### WARNING

### To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

To reduce the risk of fire, do not cover the ventilation of the apparatus with newspapers, tablecloths, curtains, etc. And do not place lighted candles on the apparatus.

To reduce the risk of fire or electric shock, do not place objects filled with liquids, such as vases, on the apparatus.

Connect the apparatus to an easily accessible AC outlet. Should you notice an abnormality in the apparatus, disconnect the main plug from the AC outlet

Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOC

DO NOT REMOVE COVER (OR BACK) NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL

This symbol is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient nagnitude to constitute a risk of electric shock to persons.

This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

### **CAUTION**

The use of optical instruments with this product will increase eye hazard.

# Information

For customers in the USA

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment enerates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on the user is encouraged to try to correct the interference by one or more of the

- following measures: Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV

technician for help. You are cautioned that any changes or modifications not expressly approved in this manual could void your

authority to operate this equipment. This equipment must not be co-located or operated in

conjunction with any other antenna or transmitter. This equipment complies with FCC radiation exposure limits set forth for uncontrolled equipment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65.

This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated with at least 20cm and more between the radiator and person's body (excluding extremities: hands, wrists, feet and legs).

### Notes on DualDiscs

A DualDisc is a two sided disc product which mates DVD recorded material on one side with digital audio material on the other side. However, since the audio material side does not conform to the Compact Disc (CD) standard, playback on this product is not

### Music discs encoded with copyright protection technologies

This product is designed to playback discs that conform to the Compact Disc (CD) standard. Recently, various music discs encoded with copyright protection technologies are marketed by some record companies. Please be aware that among those discs, there are some that do not conform to the CD standard and may not be playable by this product.

### For customers in the USA Please register this product on line at

Proper registration will enable us to send you periodic mailings about new product, services and other important announcements. Registering your product will also allow us to contact you in the unlikely event that the product needs adjustment or modification.

### To reinforce the bass sound

- - - classical music

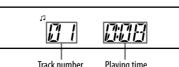

Press MEGA BASS **9** to display "MEGA BASS" in the To return to normal sound, press MEGA BASS **9** to disappear from the display.

MEGA BASS does not function when you use the Bluetooth headphones to listen to a sound source other than through the Bluetooth function (e.g., CD, radio, or AUDIO IN).

2 Press 14 on the unit, and place a disc with the label side up on the CD tray. To close the CD tray, press  $\triangleq$  14 on the unit.

3 Press ► 3 on the unit.

### Pairing this unit with a Bluetooth device

Pairing is an operation where Bluetooth devices register with each other beforehand. Use the procedure below to pair the unit with your Bluetooth device. Once a pairing operation is performed, it does not need to be performed again. If pairing is already completed, proceed to "Playing

- unit within 1 meter of the unit.

# 3 Operate the Bluetooth device and perform the

device, refer to the operation manual supplied with your Bluetooth device.

unit" on the back page).

**4** Enter the passcode. Passcode entry may be required depending on the type of Bluetooth device.

When "PIN" appears, enter the passcode at the unit as follows:

Press ▶▶•▶•I, ◄••••, ♦, ♦ on the unit (•••  $\rightarrow$  on the remote)  $\boxed{7}$ to enter the same passcode that was entered at the Bluetooth device, and then press ENTER **7**. Once pairing is completed and the connection is established, the unit display changes as follows: "LINKED" → Name of the Bluetooth device

### To cancel passcode entry partway Press ■ 3.

• "Passcode" may be called "Passkey", "PIN code", "PIN number" or "Password", etc. depending on the device. • This unit only supports numerical passcodes up to 4 digits.

• The pairing standby status of the unit is cancelled after about 30 seconds. If pairing is not successful, redo the procedure from step 1. While connected to a Bluetooth device, this unit cannot be detected

### To erase all the pairing registration information

### **1** Press BLUETOOTH 19.

When the unit is connected with a Bluetooth device (when the Bluetooth device name or other information appears in the unit display), press and hold BLUETOOTH OPR 18 on the unit for about 2 seconds to put the unit in Bluetooth standby mode.

**2** Press CLEAR 21 on the remote. "DELETE" appears.

**3** Press ENTER **7**.

"COMPLETE" appears and all the pairing information is erased.

In order to connect with a Bluetooth device after performing this operation, you must enter the passcode again.

### Playing music of a Bluetooth device

You can operate a Bluetooth device by connecting the unit and a Bluetooth device using AVRCP. If the unit is not connected with a Bluetooth device using AVRCP, "NOT USED" appears when you operate the unit.

