

# User guide

**Thank you** for purchasing a Sony Ericsson Naite J105/J105a. For additional phone content, go to [www.sonyericsson.com/fun](http://www.sonyericsson.com/fun). Register now to get free online storage and special offers at [www.sonyericsson.com/myphone](http://www.sonyericsson.com/myphone). For an extended User guide and product support, go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support). **Please read the Important information before you use your mobile phone.**

## Instruction symbols

- These symbols may appear in the User guide:
- Note
  - Tip
  - Warning
  - > Use a selection or navigation key to scroll and select. See *Navigation* on page 10.

## Getting started

**Assembly**  
Before you start using your phone, you need to insert a SIM card and the battery.

To insert the SIM card

- 1 Remove the battery cover.
- 2 Slide the SIM card into its holder with the gold-coloured contacts facing down.

To insert the battery

- 1 Insert the battery with the label side up and the connectors facing each other.
- 2 Attach the battery cover.

## Turning on the phone

To turn on the phone

- 1 Press and hold down **[Power]**.
  - 2 Enter your SIM card PIN (Personal Identification Number), if requested, and select **OK**.
  - 3 Select a language.
  - 4 Follow the instructions that appear.
- ⚡ If you want to correct a mistake when you enter your PIN, press **[C]**.

## Help

In addition to this User guide, an extended User guide, Feature guides and more information are available at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). Help and information are also available in your phone.

To access the User guide

- Select **Menu > Settings > User help > User guide**.

To view tips and tricks

- Select **Menu > Settings > User help > Tips and tricks**.

To view information about functions

- Scroll to a function and select **Info**, if available. In some cases, **Info** appears under **Options**.

To view the phone status

- Press the volume key. Phone, memory and battery information is shown.

## Charging the battery

The phone battery is partly charged when you buy it.

To charge the battery

- 1 Connect the charger to the phone. It takes approximately 2.5 hours to fully charge the battery. Press a key to view the screen.
  - 2 Remove the charger by tilting the plug upwards.
- ⚡ You can use your phone while it is charging. You can charge the battery at any time and for more or less than 2.5 hours. You can interrupt the charging without damaging the battery.

## Naite

## Phone overview

## Navigation

To access the main menu

- When **Menu** appears on the screen, press the centre selection key to select **Menu**.
- If **Menu** does not appear on the screen, press **[Menu]** and then press the centre selection key to select **Menu**.

To navigate the phone menus

- Press the navigation key **[Left]**, **[Right]**, **[Up]** or **[Down]** to move through the menus.
- To end a function
- Press **[End]**.
- To return to standby
- Press **[Power]**.

To delete items

- Press **[C]** to delete items such as numbers, letters, pictures and sounds.

## Shortcuts

You can use keypad shortcuts to go directly to functions from standby.

To use navigation key shortcuts

- Press **[Left]**, **[Right]**, **[Up]** or **[Down]** to go directly to a function.

To edit a navigation key shortcut

- 1 Select **Menu > Settings > General > Shortcuts**.
- 2 Scroll to an option and select **Edit**.
- 3 Scroll to a menu option and select **Shortc...**

## Activity menu

The activity menu gives you quick access to:

- **New events** – missed calls and new messages.
- **Running apps** – applications that are running in the background.
- **My shortcuts** – quick access to your favourite functions to access them quickly.
- **Internet** – quick access to the Internet.

To open the activity menu

- Press **[Activity]**.

## Memory card

⚡ You may have to purchase a memory card separately.

Your phone supports a microSD™ memory card adding more storage space to your phone. It can also be used as a portable memory card with other compatible devices. You can move content between a memory card and the phone memory. See *Handling content in the phone* on page 22.

To insert a memory card

- Remove the battery cover and insert the memory card with the gold-coloured contacts facing down.

## Entering text

You can use multitap text input or T9™ Text Input **T9j** to enter text. The T9 Text Input method uses a built-in dictionary.

To change writing language

- When you enter text, press and hold down **[Language]**.

To change text input method

- When you enter text, press and hold down **[Method]**.

To shift between capitals and lower-case letters

- When you enter text, press **[Shift]**.

To enter numbers

- When you enter text, press and hold down **[Number]** – **[9]**.

To enter full stops and commas

- When you enter text, press **[Full stop]**.

To enter a symbol

- 1 When you enter text, select **Options > Add symbol**.
- 2 Scroll to a symbol and select **Insert**.

To enter text using T9™ Text Input

- 1 Select, for example, **Menu > Messaging > Write new > Message**.
- 2 If **T9j** is not displayed, press and hold down **[T9j]** to change to T9 Text Input.
- 3 Press each key only once, even if the letter you want is not the first letter on the key. For example, to write the word "Jane", press **[5]**, **[2]**, **[6]**, **[3]**. Write the whole word before looking at the suggestions.
- 4 Use **[Left]** or **[Right]** to view suggestions.
- 5 Press **[Accept]** to accept a suggestion and add a space.

