SIM-Unlocking Handset

Handset can be SIM-unlocked. SIM-unlocking handset allows other-carrier SIM cards to be used with it.

- Some services, functions, etc. may have restrictions when an other-carrier SIM card is used. SoftBank Corp. does not guarantee operation whatsoever.
- For details, see SoftBank Website.

SD Card

Save data to handset memory or SD Card.
Handset supports SD Cards up to 200 GB. Some SD Cards may not operate properly.

- Inserting SD Card
- Unmounting SD Card
- Removing SD Card
- Formatting SD Card

SD Card Cautions

Data
Information stored on SD Card can become lost or changed accidentally or as a result of damage. It is recommended that you keep a separate copy of important data. SoftBank Corp. is not responsible for damages from data that is lost or changed.

Reading/Writing Data
Never power off while reading or writing data.

Battery Level
A low battery charge may prevent reading/writing to SD Card.

Handling SD Card

Use/keep SD Cards away from the reach of infants. May cause choking if swallowed.
