# Welcome

## Important Information

Before you use your device, please read the *Important Information* provided in your device or in the box.

## Assembly

To remove the back cover

To insert the micro UIM and micro SIM cards

- Insert the micro UIM card into the CTC card slot, and insert the micro SIM cards into the GSM card slot with the gold-coloured contacts facing down.
- ! The micro UIM card cannot work if it is inserted in the GSM card slot, and vice versa.
- ! Please do not plug or unplug the cards when the device is turned on!
- ! Your phone requires a micro UIM card and a micro SIM card. Inserting an incompatible UIM/SIM card in the card slot could damage the card or your phone, and Sony does not warrant and will not be responsible for any damage caused by use of incompatible or modified UIM/SIM cards.

To attach the back cover

# Basics

## Device overview

- |                      |                                   |
|----------------------|-----------------------------------|
| 1. Front camera lens | 8. Main microphone                |
| 2. Light sensor      | 9. Port for charger/USB cable     |

| 7. Camera key        | 14. Illuminating transparent band |
|                      | 15. Speaker                       |

! Use the accessories provided with your device, or other compatible accessories, for optimal performance.

## Turning on the device

### To turn on the device

- ! Make sure that the battery is charged for at least 30 minutes before you turn on the device for the first time.

- 1 Press and hold down the power key (⏻) until the device vibrates.
- 2 Wait a while for the device to start.

## Illuminating transparent band

The transparent band on your phone illuminates when you use certain applications, when an incoming call arrives, and when an alarm sounds. It then fades out after a few seconds to save power.

The colour of the illuminated band varies depending on the theme you are using. When you view photos in Gallery, the colour changes according to the photo you are viewing. When you play music with the music player, the colour changes every time a new album cover is displayed. You can adjust these various light effects.

### To set light effects for your device

- 1 From your Home screen, tap .
- 2 Tap **Settings** > **Display** > **Light effects**.
- 3 Select the effects that you want to use.

## Waking up the screen

### To activate the screen

- Briefly press the power key (⏻).

### To unlock the screen

- Drag  up or drag  down.

## Using the keys

### Back

- Go back to the previous screen
- Close the on-screen keypad, a dialog box, an options menu, or the Notification panel

### Home

- Go to the **Home** screen

### Task

- Tap to open a window showing your most recently used applications and a small apps bar

# Set up your device

## Android™ – what and why?

An Android™ phone can perform many of the same functions as a computer and you can customise it to your own needs. For example, you can add and delete applications, or enhance existing applications to improve functionality. You can also integrate applications on your Android™ phone with other applications and with online services that you use.

## What is different about Android?

Android™ is an open system, which means that you're not limited to using applications and services from only one provider.

## Basic settings

The first time you start your device, a setup guide explains basic device functions and helps you enter essential settings. You can also access the setup guide later.

### To access the setup guide manually

- 1 From the Home screen, tap .
- 2 Tap Settings > Setup guide.

# Transferring contacts to your new device

Transferring contacts to your new device can sometimes be complicated, but help is available.

You can transfer contacts from several device brands, including iPhone, Samsung, HTC and Nokia.

You need:

- An Internet-connected PC running Windows®
- A USB cable for your old device
- A USB cable for your new Android™ device
- Your old device
- Your new Android™ device

## Get started transferring your contacts

Use the PC Companion program to transfer your contacts. It's free, and the installation files are already saved on your new device. PC Companion also offers a range of other features, including help to update your device software.

### To install PC Companion

- 1 **New device:** Turn on your new Android™ device and connect it to a PC using a USB cable.
- 2 **New device:** Tap **Install** to install PC Companion on the PC.
- 3 **Computer:** If a popup window appears to notify you about available PC software, select *Run Startme.exe*.
- 4 **Computer:** Click *Install* to start the installation and then follow the instructions to complete the installation.

### To transfer contacts to your new device using PC Companion

- 1 Make sure that PC Companion is installed on your PC.
- 2 Open the PC Companion program on the PC, then click *Contacts Setup* and follow the instructions to transfer your contacts.

# Finding your way

## Home screen

The Home screen is your gateway to the main features on your device. You can customise your Home screen with widgets, shortcuts, folders, themes, wallpaper and other items.

The Home screen extends beyond the regular screen display width, so you need to flick left or right to view content in all of the Home screen's panes.

- The items in the bar at the bottom of the screen are always available for quick access.

### To go to the Home screen

- Press .

### To browse the Home screen

- Flick right or left.

### To change your Home screen wallpaper

- 1 Touch and hold an empty area on your Home screen until the device vibrates.
- 2 Tap **Wallpapers** and select an option.

## Widgets

Widgets are small applications that you can use directly on your Home screen. For example, the Music player widget allows you to start playing music directly.

Some widgets are resizable, so you can expand them to view more content or shrink them to save space on your Home screen.

## Application screen

The Application screen, which you open from your Home screen, contains the applications that come pre-installed on your device as well as the applications you download. The Application screen extends beyond the regular screen width, so you need to flick left and right to view all content.

## To open the Application screen

- From your **Home screen**, tap .

## To open an application

- From your **Home screen** or the Application screen, tap the application.

## Applications

An application is a phone program that helps you perform a task. For example, there are applications to make calls, take photos and download more applications.

## Status and notifications

The status bar at the top of your screen shows what's going on in your device. For example, new message and calendar notifications appear here.

## Checking notifications and ongoing activities

You can drag down the status bar to open the Notification panel and get more information. For example, you can use the panel to open a new message or view a calendar event. You can also open some applications that run in the background, such as the music player.

## To open the Notification panel

- Drag the status bar downwards.

## Settings menu

View and change settings for your device from the Settings menu.

### To access your device settings

- 1 From your **Home** screen, tap .
- 2 Tap **Settings**.

- 💡 You can also drag the status bar downwards on the Home screen and tap  to access your device settings.

# More basics

## Calling

### To make a call by dialling

- 1 From your **Home screen**, tap .
- 2 Find and tap **Phone**.
- 3 Enter the number of the recipient and tap  with an icon  or . To delete a number, tap .

### To end a call

- Tap .

### To answer a call

- Drag  to the right across the screen.

## Multimedia and text messaging

### To create and send a message

- 1 From your **Home screen**, tap , then find and tap .
- 2 Tap .
- 3 Tap , then select the desired recipients from the **Contacts** list. If the recipient is not listed as a contact, enter the contact's number manually and tap .
- 4 When you are finished adding recipients, tap **Done**.
- 5 Tap **Write message** and enter your message text.
- 6 If you want to add a media file, tap  and select an option.
- 7 To send the message, tap **Send** with an icon  or .

# Troubleshooting

## My device is not responding

If your device hangs, or if you cannot restart it normally, you can force the device to shut down.

To force the device to shut down

- 1 Remove the back cover.
- 2 Press and hold down the OFF button using the tip of a pen or a similar object. The device turns off automatically.

## The device does not recognise my wired headset

- Make sure the wired headset that you are using complies to the CTIA standard. Your device supports the CTIA standard, and may not be fully compatible with other standards such as OMTP.
- If you have a wireless headset that is compatible with your device, try using that instead.

# Legal information

## Sony M35c

Google Play™ is not available in all countries. Some of the services and features described in this Startup guide are not supported in all countries/regions or by all networks and/or service providers in all areas. Without limitation, this applies to the GSM International Emergency Number 112.
