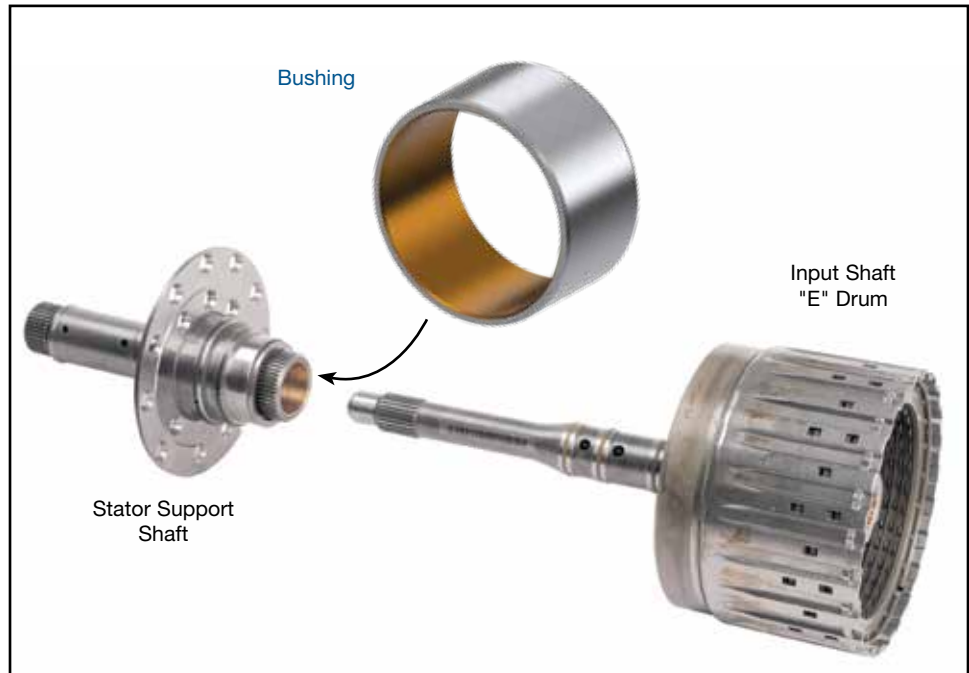

**95030-02**

Bushings (5)

**NOTE:** Fits 1.180" (29.96mm) dia. input shaft journal only (**Figure 1**).

For units with 1.022" (25.97mm) dia. input shaft journal, check with your distributor for alternate Sonnax stator support bushing.

**CAUTION:** Use of an arbor press is required for correct installation. DO NOT use a hydraulic press or a bushing driver/hammer to install, as doing so will distort the bushing and cause fitment issues.

1. Remove OE stator support bushing.

**CAUTION:** Exercise care when using a puller to remove bushing, as it is possible to inadvertently cause grooving of the bore with the puller arms. These grooves can prevent the mating parts from fitting together properly.

2. Install Sonnax rear stator support bushing.