To enter text using multitap text input

- 1 Select, for example, **Menu > Messaging > Write new > Message**.
  - 2 If **T9j** is displayed, press and hold down **[Multitap]** to change to multitap text input.
  - 3 Press **[2]** – **[9]** repeatedly until the desired letter appears.
  - 4 When a word is written, press **[Space]** to add a space.
- To add words to the built-in dictionary
- 1 When you enter text using T9 Text Input, select **Options > Spell word**.
  - 2 Write the word using multitap text input and select **Insert**.

## Calling

### Making and receiving calls

You need to turn on your phone and be within range of a network.

To make a call

- 1 Enter a phone number (with international country code and area code, if applicable).
  - 2 Press **[Call]**.
- ⚡ You can call numbers from your contacts and call list. See *Contacts* on page 16, and *Call list* on page 16.

To end a call

- Press **[End]**.

To make international calls

- 1 Press and hold down **[International]** until a "+" sign appears.
- 2 Enter the country code, area code (without the first zero) and phone number.
- 3 Press **[Call]**.

To answer a call

- Press **[Call]**.

To reject a call

- Press **[End]**.

To change the ear speaker volume during a call

- Press the volume key up or down.

To mute the microphone during a call

- 1 Press and hold down **[Mute]**. **[Mute]** appears.
- 2 Press and hold down **[Mute]** again to resume.

To turn on the loudspeaker during a call

- Select **SpkrOn**. **[SpkrOn]** appears.

⚡ Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing.

## Emergency calls

Your phone supports international emergency numbers, for example, 112 or 911. You can normally use these numbers to make emergency calls in any country, with or without the SIM card inserted, if you are within range of a network.

⚡ In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.

To make an emergency call

- Enter 112 (the international emergency number) and press **[Call]**.

To view your local emergency numbers

- 1 Select **Menu > Contacts**.
- 2 Scroll to **New contact** and select **Options > Special numbers > Emergency nos.**

## Call list

You can view information about answered **[Answered]**, dialled **[Dialled]** and missed or rejected **[Missed]** calls.

To call a number from the call list

- 1 Press **[Call list]** and scroll to a tab.
- 2 Scroll to a name or a number and press **[Call]**.

## Contacts

You can save names, phone numbers and personal information in **Contacts**. Information can be saved in the phone memory or on the SIM card.

⚡ You can synchronise your contacts using the *Sony Ericsson PC Suite*.

To add a phone contact

- 1 Select **Menu > Contacts**.
- 2 Scroll to **New contact** and select **Add**.
- 3 Enter the name and select **OK**.
- 4 Scroll to **New number** and select **Add**.
- 5 Enter the number and select **OK**.
- 6 Select a number option.
- 7 Scroll between the tabs and add information to the fields.
- 8 Select **Save**.

## Calling contacts

To call with Smart search

- 1 Press **[Smart search]** to enter a sequence of (at least two) digits. All entries which match the sequence of digits or corresponding letters are shown in a list.
- 2 Scroll to a contact or a phone number and press **[Call]**.

To turn on or off Smart search

- 1 Select **Menu > Settings > Calls > Smart search**.
- 2 Select an option.

## Imaging

You can take photos and record video clips to view, save or send. You find saved photos and video clips in **Media** and in **File manager**.

### Using the camera

- Select **Menu > Camera**.

## Viewfinder and camera keys

- 1 Zoom indicator

- 2 Zoom in or out
- 3 Take photos/Record video
- 4 Select still camera or video camera
- 5 Brightness indicator
- 6 Brightness
- 7 Self-timer
- 8 Night mode
- 9 Camera: **Shoot mode**  
Video: **Video length**
- 10 Camera key guide

To take a photo

- 1 Activate the camera and press the navigation key to scroll to **[Camera]**.
- 2 Press the centre selection key to take a photo. The photo is automatically saved.
- 3 Press **Back** to return to the viewfinder to take another photo.

To record a video clip

- 1 Activate the camera and press the navigation key to scroll to **[Video]**.
- 2 Press the centre selection key to start recording.
- 3 To stop recording, press the centre selection key. The video clip is automatically saved.
- 4 Press **Back** to return to the viewfinder to record another video clip.

To view photos

- 1 Activate the camera and press the navigation key to scroll to **[Photos]**.
- 2 Select **Options > View all photos**.
- 3 Press **[Left]** or **[Right]** to scroll to a photo.

To view video clips

- 1 Activate the camera and press the navigation key to scroll to **[Video]**.
- 2 Select **Options > View all clips**.
- 3 Press **[Left]** or **[Right]** to scroll to a video clip and press the centre selection key. Video clips are indicated by **[Video]** in the upper left corner.

