# **XPFRIA**

# **Basic Manual**

### Preface

Thank you for buying "Xperia<sup>™</sup> Z Ultra" (simply called the

"product" from here on) Before using the product read "Basic Manual" (this manual) and "取扱説明書詳細版 (Full Instruction Manual)" (Japanese) to ensure safe use and handling

#### About Operating Instructions

#### Basic Manual (this manual)

Handles only basic operations for main features For detailed descriptions on various functions, refer to the Instruction Manual" (Japanese) application installed on the product or "取扱説明書詳細版 (Full Instruction Manual) (Japanese)" available on the au homepage. http://www.au.kddi.com/support/mobile/guide/manual/ · Company names and product names referred to in this

manual are trademarks or registered trademarks of respective companies. The TM, ® marks may be omitted in this manual "Instruction Manual" (Japanese) application

This product allows you to use the "Instruction Manual" (Japanese) application on the product to confirm detailed operational procedures.

Certain functions can be directly activated from the application screens on which their operations are described From the Home screen, [**III**] [Basic Manual] (Japanese)

Names and functions of parts

# Do you have everything?

Before your start using the product, make sure that you have all the following packaged with the product. Xperia<sup>™</sup> Z Ultra<sup>\*1</sup> Desktop Holder (SOL24PUA)\*

SOL24

 Sony Mobile TV antenna cable 01 (01SOHSA)

#### \*1 Including warranty

- 取扱説明書 (Instruction Manual) (Japanese) Xperia<sup>™</sup> Z Ultra)ご利用にあたっての注意事項 (Cautions on using Xperia<sup>™</sup> Z Ultra) (Japanese)
- 携帯電話機の比吸収率などについて (Radio Frequency (RF)
- exposure and Specific Absorption Rate (SAR)) (Japanese
- ・設定ガイド (Setting Guide) (Japanese) The following items are not included in the package.
- microSD memory card AC adapter
- Farphones
- microUSB cable
- Information
- · Purchase a specified charger (sold separately).
- · Illustrations used in this manual are just images for explanations. They may be different from actual ones.

# Charging

When you purchase your product, the internal battery is not fully charged. Charge the battery before use

#### Information

- When the charging starts, notification LED turns in red/orange/ green according to the battery level. Green LED indicates that the battery charge reaches 90 percent or more. To check the battery level, see the status bar in the top of the Home screen. Alternatively, from the Home screen, [**∰**]▶[Settings]▶[About phone]▶[Status] and see "Battery level". When the battery charge reaches 100 percent, "100%" is shown on the status bar
- and "Battery level", "Charged" appears on the unlock screen. When the battery level becomes low a pop-up window. "Connect charger" appears. Tap "Battery info" to check battery usage etc.
- . When you start charging with the product powered off, the power turns on even though operation is not available. Do not charge the battery in a place where the use is prohibited such as in airplane or hospital.
- It may take longer to complete for charging with a PC or while using the camera function

# Charging with the Desktop Holder

Charging with the supplied Desktop Holder (SOL24PUA) and Common AC Adapter 04 (sold separately) is explained

For Those Requiring an English Instruction Manual You can download the English version of the Basic Manual from the au website (available from approximately one month after the product is released)

#### Download URL: http://www.au.kddi.com/support/mobile/ guide/manual/

# Safety Precautions

Before you start using the product, make sure to read the Cautions on using Xperia<sup>™</sup> Z Ultra" to ensure correct use. Before you assume that the product is malfunctioning, check for possible remedies in the following au Customer Support site of au homepage:

## http://www.au.kddi.com/support/mobile/trouble/repair When using the product

- Communication is not possible even inside the service area in places where the signal does not reach (e.g. tunnels and basements). Also, communication is sometimes not possible in poor reception areas. Communication is sometimes interrupted if you move into a poor reception areas during communications.
- Since this product uses radio waves, the possibility of communication intercepts by third parties cannot be eliminated (Though LTE/CDMA/GSM/UMTS system has highly secure confidential communication features).
- This product is compatible with the international roaming service. Each network service described in this manual varies depending on the area and service content. For details, refer to the "Instruction Manual" (Japanese) application installed on the product or "取扱説明書詳細版 (Full Instruction Manual)" (Japanese) available on the au homepage.

