Pairing the headset

Before you can use your Bluetooth headset with your phone it has to be paired once to the phone. Follow the instructions from your phone User guide on how to turn on Bluetooth in the phone.

For phones that do not support auto pairing, see your phone User guide on how to pair a Bluetooth device. If required, the headset passcode is 0000.

**Note:** *The headset switches off if you do not pair it with the phone within 10 minutes.*

To pair the headset with the phone
1. Turn on Bluetooth in the phone.
2. Turn on Bluetooth visibility in the phone. This makes the phone visible to other Bluetooth devices.
3. Place the phone within 20 cm (8 inches) from the headset.
4. Make sure the headset is turned off. Press and hold down the power key for five seconds. Make sure the indicator light flashes red or green.
5. If the phone supports auto pairing, press *Yes* when *Add device*? appears in your phone to complete the procedure. If not, see the phone User guide.
6. The headset beeps and flashes green when successfully paired.

After you have added the headset to the phone, it will automatically connect to the phone as soon as it is turned on and within range.

Putting on the headset

To put on the headset
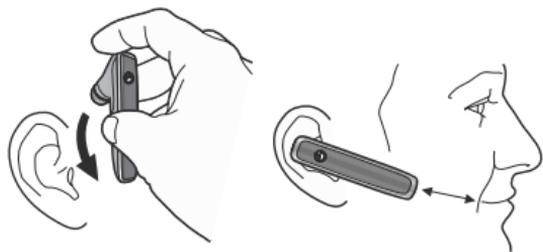

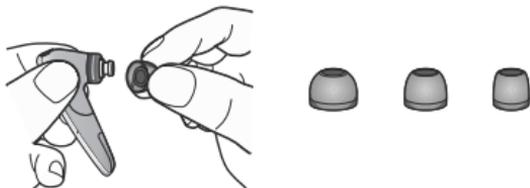

1 Attach the ear plug to the headset.
2 Make sure you place the earpiece firmly in your ear.
Warning! Loud volume could damage your hearing.

8

Turning on and off

To turn on the headset
• Press and hold down the on/off key for two seconds. A beep is heard and the indicator light flashes green.

To turn off the headset
• Press and hold down the on/off key for two seconds. A beep is heard and the indicator light is turned off.

Calling

When you have paired the headset with your phone, you can make and receive calls as long as the headset is turned on. For best performance the headset should be within 5 metres (16.5 feet) of the phone. Solid objects and walls in between and greater distance can affect the sound. We recommend that you wear your headset on the same side of your body as your phone.

To make a call
• Use the phone keys, and dial the number in the same way as you normally would with your phone. The call is automatically activated in the headset.

To end a call
• Press the call handling key.

To answer a call
• Press the call handling key.

To reject a call
• Press and hold down the call handling key for two seconds.

To redial a number
• Press the call handling key twice within a second.

Adjusting volume

To adjust speaker volume
• During a call, press the volume key on the phone.

Calling using voice commands
Voice commands can be useful when you are using the headset. By creating voice commands you can, for example, call someone by saying their name.

Note: To be able to use this function, you first have to activate voice control in your phone and record voice commands. For more information on voice commands, and if your phone supports it, see the phone User guide.

To make a call using voice commands
• Press the call handling key, wait for the ring signal and say the command.

Transferring sound

To transfer the sound from the phone to the headset
• During a call on the phone, press the call handling key. The sound is transferred to the headset.

To transfer the sound from the headset to the phone

See the phone User guide.

Resetting the headset

Reset the headset if it behaves unexpectedly.

To reset the headset

1. Enter pairing mode.
2. Simultaneously press the power key and the call handling key until the indicator light is turned off. For info on how to enter pairing mode, see Pairing the headset on page 7.

Battery

A battery that has been infrequently used, or a new one, could have reduced capacity. It may need to be recharged a number of times.

When the battery is too low, the indicator light flashes red and you hear a low beep. If you do not charge the headset, it automatically turns off.
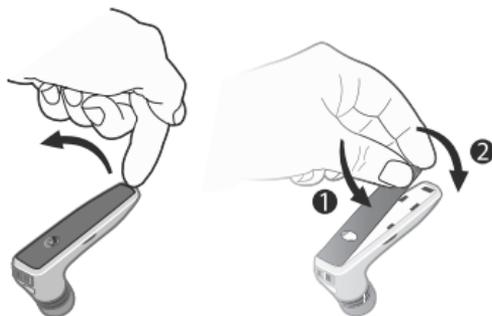

To check the battery status

Press the power key once shortly.

- one green flash - the battery needs charging.
- two green flashes - the battery is medium full.
- three green flashes - the battery is fully charged.

Removing the cover

To remove the cover
Regulatory information can be found under the cover.

Attaching the strap

Troubleshooting

No connection between headset and phone

Make sure the headset is charged and within range of the phone. Check or redo the Bluetooth settings in the phone. Try to pair the headset again.

The headset is automatically turned off

- The battery is too low. The indicator light on the headset flashes red and you hear a low beep.
- When the headset is in pairing mode it will automatically switch off if you do not add it to the phone within 10 minutes.

Unexpected behaviour

1. Connect the charger.
2. Disconnect the charger.
3. Reset the headset.

Redial does not work

If the call list in the phone is empty you cannot use the redial function.

Voice commands

Make sure that voice commands are enabled and recorded in your phone before you start using them.
