FCC statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Sony Ericsson HBH-GV435

This manual is published by Sony Ericsson Mobile Communications AB, without any warranty. Improvements and changes to this manual necessitated by typographical errors, inaccuracies of current information, or improvements to programs and/or equipment, may be made by Sony Ericsson Mobile Communications AB at any time and without notice. Such changes will, however, be incorporated into new editions of this manual. All rights reserved.

©Sony Ericsson Mobile Communications AB, 2005

Publication number: LZT 108 7851/x P3A

Some of the services in this manual are not supported by all networks. This also applies to the GSM International Emergency Number 112. Contact your network operator or service provider if you are in doubt whether you can use a particular service or not.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Sony Ericsson is under license.

This product is leadfree and halogenfree.

Adding the headset to the phone
Adding the headset to the phone
Adding the headset to the phone
Adding the headset to the phone

Before you can use your Bluetooth headset with your phone it has to be added once to the phone. Follow the instructions from the phone user guide on how to turn on Bluetooth in your phone.

1. Turn on Bluetooth in your phone.
2. Turn on Bluetooth visibility in your phone. This makes your phone visible to other Bluetooth devices.
3. Prepare your headset according to page 14.
4. If your phone supports auto pairing, press YES when Add device? appears in your phone to complete the procedure. If not, continue with step 5.

Draft for Sony Ericsson Internal Use Only

5. Prepare your phone according to the phone's user guide on how to add a Bluetooth device. Please note that for some phones you may need to enter a passcode. The headset passcode is 0000.

After you have added the headset to the phone, it will automatically connect to the phone as soon as it is turned on and within range.

No connection between headset and phone

Make sure the headset is charged and within range of the phone. Check or redo the Bluetooth settings in the phone. Try to pair the headset again (see p.9).

For more information on Bluetooth and pairing, go to www.sonyericsson.com/learnabout

The headset is automatically switched off

- The battery is too low. The indicator light on the headset flashes red and you hear a low beep.
- The headset switches off if you do not add it to the phone within 10 minutes.

Unexpected behaviour

Reset the headset (see p.30).

Battery capacity

A battery that has been infrequently used, or a new one, could have reduced capacity. It may need to be recharged a number of times.

Redial does not work

If the call list in the phone is empty you cannot use the redial function.

Draft for Sony Ericsson Internal Use Only

Voice commands

Make sure that voice commands are enabled and recorded in your phone before you start using them.