## Music

You can listen to music, audio books and podcasts. Use the *Media Go™* application to transfer content to and from your phone. For more information, see *Transferring content to and from a computer* on page 25.

### Music player

To play music

- 1 Select **Menu > Media > Music**.
- 2 Browse by category using the navigation key.
- 3 Scroll to a title and select **Play**.

To stop playing music

- Press the centre selection key.

To fast forward or rewind

- Press and hold down **[Fast forward]** or **[Rewind]**.

To move between tracks

- Press **[Previous]** or **[Next]**.

To change the volume

- Press the volume key up or down.

## PlayNow™

When you select **PlayNow™** you enter **PlayNow™** arena, where you can download music, games, ringtones, themes and wallpapers. You can preview or listen to content before you purchase and download it to your phone. If you cannot use **PlayNow™** and **PlayNow™** arena, see *I cannot use Internet-based services* on page 35.

⚡ This service is not available in all countries.

For extended functionality, you can also access the **PlayNow™** arena Web shop on a computer from [www.playnow-arena.com](http://www.playnow-arena.com). For more information, go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to read the *PlayNow™* arena Feature guide.

To use PlayNow™

- 1 Select **Menu > PlayNow™**.
- 2 Scroll through **PlayNow™** arena and follow the instructions to preview and purchase content.

## Radio

⚡ Do not use your phone as a radio in places where this is prohibited.

To turn on the radio

- 1 Connect a handsfree to the phone.
- 2 Select **Menu > Entertainment > Radio**.

**Saving channels**  
You can save up to 20 preset channels.

To save channels automatically

- Select **Options > Auto save**.

To switch between saved channels

- Press **(F5)** or **(F6)**.

## Transferring and handling content

You can transfer and handle content such as pictures and music.

- You are not allowed to exchange some copyright-protected material. **(F)** identifies a protected item.

### Handling content in the phone

You can use **File manager** to handle content saved in the phone memory or on a memory card. Tabs and icons in **File manager** show where the content is saved. If the memory is full, delete some content to create space.

To select more than one item in a folder

- 1 Select **Menu > Organiser > File manager**.

- 2 Scroll to a folder and select **Open**.

- 3 Select **Options > Mark > Mark several**.

- 4 For each item you want to mark, scroll to the item and select **Mark**.

To move items between the phone memory and the memory card

- 1 Select **Menu > Organiser > File manager**.

- 2 Find an item and select **Options > Manage file > Move**.

- 3 Select **Memory card or Phone**.

- 4 Scroll to a folder and select **Open**.

- 5 Select **Paste**.

### Sending content to another phone

You can send content, for example, in messages or using Bluetooth™ wireless technology.

To send content

- 1 Scroll to an item and select **Options > Send**.

- 2 Select a transfer method.

- Make sure the receiving device supports the transfer method you select.

### Using a USB cable

You can connect your phone to a computer with a USB cable. If you are using a PC, you are asked to install PC Companion the first time you connect.

- You may have to purchase a USB cable separately.

- Only use a USB cable supported by your phone.

### PC Companion

PC Companion lets you:

- Explore content in your phone.

- Use your phone as a modem.

- Install PC Software used to synchronise, transfer and back up phone content.

- For more information, go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to read Feature guides.

To install PC Companion

- 1 Connect your phone to a PC with a USB cable supported by your phone.

- 2 **Computer:** Follow the instructions.

To disconnect the USB cable safely

- Do not disconnect the USB cable when transferring content as this may corrupt the content.

- 1 **Computer:** Right-click the Safely Remove Hardware icon in *Windows Explorer*.

- 2 Select the drives you want to disconnect. Select **Stop**.

- 3 Wait for *Windows* to notify you that it is safe to remove the drive. Disconnect the USB cable.

### Required operating systems

You need one of these operating systems to use Sony Ericsson PC software:

- Microsoft® Windows Vista™ Service Pack 2 or higher
- Microsoft® Windows XP, Service Pack 2 or higher

### Drag and drop content

You can drag and drop content between your phone, a memory card and a computer in *Microsoft Windows Explorer*.

To drag and drop content

- 1 Connect your phone to a computer using a USB cable.

- 2 **Computer:** Wait until the phone memory and memory card appear as external disks in *Windows Explorer*.

- 3 Drag and drop selected files between the phone and the computer.

### Transferring content to and from a computer

You can use Media Go™ to transfer media content between your phone and a computer.

- Media Go™ is available for download through PC Companion or from [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

To transfer content using Media Go™

- 1 Connect the phone to a computer with a USB cable supported by your phone.

- 2 **Computer:** Select *Start/Programs/Sony/Media Go™*.

- 3 Select *Transfer to or from Device using Media Go™* and click **OK**.

- 4 Wait until the phone appears in Media Go™.

