Features

Cinema-quality sound at home.

The sleek CT380 delivers a quality 300W¹, 2.1 channel listening experience that will complement your favorite music or movie soundtrack.

Easily connect to your devices.

Enjoy superior high-definition quality, including 4K pass through with 3 HDMI[®] inputs. Connect HD devices like your cable box, Blu-ray[®] player and, or gaming console. HDMI connectivity with Audio Return Channel support ensures simple, one cable TV connectivity and maximum Audio/Video performance².

Wireless Bluetooth[®] music streaming⁴.

Stream music and control your Bluetooth[®] audio⁴ experience with compatible music devices, smartphones or tablets.⁵ Enjoy simplified Bluetooth pairing with Near Field Connectivity (NFC); simply align compatible devices by touching their logos. Built-in SBC and AAC codec support avoids signal quality loss when streaming music wirelessly³.

Wider sound range.

4 Digital Sound fields are available for optimized playback. Enjoy movies as if on set, listen to music as if in a live setting, or watch sports with the intensity of being at the stadium. Select game mode for enhanced video game play, or simply use the ClearAudio+[™] setting for incredibly vibrant sound with more powerful bass and crisp highs.

Lossless High-Definition (HD) audio format support.

Featuring powerful DSP processing, the CT380 supports lossless audio playback for a sound experience par excellence. Experience movies just as the directors intended with Dolby[®] TrueHD and dts[®] HD Master Audio code support².

Easy installation and setup.

Inspired by flat panel design, the sleek design will compliment virtually any TV or room, and can be easily mount on the wall or rest on top of a TV stand or table. Ready to go at a moment's notice, the plug and play, wireless front-firing subwoofer is able to deliver a mean bass line from anywhere in the room.

Wireless, front-firing subwoofer fits anywhere.

The included wireless, front-firing subwoofer can deliver a mean bass-line and round out demanding music or theatrical soundtracks from anywhere in the room. Flexible positioning also allows for placing the sub on its side or upright.

Turn your smartphone into a remote control.

SONY

Available for both Android™ and compatible iOS devices. The SongPAL™ app lets you use your smartphone or tablet as a convenient system remote. It can even access, select, and playback the music files stored on your compatible device⁴.
