

DCR-TRV80

Digital Handycam® Camcorder

The DCR-TRV80 is the ultimate MiniDV Handycam® Camcorder, with a 2.0 Megapixel Advanced HAD™ CCD Imager, 3.5" Touch Panel LCD Screen, Networking Capability with Bluetooth™ Technology and BIP (Basic Image Profile).

FEATURES

2.1 Megapixel (Gross) Advanced HAD™ CCD Imager

1/3.6" Advanced HAD™ (Hole Accumulation Diode) CCD imager with 1080K (effective) video pixels provides excellent detail and clarity, for exceptional digital video performance. Realize unprecedented digital still images with 1920K (effective) pixels. The Megapixel technology enhances your digital videos (**530 lines of horizontal resolution**) and digital photography performance.

MiniDV Recording

MiniDV digital recording format delivers 3X the color bandwidth of VHS and lower signal to noise ratio compared to analog formats, providing stunning video performance comparable to DVD.

► Network Capability with Bluetooth™ Technology

™ Connect the camera to the Internet for PC-free networking. The Network function allows you to browse the web, send and receive email messages (with attachments) or upload digital still images and MPEG1 movies stored on Memory Stick® media to Sony's ImageStation® storage site. Connect to the Internet with the optional hardwired USB Network adapter (analog phone line to USB) or wirelessly through Bluetooth™ technology to compatible Bluetooth modems or cellular phones (Compatible ISP required). **AOL compatible:** AOL members can enjoy networking features listed above with the exception of receiving email. The BIP (Basic Image Profile) feature allows you to "push" or exchange images wirelessly to other BIP compatible devices (i.e. printers, computers, and camcorders) for easy transfer without a cabled connection.

Professional Quality Carl Zeiss® Vario-Sonnar® T*Lens

Carl Zeiss lenses have an advanced optical multi-layer coating offering less glare and flare with increased contrast. This results in vivid image brilliance, true-to-life color saturation, and perfect renditions of subtle tones.

► STEP-UP FEATURE

10X Optical/120X Precision Digital Zoom

The optical zoom helps to bring the action up close from far away. In addition, the digital zoom interpolation means that extreme digital zooming is clearer, with less distortion than previous types of digital zooms.

► 3.5" SwivelScreen™ Touch Panel LCD Display (184K Pixels) with Stylus

Provides excellent viewing clarity with improved resolution. The 184K pixel LCD display makes images sharp and detailed during playback or when monitoring recording. The "On Screen" touch panel LCD system allows you to navigate through the camera's menu system by touching the LCD screen using the supplied stylus.

Precision Color Viewfinder (180K Pixels)

Increased pixel count provides more detail and clarity of video subjects.

USB Streaming

Stay connected with family and friends by broadcasting live video with audio, via the Internet with the USB interface. You can even playback your favorite recorded scene stored on tape. It's like having your own web camera or video conferencing system.

Digital Still Memory Mode with Memory Stick® Media

Digital Still Memory Mode captures high quality Megapixel still images at up to 1600 x 1200 resolution directly to Memory Stick media. Images are stored in a JPEG format providing easy transfer to PCs for emailing, printing, or sharing with family and friends. 8MB Memory Stick media is supplied.

MPEG Movie EX Mode

Unlike earlier MPEG1 Movies, MPEG Movie EX will allow you to record uninterrupted to the capacity of the Memory Stick media. For example a 128MB Memory Stick will record up to 85 minutes of non-stop MPEG1 video.

Manual Focus/Zoom Ring

Provides a sharper focus in low or no-light situations. By setting the focus to manual the focus ring can be turned to achieve a more accurate focus in dark situations.

Expanded Focus Indicator

While using the manual focus ring, the camera automatically adjusts to 2x magnification, allowing for extremely accurate focus adjustment.

Progressive Shutter System

A mechanical shutter system that provides Progressive Scan performance while utilizing an interlaced scanning system. Digital still images will be sharp and clear with excellent definition.

