## Features

---

### Listen to Internet Music Services

Enjoy Slacker®, and thousands of internet radio stations with vTuner™<sup>1</sup>

### Wirelessly listen to music stored on your computer through the MX700Ni

Easily connect the MX700Ni to your home network and listen to your music library stored on your computer.<sup>2</sup>

### Party Streaming™ Mode

Sync the MX700Ni with Sony's HomeShare® multi-room products to expand the listening experience into other rooms.<sup>6</sup> Once connected, music being played from the system can also be played on a HomeShare speaker simultaneously, creating a perfect environment for a party.

### Expand to more rooms

No room should be a quiet zone. Purchase additional HomeShare network speakers or docks and expand your music enjoyment into every room of the home.<sup>5</sup>

### DLNA® (Digital Living Network Alliance)

The music system will work with DLNA® compatible computers and storage devices.

### Works with iPhone®

Allows you to play & control music and video content stored on your iPhone®, and charge it while it's docked

### Made for iPod®

Allows you to play & control music and video content stored on your iPod®, and charge it while it's docked<sup>3</sup>

### Audio-in

Allows you to easily connect other audio sources including PCs, MP3 players, and more