- 5 Move files between your phone and the computer in Media Go™.

### Backing up and restoring

You can back up and restore contacts, the calendar, tasks, notes and bookmarks using the *Sony Ericsson PC Suite*. Before backing up and restoring, you need to install the *Sony Ericsson PC Suite* which is available through PC Companion or from [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

You can back up and restore contacts in your phone using a memory card. You can move content between the

memory card and the phone memory. See *Handling content in the phone* on page 22.

- Back up your phone content regularly to make sure you do not lose it.

To make a backup using the Sony Ericsson PC Suite

- 1 **Computer:** Start the *Sony Ericsson PC Suite* from *Start/Programs/Sony Ericsson/Sony Ericsson PC Suite*.

- 2 Follow the instructions in the *Sony Ericsson PC Suite* for how to connect.

- 3 Go to the backup and restore section in the *Sony Ericsson PC Suite* and make a backup of your phone content.

## Messaging

To view a message from the inbox

- 1 Select **Menu > Messaging > Messages > Inbox**.

- 2 Scroll to the message and select **View**.

### Sending messages

You can send messages from your phone. The maximum size of a standard text message is 160 characters including spaces if no other items are added to the message. If you enter more than 160 characters, a second message is created. Your messages are sent as one concatenated message.

To create and send a message

- 1 Select **Menu > Messaging > Write new > Message**.
- 2 Enter text. To add items to the message, press **(F)**, scroll **(G)** and select an item.

- 3 Select **Continue > Contacts look-up**.

- 4 Select a recipient and select **Send**.

- If you send a message to a group, you may be charged for each member. Contact your service provider for details.

### Conversations

You can choose whether to view your messages in **Conversations** or **Inbox**. A messaging conversation shows all messaging communication between you and one of your contacts.

To view messages in Conversations

- Select **Menu > Messaging > Inbox > the Conversations tab**.
- Select **Menu > Messaging > Conversations** and select a conversation.

To send a message from Conversations

- 1 Select **Menu > Messaging**.

- 2 Select **Conversations**, or select **Inbox > the Conversations tab**.

- 3 Select a conversation.

- 4 Write a message and select **Send**.

### Email

You can use standard email functions and your computer email address in your phone.

- You can synchronise your email using Microsoft® Exchange ActiveSync® application.

### Before using email

You can use the Basic setup to check if settings are available for your email account or you can enter them manually. You can also receive settings at [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

To create an email account for the first time

- 1 To start the basic setup, select **Menu > Messaging > Email**.

- 2 Follow the instructions to create the account.

- If you enter settings manually, you can contact your email provider for more information. An email provider could be the company that supplied your email address.

To write and send an email message

- 1 Select **Menu > Messaging > Email > Write new**.

- 2 Select **Add > Enter email address**. Enter the email address and select **OK**.

- 3 To add more recipients, scroll to **To:** and select **Edit**.

- 4 Scroll to an option and select **Add > Enter email address**. Enter the email address and select **OK**. When you are ready, select **Done**.

- 5 Select **Edit** and enter a subject. Select **OK**.

- 6 Select **Edit** and enter the text. Select **OK**.

- 7 Select **Add** and choose a file to attach.

- 8 Select **Continue > Send**.

To receive and read an email message

- 1 Select **Menu > Messaging > Email > Inbox > Options > Check new email**.

- 2 Scroll to the message and select **View**.

## Internet

If you cannot use the Internet, see *I cannot use Internet-based services* on page 35.

To start browsing

- 1 Select **Search**.

- 2 Enter a Web address, a search phrase or the name of a bookmark.

- 3 Scroll to an item in the list and select **Go to** or **Search**.

To exit the browser

- Select **Options > Exit browser**.

## More features

### Flight mode

In **Flight mode** the network and radio transceivers are turned off to prevent disturbance to sensitive equipment. When the flight mode menu is activated you are asked to select a mode the next time you turn on your phone:

- **Normal mode** – full functionality
- **Flight mode** – limited functionality

To activate the flight mode menu

- Select **Menu > Settings > General > Flight mode > Continue > Show at startup**.

To select flight mode

- 1 When the flight mode menu is activated, turn off your phone.

- 2 Turn on your phone and select **Flight mode**. **(G)** appears.

### Update Service

Your phone has software which you can update in order to improve performance. You can access Update Service using your phone or a PC with an Internet connection.

- Accessing Update Service using your phone is not possible in all countries/regions.

To view the current software in the phone

- 1 Select **Menu > Settings > General > Update service**.

- 2 Select **Software version**.

Update Service using a PC

You can update your phone using a USB cable and an Internet-connected PC.

- Make sure all personal data in your phone memory is backed up before you perform an update using a PC. See *Backing up and restoring* on page 25.

