## Features

- 2GB<sup>1</sup> Built-In Memory Store up to 1,350 songs<sup>2</sup> on the device.
- "Shuffle Shake" Function Shake the Walkman® player 3 times to easily switch the shuffle feature on. Shake it 3 more times to turn it off.
- Sports Functions Calorie Counter: Allows you to see how many calories you've burned based on your weight and length of workout.  
Target Settings: Allow you to set the amount of time you want to work out so the music will stop once the pre-determined length of time has passed.  
Stop Watch: You can time up to 9h 59m 59s by 1s increments.
- Water Resistant<sup>3</sup> Seamless, water-resistant, aluminum body.
- Built-In FM Tuner Provides accurate tuning of FM stereo radio stations. Presets allow the user to skip directly to the most listened to stations.
- Quick Battery Charge A three minute charge will provide up to 3 hours of playback.<sup>4</sup>
- Up to 18 hours Playback<sup>4</sup> The internal, embeded Lithium-Ion battery provides up to 18 hours of continuous playback.
- Compatible with Sony's Connect™ Music Store Connect.com offers one of the most extensive music collections online. Unique features such as Connect Sets and live radio make this a choice destination for customers looking to expand their music collection. It's easy to find and purchase single tracks or entire albums ranging from top hits to independent artists.
- Plays back MP3/ATRAC3®/ATRAC3plus™ Audio Formats For customers who already have an extensive music library, use the included software and hardware to store and playback their collection of MP3s. For the customer who is just getting into the world of digital music, Sony's ATRAC® format provides higher sound quality and smaller file sizes than many competing formats. This enables the user to store more music at higher quality for longer listening.
- WMA(non-DRM) and AAC(non-DRM) Playback and Support<sup>5</sup> Supports playback of WMA and AAC audio files to the Walkman player. Perfect for a customer who has a large collection of audio on their PC which was ripped from their personal CDs. This allows for tranfer of audio downloads, imports and self recorded tracks, but only works on files that are not protected by DRM (Digital Rights Management).
- 1-Line OEL Display Electroluminescence Display offers high quality and a unique look. View information about the music, settings and even time and date in any lighting condition.
- Rotating Display is designed to accomodate both left and right handed users for maximum flexibility.
- 5-Mode Equalizer Offers 5 different modes including: Heavy, Pop, Jazz, Custom and Off for enhanced sound.
- SonicStage® CP Music Management Software Allows users to manage their music, create playlists, burn CDs, import digital files and easily transfer music to their Walkman player.
- USB 2.0 Compatible<sup>6</sup> USB (Universal Serial Bus) provides extremely fast and easy transfer of audio files from computer to hard drive and flash players.
- Music Pacer Allows you to play songs using the automatic selection function in which the player changes the playlist automatically depending on your pace of movement, either walking or jogging.
- Supports CD Text and ID3 Tagging Allows you to easily view CD text and ID3 Tag information including song title, album title and artist name.

## Specifications

Measurements: 5/8 x 3 13/16 x 5/8" (15 x 96.5 x 15mm)

### Supplied Accessories

MDR-J011 Headphones

Sonic Stage CP Software CD-ROM

Quick Start Guide

Armband

USB Cable

Color: Black

UPC Code: 027242702141

1. User available memory = 2,035,974,144 bytes, a portion of which is used for data management functions.
2. Calculated on 4 minutes per song in ATRAC @ 48kbps with power save setting on "super", equalizer setting is "off" and GSensor setting is "off".
3. Not meant to be immersed or come in continuous contact with water.
4. Display must be in super power save mode when playing back in ATRAC3plus @ 132kbps, no equalizer. Actual battery life may vary based on product settings, usage patterns, environment and battery condition.
5. Does not support secure WMA and AAC files purchased from other music services. Only plays back unsecured WMA and AAC files ripped from CD.
6. Not all products with USB 2.0 connectors may communicate with each other due to chipset variations.
7. Music Pacer can only be used when music is playing.
8. Headphones are not water resistant.