1 Press BLUETOOTH 19.

**2** Establish a connection from the Bluetooth device. For details about the operations of the Bluetooth device, refer to the operation manual supplied with your Bluetooth device. Once the connection is established, the unit display changes as follows:

"LINKED" → Name of the Bluetooth device

**3** Press **►** 3.

Depending on the Bluetooth device, you may need to start up the AV software of the Bluetooth device

**4** Press VOLUME + or – to adjust the volume **8**.

# To check the address of a connected Bluetooth

Press DISPLAY 4 while the Bluetooth device name appears in the unit display. The Bluetooth device address appears.

# To cancel the connection with a Bluetooth

Press and hold BLUETOOTH OPR 18 on the unit for about 2 seconds until "UNLINKED" appears, or until the information on the display (device name, etc.)

То	Press
Pause playback	<b>II</b> 3.
Stop playback	■ 3.
Select a file	$  \blacktriangleleft \blacktriangleleft / \triangleright   \bullet \triangleright \text{ on the unit} $ ( $  \blacktriangleleft / \triangleright \triangleright   \text{ on the remote}) \boxed{7}.$
Find a point in a file	Hold down $  \blacktriangleleft \blacktriangleleft   \rightarrow   \rightarrow   \rightarrow  $ on the unit $( \blacktriangleleft \blacktriangleleft   \rightarrow )$ on the remote) $  7  $ .

These operations may not be available for certain Bluetooth devices. In addition, the actual operations may differ depending on the

### Notes on connections with Bluetooth devices

- If you cannot connect with a paired Bluetooth device, perform the pairing operation between the unit and the Bluetooth device again
- Depending on the type of Bluetooth device, you can adjust the volume using the controls of the Bluetooth device.
- When BLUETOOTH 19 is pressed while connected to Bluetooth headphones, it may take some time until a connection is made to the unit from another Bluetooth

# Listening to music on this unit using Bluetooth

You can listen to music played on this unit using your Bluetooth headphones over a wireless connection.

Follow the procedure below to listen to music on this unit with Bluetooth headphones.

Pairing this unit with Bluetooth headphones

Connecting to registered headphones

Playing music on this unit

For details about the operations of the Bluetooth headphones, also refer to the operation manual supplied with your Bluetooth headphones.

### Pairing this unit with Bluetooth headphones Pairing is an operation where Bluetooth devices register with each other beforehand. Use the procedure below to pair the unit with your Bluetooth headphones. Once a pairing operation is performed, it does not need to be performed again. If pairing is already completed, proceed to "Playing music on this unit" on the back page.

- **1** Select a function other than the Bluetooth function.
- 2 Place the Bluetooth headphones to be connected to this unit within 1 meter of the unit.
- **3** Put the Bluetooth headphones in pairing mode. For details about the operations of the Bluetooth headphones, refer to the operation manual supplied with your Bluetooth headphones.
- 4 Press and hold BLUETOOTH OPR 18 on the unit for about 7 seconds until the BLUETOOTH indicator 16 flashes.

Sound output from the speakers is stopped.

**5** Enter the passcode.

Follow the same procedure as in step 4 of "Pairing this unit with a Bluetooth device" on this page. Once pairing is completed and the connection is established, the unit display changes as follows: "LINKED" → Name of the Bluetooth device

### To cancel passcode entry partway Press $\blacksquare$ 3.

• "Passcode" may be called "Passkey", "PIN code", "PIN number" or

seconds. If pairing is not successful, redo the procedure from step 1.

"Password", etc. depending on the device. • This unit only supports numerical passcodes up to 4 digits. • The pairing standby status of the unit is cancelled after about 30

While connected to a Bluetooth device, this unit cannot be detected and a connection cannot be established from another Bluetooth

### • Pairing may not be possible if other Bluetooth devices are present around the unit. In this case, turn off the other Bluetooth devices.

### To erase all the pairing registration information 1 Press BLUETOOTH 19.

When the unit is connected with a Bluetooth device (when the Bluetooth device name or other information appears in the unit display), press and hold BLUETOOTH OPR 18 on the unit for about 2 seconds to put the unit in Bluetooth standby mode.

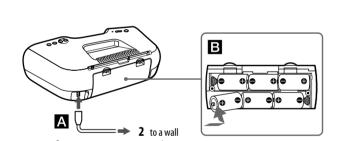

2 Press CLEAR 21. "DELETE" appears.

**3** Press ENTER **7**.

"COMPLETE" appears and all the pairing information is erased.

To connect with Bluetooth headphones after performing this operation, you must enter the passcode again.