To use Update Service using a PC

- Go to [www.sonyericsson.com/updateservice](http://www.sonyericsson.com/updateservice).

### Alarms

You can set a sound or the radio as an alarm signal. The alarm sounds even if the phone is turned off. When the alarm sounds you can silence it or turn it off.

To set the alarm

- 1 Select **Menu > Alarms**.

- 2 Scroll to an alarm and select **Edit**.

- 3 Scroll to **Time:** and select **Edit**.

- 4 Enter a time and select **OK > Save**.

To set the alarm signal

- 1 Select **Menu > Alarms**.

- 2 Scroll to an alarm and select **Edit**.

- 3 Scroll to the **(F)** tab.

- 4 Scroll to **Alarm signal:** and select **Edit**.

- 5 Find and select an alarm signal. Select **Save**.

To silence the alarm

- When the alarm sounds, press any key.

- To repeat the alarm, select **Snooze**.

To turn off the alarm

- When the alarm sounds, press any key, then select **Turn off**.

### Calendar

- You can synchronise your calendar with a computer calendar, with a calendar on the web or with a Microsoft® Windows Server® (Outlook®) application.

### Appointments

You can add new appointments or reuse existing appointments.

To add an appointment

- 1 Select **Menu > Organiser > Calendar**.

- 2 Select a date.

- 3 Scroll to **New appointment** and select **Add**.

- 4 Enter the information and confirm each entry.

- 5 Select **Save**.

To edit an appointment

- 1 Select **Menu > Organiser > Calendar**.

- 2 Select a date.

- 3 Scroll to an appointment and select **View**.

- 4 Select **Options > Edit**.

- 5 Edit the appointment and confirm each entry.

- 6 Select **Save**.

To set when reminders should sound

- 1 Select **Menu > Organiser > Calendar**.

- 2 Select a date.

- 3 Select **Options > Advanced > Reminders**.

- 4 Select an option.

- A reminders option set in calendar affects a reminders option set in tasks.

### Ringtones

To set a ringtone

- 1 Select **Menu > Settings > Sounds & alerts > Ringtones**.

- 2 Find and select a ringtone.

To turn off the ringtone

- Press and hold down **(F) (G)**. **(G)** appears.

- The alarm signal is not affected.

### Locks

#### SIM card lock

This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on, you have to enter a PIN (Personal Identity Number).

If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal

Unlocking Key). Your PIN and PUK are supplied by your network operator.

To unlock the SIM card

- 1 When **PIN blocked** appears, enter your PUK and select **OK**.

- 2 Enter a new four-to-eight-digit PIN and select **OK**.

- 3 Re-enter the new PIN and select **OK**.

To edit the PIN

- 1 Select **Menu > Settings > General > Security > Locks > SIM protection > Change PIN**.

- 2 Enter your PIN and select **OK**.

- 3 Enter a new four-to-eight-digit PIN and select **OK**.

- 4 Re-enter the new PIN and select **OK**.

- If **Codes do not match** appears, you entered the new PIN incorrectly. If **Wrong PIN** appears, followed by **Old PIN:**, you entered your old PIN incorrectly.

## Troubleshooting

Some problems can be fixed using Update Service. Using Update Service on a regular basis will optimise the phone's performance. See *Update Service* on page 30.

Some problems will require you to call your network operator.

For more support go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

- 4 Enter the number, including the international "+" sign and country code.
- 5 Select **Save**.

To select an MMS profile

- 1 Select **Menu > Settings > Connectivity > Message settings > Picture message**.

- 2 Select an existing profile or create a new one.

To set the message server address

- 1 Select **Menu > Settings > Connectivity > Message settings > Picture message**.

- 2 Scroll to a profile and select **Options > Edit**.

- 3 Scroll to **Message server** and select **Edit**.

- 4 Enter the address and select **OK > Save**.

**I cannot synchronise or transfer content between my phone and my computer, when using a USB cable.**

The cable or software has not been properly installed. Go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to read Feature guides which contain detailed installation instructions and troubleshooting sections.

### Error messages

#### Insert SIM

There is no SIM card in your phone or you may have inserted it incorrectly.

See *To insert the SIM card* on page 3.

The SIM card connectors need cleaning. If the card is damaged, contact your network operator.

#### Insert correct SIM card

Your phone is set to work only with certain SIM cards.

Check if you are using the correct operator SIM card.

#### Wrong PIN/Wrong PIN2

You have entered your PIN or PIN2 incorrectly.

Enter the correct PIN or PIN2 and select **Yes**.

#### PIN blocked/PIN2 blocked

You have entered your PIN or PIN2 code incorrectly three times in a row.

To unlock, see *SIM card lock* on page 32.

#### No netw. coverage

- Your phone is in flight mode. See *Flight mode* on page 29.

- Your phone is not receiving any network signal, or the received signal is too weak. Contact your network operator and make sure that the network has coverage where you are.