- \*1 The antenna is built in. Covering around the antenna by the
- hand may affect the quality of call/communication
- \*2 Do not remove the nameplate with stickers of IMEI information printed.
- \*3 Back cover is not removable. Removing so forcibly might cause loss of data or a fault. Also, battery is built into the main unit and

not removable by customers.

9

- 4 When charging is complete, lift the product to remove while pressing the Desktop Holder
- 5 Remove the Common AC Adapter 04 (sold separately) from the outlet

#### Information

- · You cannot charge the battery by connecting the Desktop Holder to a PC.
- · Be sure to attach the supplied attachment to the Desktop holder when charging. If the product is installed without the attachment attached, charging may fail.

#### Charging with the AC Adapter

Charging with Common AC Adapter 04 (sold separately) is explained.

- Since this product is a radio station under the Badio Law you may be asked to temporarily submit the product for nspection in accordance with the Radio Law.
- The IMEL information of the cell phone is automatically sent to KDDI CORPORATION for maintenance and monitoring operational status of your cell phone. Take care not to inconvenience people around you when
- you use the product in a public place.
- Before you start using the product overseas, check the
- relevant laws and regulations of the country/region you visit. When the product is used by a child, parents or quardians. should thoroughly read the "Basic Manual" "Cautions on using Xperia<sup>™</sup> Z Ultra<sup>™</sup> and "Specific Absorption Rate (SAR) of cell phones" and teach the child how to use it.

#### Use of the product is not allowed in the following places!

• Do not use a cell phone while driving a car or riding a motorbike or bicycle. Failure to do so might cause a traffic accident. Use of a cell phone while driving a car or motorbike is prohibited by law. Use of a cell phone while riding a bicycle may be punishable by some regulations. Do not use this product while you are aboard an airplane. Use of electric devices transmitting radio waves in airplane is prohibited by law. Some airline companies, however, allow their passengers to use cell phones. For details. contact the airline company you use.

# Regarding notations used in this document

 In this manual, keys (key icons) are represented by simplified illustrations such as 🗩, 🝙, 🗇, 🍥, 🗖 · Operations of tapping menu items/icons/buttons on the screen etc. are indicated as [(name of the item etc.)]. 3

port of a PC

The followings describe charging procedure by connecting the product to chargeable USB port on a PC using the microUSB cable of Sony Mobile AC adapter 05 (sold separately).

1 Open the microUSB connection terminal cover of the

product while hooking the groove with your fingernail, and

insert the microUSB plug of Common AC Adapter 04 (sold

1 Open the microUSB connection terminal cover of the product while hooking the groove with your fingernail, and insert the microUSB plug of the microUSB cable, with the engraved side (+>+) facing up, straight into the microUSB connection terminal of the product

 Screen illustrations shown in this manual may look different from the actual screens. In some cases, minor details or a part of a screen may be omitted.

 In this manual "microSD<sup>™</sup> memory card" "microSDHC<sup>™</sup> memory card" and "microSDXC<sup>™</sup> memory card" are abbreviated as "microSD memory card" or "microSD" "The Company" as appears on the product refers to the

following companies: Sold by: KDDI CORPORATION, OKINAWA CELLULAR

TELEPHONE COMPANY Manufactured by: Sony Mobile Communications Inc.

Using au 災害対策 (au Disaster Countermeasure)

#### You can use 災害用伝言板 (Disaster Message Board) service, 緊 急速報メール (Emergency Rapid Mail) service that distributes 緊 急地震速報 (Earthquake Early Warning), 災害 · 避難情報 (Disaster and Evacuation Information) and 津波警報 (Tsunami Warning), and

災害用音声お届けサービス (Disaster Voice Messaging Service). 1 From the Home screen, [au 災害対策 (au Disaster

#### Countermeasure)] au 災害対策 (au Disaster Countermeasure) menu appears.

■ Using 災害用伝言板 (Disaster Message Board) Disaster Message Board service enables you to register information of well-being from an area of distress via LTE NET in case of large-scale disaster such as earthquake with a seismic intensity of over 6 lower.