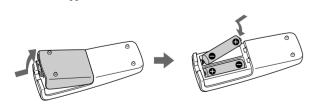

# **Power sources**

Connect the AC power cord A or insert six R20 (size D) batteries (not supplied) into the battery compartment B.

- Replace the batteries when the OPR/BATT indicator 2 dims or when the unit stops operating.
- Replace all the batteries with new ones. Before you replace the batteries, be sure to take out the CD from the unit. • To use the unit on batteries, disconnect the AC power cord from the unit.

Preparing the remote Insert two R6 (size AA) batteries (not supplied).

With normal use, the batteries should last for about six months. When the remote no longer operates the unit, replace all the batteries with new ones.

# **Basic Operations**

### Playing music on this unit

established.)

You can operate this unit from Bluetooth headphones by connecting the unit and Bluetooth headphones using

- 1 Select a function other than the Bluetooth function.
- 2 Establish a connection with the Bluetooth headphones.

Press and hold BLUETOOTH OPR 18 on the unit for about 2 seconds until the BLUETOOTH indicator 16 lights up, then release the button.

If more than one Bluetooth device that has been connected in the past is present around the unit, the unit attempts to connect with up to 3 most recently connected devices. (Connection is attempted with up to 3 devices in order from the most recently connected device, and the attempts end when a connection is

Once the connection is established, the unit display changes as follows:

- "LINKED" → Name of the Bluetooth device
- **3** Start playback of the music for the function selected
- Depending on the type of Bluetooth headphones, you can operate this unit (playback, volume control, etc.) using the headphone's controls.
- For details about the operations of the Bluetooth headphones, refer to the operation manual supplied with your Bluetooth headphones.
- 4 Press VOLUME + or 8 to adjust the volume.

# To cancel the connection with Bluetooth

Press and hold BLUETOOTH OPR 18 on the unit for about 2 seconds until the BLUETOOTH indicator 16 turns off.

- If you cannot connect with paired Bluetooth headphones, perform the pairing operation between the unit and the Bluetooth headphones again
- When the unit is changed to a function other than the Bluetooth function and BLUETOOTH OPR 18 on the unit is pressed while connected to a Bluetooth device, it may take some time until a nnection is made with the Bluetooth headphones.
- This unit stores separate volume settings for when listening through the speakers or  $\Omega$  (headphones) jack  $\overline{\Omega}$  on the unit, or when

### Bluetooth wireless technology

Bluetooth wireless technology is a short-range wireless technology linking digital devices, such as personal computers and digital still cameras. Using the Bluetooth wireless technology, you can operate the units involved within a range of about 10 meters

The Bluetooth wireless technology is commonly used between two devices, but a single device can be connected to multiple devices.

You do not need wires to get connected as you do with a USB connection, and you do not need to place the devices face to face as you do with wireless infrared technology. You can use the technology with one Bluetooth device in your bag or pocket.

Bluetooth wireless technology is a global standard supported by thousands of companies. These companies produce products that meet the global standard.

### **Supported Bluetooth version and profiles**

Profile refers to a standard set of capabilities for various Bluetooth product capabilities. This unit supports the following Bluetooth version and profiles.

Supported Bluetooth version: Bluetooth Standard version 2.0 Supported Bluetooth profiles: A2DP (Advanced Audio Distribution Profile) AVRCP (Audio Video Remote Control Profile)

### Effective communication range

Bluetooth devices should be used within approximately 10 meters (unobstructed distance) of each other. The effective communication range may become shorter under the following conditions. — When a person, metal object, wall or other

- obstruction is between the devices with a Bluetooth
- Locations where a wireless LAN is installed
- Around microwave ovens that are in use - Locations where other electromagnetic waves occur

### Effects of other devices

• Bluetooth devices and wireless LAN (IEEE 802.11b/g) use the same frequency band (2.4 GHz). When using your Bluetooth device near a device with wireless LAN capability, electromagnetic interference may occur. This could result in lower data transfer rates, noise, or inability to connect. If this happens, try the following

- Try connecting this unit and Bluetooth mobile phone or Bluetooth device when you are at least 10 meters away from the wireless LAN equipment. - Turn off the power to the wireless LAN equipment
- when using your Bluetooth device within 10 meters. • The radio waves broadcast by this unit may interfere with the operation of some medical devices. Since this interference may result in malfunction, always turn off the power on this unit, Bluetooth mobile phone and Bluetooth device in the following locations:
- In hospitals, on trains, in airplanes, at gas stations, and any place where flammable gasses may be
- Near automatic doors or fire alarms