- The SIM card is not working properly. Insert your SIM card in another phone. If this works, it is probably your phone that is causing the problem. Please contact the nearest Sony Ericsson service location.

#### Emerg. calls only

You are within range of a network, but you are not allowed to use it. However, in an emergency, some network operators allow you to call the international emergency number 112. See *Emergency calls* on page 15.

## Legal information

**Sony Ericsson**

FCC Statement  
Declaration of Conformity

**Sony Ericsson J105a**

UMTS HSPA Band 1 2 5 GSM GPRS/EDGE 850/900/1800/1900

English

## **Radio wave exposure and Specific Absorption Rate (SAR) information**

This mobile phone model J105a has been designed to comply with applicable safety requirements for exposure to radio waves. These requirements are based on scientific guidelines that include safety margins designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardized methods with the phone transmitting at its highest certified power level in all used frequency bands.

While there may be differences between the SAR levels of various phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.

For more information on SAR, please refer to the safety chapter in the User's Guide.

SAR data information for residents in countries that have adopted the SAR limit recommended by the International Commission of Non-Ionizing Radiation Protection (ICNIRP), which is 2 W/kg averaged over ten (10) gram of tissue (for example European Union, Japan, Brazil and New Zealand):

The highest SAR value for this model phone when tested by Sony Ericsson for use at the ear is 1.22 W/kg (10g).

## FCC Statement

This device complies with Part 15 of the FCC rules.

Operation is subject to the following two conditions: (1)

This device may not cause harmful interference, and (2)

This device must accept any interference received, including interference that may cause undesired operation.

Any change or modification not expressly approved by Sony Ericsson may void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Industry Canada Statement

This device complies with RSS-210 of Industry Canada.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

# Sony Ericsson

## Important information

## Sony Ericsson Consumer Web site

At [www.sonyericsson.com/support](http://www.sonyericsson.com/support) there is a support section where help and tips are only a few clicks away. Here you will find the latest computer software updates and tips on how to use your product more efficiently.

## Service and support

You have access to a portfolio of exclusive service advantages such as:

- Global and local Web sites providing support.
- A global network of call centres.
- An extensive network of Sony Ericsson service partners.
- A warranty period. Learn more about the warranty conditions in the Important information.

At [www.sonyericsson.com/support](http://www.sonyericsson.com/support), you can find the latest support tools and information. For operator-specific services and features, please contact your network operator.

You can also contact our call centres. If your country/region is not represented in the list below, please contact your local dealer. (Calls are charged according to national rates, including local taxes, unless the phone number is a toll-free number.)

If your product needs service, please contact the dealer from whom it was purchased, or one of our service partners. For warranty claims, save proof of purchase.

## Guidelines for Safe and Efficient Use

Please follow these guidelines. Failure to do so might entail a potential health risk or product malfunction. If in doubt as to its proper function, have the product checked by a certified service partner before charging or using it.

## Recommendations for care and safe use of our products

- Handle with care and keep in a clean and dust-free place.
- **Warning!** May explode if disposed of in fire.

- Do not expose to liquid or moisture or excess humidity.
- For optimum performance, the product should not be operated in temperatures below  $-10^{\circ}\text{C}(+14^{\circ}\text{F})$  or above  $+45^{\circ}\text{C}(+113^{\circ}\text{F})$ . Do not expose the battery to temperatures above  $+60^{\circ}\text{C}(+140^{\circ}\text{F})$ .

- Do not expose to flames or lit tobacco products.
- Do not drop, throw or try to bend the product.
- Do not paint or attempt to disassemble or modify the product. Only Sony Ericsson authorised personnel should perform service.

- Consult with authorised medical staff and the instructions of the medical device manufacturer before using the product near pacemakers or other medical devices or equipment.

- Discontinue use of electronic devices, or disable the radio transmitting functionality of the device, where required or requested to do so.
- Do not use where a potentially explosive atmosphere exists.
- Do not place the product, or install wireless equipment, in the area above an air bag in a car.
- **Caution:** Cracked or broken displays may create sharp edges or splinters that could be harmful upon contact.
- Do not use the Bluetooth Headset in positions where it is uncomfortable or will be subject to pressure.

## Children

**Warning!** Keep out of the reach of children. Do not allow children to play with mobile phones or accessories. They could hurt themselves or others. Products may contain small parts that could become detached and create a choking hazard.

## Power supply (Charger)

Connect the charger to power sources as marked on the product. Do not use outdoors or in damp areas. Do not alter or subject the cord to damage or stress. Unplug the unit before cleaning it. Never alter the plug. If it does not fit into the outlet, have a proper

outlet installed by an electrician. When a power supply is connected there is a small drain of power. To avoid this small energy waste, disconnect the power supply when the product is fully charged. Use of charging devices that are not Sony Ericsson branded may pose increased safety risks.

