Features

Extraordinary clarity and color

Suddenly, everything looks better. All of your existing sports, TV shows and movies are upscaled to super clear quality. Even YouTube® clips and smartphone videos are enhanced with stunning results. The X-Reality™ PRO picture engine analyzes and refines color, clarity and contrast in real time for a beautifully natural picture.

Dynamic contrast

Edge LED backlighting with frame dimming enhances brightness and contrast. Rather than illuminating the entire screen, contrast is boosted in just the right areas for a more realistic picture.

A smarter TV

So much more than just 'Smart TV,' Android TV™ delivers great content, streaming apps and Android™ games to your TV. Voice search and personalized recommendations make for effortless entertainment^{1,2}.

More apps

The things you love doing on your tablet or smartphone can now be enjoyed on your TV. Log into your Google account once to access a huge collection of apps, games, movies, TV shows and more from Google Play™^{1,2}.

Just say what you want

Say "action movies" or "today's weather" and let Android™ TV do the work. Voice search helps you quickly find what you want. Simply speak into the optional One-Flick remote or your compatible mobile phone².

Google Cast™

With Google Cast™ built-in you can cast your favorite entertainment like HBO GO, Showtime Anytime, MLB.tv and more from your personal device to the big screen. You can cast from your Android phone or tablet, iPhone, iPad, Mac or Windows laptop or Chromebook².

Your personalized TV

Personalized content recommendations from Google Play™, YouTube and supported apps appear automatically in your home screen¹.

Stream PS3™ games directly to your TV³

Bring the immersive world of PlayStation® directly to your TV with PlayStation™ Now. Play select PlayStation® 3 games like you stream TV shows and movies – streamed directly to your TV. Connect a DUALSHOCK® 4 controller to your TV and choose from a variety of game rental periods³. Service available starting summer 2015.

Control your TV with your smartphone or tablet

Choose the Android TV remote application or Sony's TV SideView application. Either way, you'll have control with voice search, a keyboard and quick access buttons to the most popular apps².

Clear movement

TV that keeps up with real life. Sony's refresh rate technology (Motionflow™ XR 960) allows fast moving action sequences in sports and movies to be seen with lifelike clarity.