- This unit supports security functions that comply with the Bluetooth specification as a means of ensuring security during communication using Bluetooth technology. However, this security may be insufficient depending on the setting contents and other factors, so always be careful when performing communication using Bluetooth
- Sonv cannot be held liable in any way for damages or other loss resulting from information leaks during communication using Bluetooth technology
- Bluetooth communication is not necessarily guaranteed with all Bluetooth devices that have the same profile as this unit. • Bluetooth devices connected with this unit must comply with the Bluetooth specification prescribed by the Bluetooth SIG, Inc., and must be certified to comply. However, even when a device complie with the Bluetooth specification, there may be cases where the characteristics or specifications of the Bluetooth device make it impossible to connect, or may result in different control methods,
- display or operation. • Noise may occur or the audio may cut off depending on the Bluetooth device connected with this unit, the co environment, or surrounding conditions

**Bluetooth devices** You can check the websites below for the Bluetooth compatible devices.

automatically.

The display's backlight goes off while sleeping time is active.

### Connecting optional component

You can enjoy the sound from a PC, TV, VCR, portable digital music player, etc. through the speakers of this unit. Be sure to turn off the power of each component before making any connections

For details, refer to the instruction manual of the component to be connected. 1 Connect the AUDIO IN jack 15 on the unit to the

- line output jack of the portable digital music player or other components using an audio connecting cable\* (not supplied). For a PC: use a cable which fills the connector of your PC.
- For a TV or VCR: use a cable with a stereo-mini plug on one end and two phono plugs on the other end. For a portable digital music player: use a cable with a stereomini plug on both ends.
- **2** Turn the unit and the connected component on.
- 3 Press AUDIO IN 13 and start playing sound on the connected component. The sound from the connected component is output

from the speakers.

### **Precautions**

### Discs that this unit CAN play

- CD-R/CD-RW (CD-DA\*)
  - \* CD-DA is the abbreviation for Compact Disc Digital Audio. It is a recording standard used for Audio CDs.

### Discs that this unit CANNOT play

- CD-R/CD-RW other than those recorded in music CD
- CD-R/CD-RW of poor recording quality, CD-R/CD-RW
- CD-R/CD-RW which is finalized incorrectly

### • Unplug the headphones when listening through Notes on discs

• Before playing, clean the CD with a cleaning cloth. Wipe the CD from the center out. If there is a scratch. dirt or fingerprints on the CD, it may cause tracking

- Do not use solvents such as benzine, thinner, commercially available cleaners or anti-static spray intended for vinyl LPs.
- Do not expose the CD to direct sunlight or heat sources such as hot air ducts, nor leave it in a car parked in direct sunlight as there can be a considerable rise in
- temperature inside the car. • Do not stick paper or sticker on the CD, nor scratch the surface of the CD.
- After playing, store the CD in its case.

- As the laser beam used in the CD player section is harmful to the eyes, do not attempt to disassemble the casing. Refer servicing to qualified personnel only. • Should any solid object or liquid fall into the unit, unplug the unit, and have it checked by qualified
- personnel before operating it any further. • Discs with non-standard shapes (e.g., heart, square, star) cannot be played on this unit. Attempting to do so may damage the unit. Do not use such discs.

### On power sources

- For AC operation, use the supplied AC power cord; do not use any other type.
- The unit is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet. even if the unit itself has been turned off.
- Unplug the unit from the wall outlet when it is not used for an extended period of time. • When the batteries are not to be used, remove them to

avoid damage that can be caused by battery leakage or

• The nameplate indicating operating voltage, power consumption, etc. is located at the bottom.

# On placement

- Do not leave the unit in a location near heat sources, in a place subject to direct sunlight, excessive dust or mechanical shock or in a car subject to the direct rays of the sun.
- Do not place the unit on an inclined or unstable place. • Do not place anything within 10 mm of the side of the cabinet. The ventilation holes must be unobstructed for the unit to operate properly and prolong the life of its
- Since a strong magnet is used for the speakers, keep personal credit cards using magnetic coding or springwound watches away from the unit to prevent possible damage from the magnet.

• If the unit is brought directly from a cold to a warm location, or is placed in a very damp room, moisture may condense on the lens inside the CD player section. this case, remove the CD and wait about an hour for the

### Cleaning the cabinet

• Clean the cabinet, panel and controls with a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder, or solvent, such as alcohol or benzine.

If you have any questions or problems concerning your unit, please consult your nearest Sony dealer.

### **Froubleshooting**

The power is not on.

There is no audio.

display window.

operate the unit on batteries.