#### 1 au 災害対策 (au Disaster Countermeasure) menu▶ [災害 用伝言板 (Disaster Message Board)]

 To register information of well-being. E-mail address (~ezweb.ne.jp) is required. Set up E-mail address beforehand. 4

# Attaching/removing the au Micro IC Card (LTE)

Before attaching/removing the au Micro IC Card (LTE), make sure to turn off the product

· Note the following points, otherwise handling the au Micro IC Card (LTE) may cause malfunction or damage. · Do not touch the IC (metal) part of the au Micro IC Card

· Insert in the correct direction.

· Do not use force to attach or remove. Do not lose the au Micro IC Card (LTE) after it has been

### Attaching the au Micro IC Card (LTE)

1 Open the au Micro IC Card (LTE) slot cover while hooking the groove with your fingernail, hook the projection of the tray (1) with your fingernail to slide the tray straight out, then remove the tray from the

2 Set au Micro IC Card (LTE) into the tray with IC (metal) part facing up (2), insert the tray with the card into the main unit and press it all the way

Pay attention to the orientation of the notch and pressing

Ð

#### 3 When charging is complete, remove the microUSB plug of the microUSB cable from the product and close the microUSB connection terminal cover firmly 4 Remove the USB plug of the microUSB cable from the

• Installation of MTP driver to a PC is required to charge the product with a Microsoft Windows XP PC, since "USB connection mode" is set to "Media transfer mode (MTP)" by default. Install Windows Media Player 10 or later to install

# Turning on (Initial settings)

The product vibrates and after a while the unlock screen

# 2 Swipe the screen up or down

Turning the power off

 Press () for over 1 second and long-touch "Power Off"
 ► [OK] to restart product in safe mode.

■ Using 緊急速報メール (Emergency Rapid Mail) Emergency Rapid Mail is a service that distributes Earthquake Early Warning or Tsunami Warning delivered from the meteorological bureau or Disaster and Evacuation Information delivered from the government or local public organization to all au cell phones in specified areas simultaneously. When you receive Earthquake Early Warning, ensure your safety and take proper action according to the situation around you. When you receive a Tsunami Warning, draw away from sea coast immediately and evacuate to safe place such as upland or well-built high building.

#### 1 au 災害対策 (au Disaster Countermeasure) menu▶ [緊急 速報メール (Emergency Rapid Mail)]

#### Information

- Reception of Emergency Rapid Mail is notified by a special warning tone and vibration. It is not possible to change the warning tone.
- · Earthquake Early Warning may not arrive before strong tremors in areas near the epicenter.
- Tsunami Warning is a major tidal wave/seismic sea wave notification delivered from the meteorological bureau to the area including target coast.
- Disaster and Evacuation Information is a service that distributes bulletins concerning residents' safety including evacuation advisories, evacuation orders and other warnings issued by the national and local governments.
- The service is available only in Japan (it cannot be used overseas) No information fee or communication charge is required for receiving Emergency Rapid Mail.
- KDDI is not liable for damages suffered by customers resulting from the service's information, lack or delay in the information caused by transmission or system breakdowns or other events that are outside the responsibility of KDDI.

6

- 3 Close the au Micro IC Card (LTE) slot cover, press it firmly to ensure that there are no grooves between the cover and the main unit
- Removing au Micro IC Card (LTE)
- 1 Open the cover while hooking the groove of au Micro IC Card (LTE) slot cover with your fingernail, hook the projection of the tray with your fingernail to slide the tray straight out, then remove the tray from the main unit
- 2 Remove au Micro IC Card (LTE) out of the trav. insert the trav into the main unit and then press it all the way Pay attention to the direction of pushing the tray
- 3 Close the au Micro IC Card (LTE) slot cover, press it firmly to ensure that there are no gaps between the cover and the main unit

# Attaching/Removing microSD memory card

Attaching microSD memory card

1 Open the microSD memory card slot cover while hooking the groove with your fingernail, check the orientation for inserting, and insert it until it clicks Insert the microSD memory card with the contact side down.

Ð

19

- Force-auitting
- 1 Open the au Micro IC Card (LTE) slot cover while hooking the groove with your fingernail, press the red OFF button for approximately three seconds, and release your finger after it vibrates three times

• Alternatively, press and hold (1) and upper part of the volume key at the same time for approximately three seconds, and release your finger after it vibrates three times.