Intelligent Pop-Up Flash

Provides the appropriate amount of flash for optimum brightness and color accuracy in virtually any lighting condition when shooting still images.

i.LINK®* DV Interface (IEEE1394)

A high speed bi-directional digital video/audio communication between two compatible devices equipped with a IEEE1394 interface, including camcorders, digital VTRs, capture cards and PCs.

Super SteadyShot Picture Stabilization System

An advanced version of Sony's SteadyShot® System that controls an even higher range of shake and vibration frequencies to achieve an even higher level of smoothness without degradation of video like some other image stabilization systems.

Super NightShot Infrared System and Color Slow Shutter

With Sony's NightShot® infrared system, capture video in total darkness (0 lux) up to 10 feet away. Super NightShot 0 Lux recording mode automatically adjusts the shutter speed to increase picture brightness and clarity. Color Slow Shutter mode allows you to record in low light situations with full color detail by slowing down the shutter speed.

DCR-TRV80

ADDITIONAL FEATURES

12-Bit/16-Bit PCM Digital Stereo	InfoLithium® Battery with
14 Bit DXP A/D Conversion	AccuPower™ Meter System
Analog-to-Digital Conversion with	Intelligent Accessory Shoe
Pass-Through	Pixela ImageMixer CD-ROM
Battery Information	Software
Digital Picture Effects	Playback Zoom
Digital Program Editing	Program AE (Auto Exposure)
EXIF 2.2	Modes
Fader Effects	Simultaneous Record Mode

Assist Focus System	Management System

SPECIFICATIONS

Imaging Device: 1/3.6", 2110K Gross Pixels, Advanced HAD™ CCD

Video Actual: 1080K Pixels

Still Actual: 1920K Pixels

F: 1.8-2.1

Focal Distance: 4.5-45mm

35mm Conversion: 52-520mm (Camera Mode)
39-390mm (Photo Mode)

Filter Diameter: 37mm

Optical Zoom: 10X

Digital Zoom: 120X

Focusing: Full Range Auto/Manual (Touch Panel)

Minimum Illumination: 7 Lux (0 Lux with
NightShot® Infrared System)

NightShot Infrared System: Super NightShot, Color Slow Shutter

Shutter Speed: 1/4-1/4000 (Program AE Mode)

Memory Mode: Yes, 1600 x 1200, 640 x 480

MPEG Movie EX Mode: Yes

Viewfinder: Precision Color (180K Pixels)

LCD: 3.5" Color (184K Pixels)

Accessory Shoe: Yes (Intelligent)

Portable Printer Capable: Yes

Video Input/Output: Yes/Yes (Mini and S-Video)

Audio Input/Output: Yes/Yes

i.LINK® DV Interface (IEEE1394): Yes

USB Terminal: Yes

Memory Stick PRO™ Media Compatibility: Tested to support up to
1GB media capacity; does not support high speed transfer function;
does not support Access Control security function

USB Streaming: Yes

Headphone Jack: Yes (Mini, Stereo)

Mic-Input: Yes (Stereo)

White Balance: Auto, Outdoor, Indoor, Hold

Exposure: Yes/Touch Panel (24 Step)

Software OS Compatibility: Microsoft® Windows® 98SE, 2000, Me,
XP; Macintosh® 8.5.1 - 9.1**

Power Consumption (VF/LCD/VF+LCD): 4.1W/ 5.1W/ 5.4W

Dimensions (WHD): 2 7/8" x 3 3/4" x 6 3/4" (73mm x 93mm x 169mm)

Weight: 1 lb 9 oz (720g) without Tape and Battery

Supplied Accessories: AC-L15 Power Adapter/In Camera Charger,
NP-FM50 InfoLithium Rechargeable Battery, 8MB Memory
Stick® Media, RMT-811 Wireless Remote Commander®
Remote, 2 AA Batteries, A/V Cable, Lens Cap, Shoulder
Strap, USB Cable, LCD Cleaning Cloth, Stylus, CD-ROM
w/USB Driver (Pixela ImageMixer Ver. 1.5)