### **Battery**

New or idle batteries can have short-term reduced capacity. Fully charge the battery before initial use. Use for the intended purpose only. Charge the battery in temperatures between +5°C(+41°F) and +45°C(+113°F). Do not put the battery into your mouth. Do not let the battery contacts touch another metal object. Turn off the product before removing the battery. Performance depends on temperatures, signal strength, usage patterns, features selected and voice or data transmissions. Only Sony Ericsson service partners should remove or replace built-in batteries. Use of batteries that are not Sony Ericsson branded may pose increased safety risks. Replace the battery only with another Sony Ericsson battery that has been qualified with the product per the standard IEEE-1725. Use of an unqualified battery may present a risk of fire, explosion, leakage or other hazard.

### **Personal medical devices**

Mobile phones may affect implanted medical equipment. Reduce risk of interference by keeping a minimum distance of 15 cm(6 inches) between the phone and the device. Use the phone at your right ear. Do not carry the phone in your breast pocket. Turn off the phone if you suspect interference. For all medical devices, consult a physician and the manufacturer.

### **Driving**

Some vehicle manufacturers forbid the use of phones in their vehicles unless a handsfree kit with an external antenna supports the installation. Check with the vehicle manufacturer's representative to be sure that the mobile phone or Bluetooth handsfree will not affect the electronic systems in the vehicle. Full attention should be given to driving at all times and local laws and

regulations restricting the use of wireless devices while driving must be observed.

### **GPS/Location based functions**

Some products provide GPS/Location based functions. Location determining functionality is provided "As is" and "With all faults". Sony Ericsson does not make any representation or warranty as to the accuracy of such location information.

Use of location-based information by the device may not be uninterrupted or error free and may additionally be dependent on network service availability. Please note that functionality may be reduced or prevented in certain environments such as building interiors or areas adjacent to buildings.

Caution: Do not use GPS functionality in a manner which causes distraction from driving.

### **Emergency calls**

Calls cannot be guaranteed under all conditions. Never rely solely upon mobile phones for essential communication. Calls may not be possible in all areas, on all networks, or when certain network services and/or phone features are used.

### **Antenna**

Use of antenna devices not marketed by Sony Ericsson could damage the phone, reduce performance, and produce SAR levels above the established limits. Do not cover the antenna with your hand as this affects call quality, power levels and can shorten talk and standby times.

### **Radio Frequency (RF) exposure and Specific Absorption Rate (SAR)**

When the phone or Bluetooth handsfree is turned on, it emits low levels of radio frequency energy. International safety guidelines have been developed through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure. The guidelines include a safety margin

designed to assure the safety of all persons and to account for any variations in measurements.

Specific Absorption Rate (SAR) is used to measure radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but because the phone is designed to use the minimum power necessary to access the chosen network, the actual SAR level can be well below this value. There is no proof of difference in safety based on difference in SAR value.

Products with radio transmitters sold in the US must be certified by the Federal Communications Commission (FCC). When required, tests are performed when the phone is placed at the ear and when worn on the body. For body-worn operation, the phone has been tested when positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when properly used with an appropriate Sony Ericsson accessory and worn on the body.

For more information about SAR and radio frequency exposure, go to: [www.sonyericsson.com/health](http://www.sonyericsson.com/health).

### **Flight mode**

Bluetooth and WLAN functionality, if available in the device, can be enabled in Flight mode but may be prohibited onboard aircraft or in other areas where radio transmissions are prohibited. In such environments, please seek proper authorisation before enabling Bluetooth or WLAN functionality even in Flight mode.

### **Malware**

Malware (short for malicious software) is software that can harm the mobile phone or other computers. Malware or harmful applications can include viruses, worms, spyware, and other unwanted programs. While the device does employ security measures to resist such efforts, Sony Ericsson does not warrant or represent that the device will be impervious to the introduction of malware. You can however reduce the risk of malware attacks by using care when downloading content or accepting

applications, refraining from opening or responding to messages from unknown sources, using trustworthy services to access the Internet, and only downloading content to the mobile phone from known, reliable sources.

### Accessories

Use only Sony Ericsson branded original accessories and certified service partners. Sony Ericsson does not test third-party accessories. Accessories may influence RF exposure, radio performance, loudness, electric safety and other areas. Third-party accessories and parts may pose a risk to your health or safety or decrease performance.

### Accessible Solutions/Special Needs

In the US, compatible Sony Ericsson phones may offer compatibility with TTY terminals (with use of necessary accessory). For more information call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or go to [www.sonyericsson-snc.com](http://www.sonyericsson-snc.com).