#### Initial settings

When you turn on the product for the first time, swipe (flick) the screen up or down to unlock screen lock and follow the onscreen instructions to set language, functions, service, etc. For details. refer to "Setting Guide"

#### Information

• Setup items can be set or changed later as required. To change the language later, from the Home screen, [ ▶[設定 (Settings)]▶[言語と入力 (Language & input)]▶[地域 for au service etc., from the Home screen, [₩] [au Easy Setting]

- Refer to the Japan Meteorological Agency web page for details about distribution of Earthquake Early Warning.
- http://www.jma.go.jp/ You cannot receive Emergency Rapid Mail when your cell phone is turned off or during a call.
- Emergency Rapid Mail may not be received when your cell phone is communicating such as while sending/receiving SMS/e-mail or using the browser, or if you are in a place where signal does not reach even in the service area (e.g. in a
- tunnel, basement) or in a place with a poor reception You cannot receive the Emergency Rapid Mail that the reception is failed
- This delivery system is different from Earthquake Early Warning provided through TV. radio, or other communication procedures, which means that the time the Earthquake Early Warning arrives may vary.
- Information from someplace other than your current location may be received.
- Using 災害用音声お届けサービス (Disaster Voice Messaging Service)

Disaster Voice Messaging Service is a service which allows you to record your voice and send someone you want to inform your well-being in case of a large-scale disaster.

### 1 au 災害対策 (au Disaster Countermeasure) menu▶ [災害用 音声お届けサービス (Disaster Voice Messaging Service)]

#### Information

- To use Wi-Fi<sup>®</sup>, initial settings via LTE/3G network is required.
- Voice message can be recorded for up to 30 seconds. · Voice messages cannot be saved or played if the product
- does not have available memory.

6

2 Close the microSD memory card slot cover, press it firmly to ensure that there are no gaps between the cover and the main unit

#### Information

- Insert a microSD memory card in the appropriate direction. Inserting a microSD memory card forcefully into the slot could result in failure to remove the microSD memory card or damage
- · Do not touch the terminal of the microSD memory card.
- Removing microSD memory card
- Be sure to unmount microSD memory card before removing. 1 From the Home screen, ₩→[Settings]→[Storage]→ [Unmount SD card]→[OK] When it is unmounted, " SD card safe to remove"
- appears on the status bar to notify you that reading and writing from/to the microSD memory card are disabled. 2 Open the microSD memory card slot cover while
- hooking the groove with your finger, press the microSD memory card all the way until it clicks, then pull out the microSD memory card slowly " Removed SD card" appears on status bar to inform

that the microSD memory card is removed.

3 Close the microSD memory card slot cover, press it firmly to ensure that there are no gaps between the cover and the main unit

# Screen Lock

When the screen lock is set, the backlight turns off to avoid

the keys and touch panel from false operations. • When the specified time elapses, the product's screen backlight turns off automatically and screen lock is activated.

# Knowing the status of the product

# Status bar

The status bar is located at the top of the product screen. On the left of the status bar, notification icons appear to inform missed calls, new mails, operations in progress, etc., and on the right, status icons appear to indicate the status of the product

### Examples of notification icon

Σ	New Gmail message
X	New PC mail message
¥	New E mail (@ezweb.ne.jp) message
<u>sm</u>	New SMS/Receiving notification service message, New Receiving notification
6	Talking <sup>*1</sup> / Calling <sup>*1</sup> / Receiving
Δ	Missed call
Ĵ.	USB connecting
( <b>?</b> •	Wi-Fi <sup>®</sup> open network available
*1 Appea	rs when switched to another screen such as the Home screen.

#### Main status icons

Signal level (Level 4, Out of service area)

# 26

Symptom	What you should check
Battery usage time is short.	Is the battery fully charged? Charge until the notification LED turns green.
	Is the internal battery end-of-life?
	Is the product used for a long period at places where (out of range) appears?
The screen backlight turns off in a short while.	Is set "Sleep" period too short?
Display is dark.	Is "Brightness" set to dark?
	Is the proximity sensor covered by fingers or sticker?
Screen response is slow when you tap on the screen/press the keys.	When a large amount of data is saved in the product or transferring large- size data between the product and microSD memory card, the screen response may be delayed.
Cannot recognize a microSD memory	Is the microSD memory card inserted properly?
card.	Is the microSD memory card unmounted?