### Disposal of old electrical and electronic equipment

Electronic equipment and batteries should not be included as household waste but should be left at an appropriate collection point for recycling. This helps prevent potential negative consequences for the environment and human health. Check local regulations by contacting your local city office, your household waste disposal service, the shop where you purchased the product or calling a Sony Ericsson call centre. Do not attempt to remove internal batteries. Internal batteries shall be removed only by a waste treatment facility or trained service professional.

### Disposing of the battery

Check local regulations or call a Sony Ericsson call centre for information. Never use municipal waste.

## Memory card

If the product comes complete with a removable memory card, it is generally compatible with the handset purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use. If the product is equipped with a memory card reader, check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

## Warning!

If the device requires an adapter for insertion into the handset or another device, do not insert the card directly without the required adapter.

## Precautions on memory card use

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.

- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

### **Protection of personal information**

Erase personal data before disposing of the product. To delete data, perform a master reset. Deleting data from the phone memory does not ensure that it cannot be recovered. Sony Ericsson does not warrant against recovery of information and does not assume responsibility for disclosure of any information even after a master reset.

### **Loudness warning!**

Avoid volume levels that may be harmful to your hearing.

## **End User Licence Agreement**

Software delivered with this device and its media is owned by Sony Ericsson Mobile Communications AB, and/or its affiliated companies and its suppliers and licensors.

Sony Ericsson grants you a non-exclusive limited licence to use the Software solely in conjunction with the Device on which it is installed or delivered. Ownership of the Software is not sold, transferred or otherwise conveyed.

Do not use any means to discover the source code or any component of the Software, reproduce and distribute the Software, or modify the Software. You are entitled to transfer rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided the third party agrees in writing to be bound by the terms of this Licence.

This licence exists throughout the useful life of this Device. It can be terminated by transferring your rights to the Device to a third party in writing.

Failure to comply with any of these terms and conditions will terminate the licence immediately.

Sony Ericsson and its third party suppliers and licensors retain all rights, title and interest in and to the Software. To the extent that the Software contains material or code of a third party, such third parties shall be beneficiaries of these terms.

This licence is governed by the laws of Sweden. When applicable, the foregoing applies to statutory consumer rights.

In the event Software accompanying or provided in conjunction with your device is provided with additional terms and conditions, such provisions shall also govern your possession and usage of the Software.

## Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your mobile phone, original accessory delivered with your mobile phone, and/or your mobile computing product (hereinafter referred to as "Product").

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit [www.sonyericsson.com](http://www.sonyericsson.com) to get further information.

### Our warranty

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer. This Limited Warranty will last for a period of two (2) years as from the original date of purchase of the Product for your mobile phone, and for a period of one (1) year following the original purchase date of the Product for all original accessories

(such as the battery, charger or handsfree kit) which may be delivered with your mobile phone.

### **What we will do**

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorised distributors or service partners, in the country/region\* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads and other information may be lost when your Sony Ericsson Product is repaired or replaced. At present, Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

### **Conditions**

1. This Limited Warranty is valid only if the original proof of purchase for this Product issued by a Sony Ericsson authorised dealer specifying the date of purchase and serial number\*\*, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
2. If Sony Ericsson repairs or replaces the Product, the repair for the defect concerned, or the replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is

longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

3. This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged more than a hundred times. However, it will eventually wear out – this is not a defect and corresponds to normal wear and tear. When the talk-time or standby time is noticeably shorter, it is time to replace the battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and colour may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

Minor variations in camera image appearance may occur between phones. This is nothing uncommon and is not regarded as a defective camera module.

4. Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.
5. This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.
6. The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

Sony Ericsson disclaims any and all warranties, whether express or implied, for failures caused to the Product or peripheral devices as a result of viruses, trojan horses, spyware, or other malicious software. Sony Ericsson strongly recommends that you install appropriate virus protection software on your Product and any peripheral devices connected to it, as available, and update it regularly, to better protect your device. It is understood, however, that such software will never fully protect your Product or its peripheral devices and Sony Ericsson disclaims all warranties, whether express or implied, in case of failure by such antivirus software to fulfil its intended purpose.

7. Tampering with any of the seals on the Product will void the warranty.
8. THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the dealer arising from their sales / purchase contract.

#### **\*Geographical scope of the warranty**

If you have purchased your Product in a country member of the European Economic Area (EEA) or in Switzerland or the Republic

of Turkey, and such Product was intended for sale in the EEA or in Switzerland or in Turkey, you can have your Product serviced in any EEA country or in Switzerland or in Turkey, under the warranty conditions prevailing in the country in which you require servicing, provided that an identical Product is sold in such country by an authorised Sony Ericsson distributor. To find out if your Product is sold in the country you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may not be available outside the country of original purchase, for example, due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other countries. Please note in addition that it may sometimes not be possible to repair SIM-locked Products.

\*\* In some countries/regions additional information (such as a valid warranty card) may be requested.
