- Simple guided set up CD for easy installation
- Works with DLNA® enabled computers and electronics¹
- WPS (Wi-Fi® Protected Setup) home network sync⁶
- Auxiliary input for direct playback of portable devices
- Remote Control
- Compact Design

Features

Stream and listen to music throughout your home

Wirelessly listen to music throughout your home¹. Using your Wi-Fi® network, wirelessly control music tracks volume and music location with app for your smartphone.³

PartyStream

Sync with other Sony® network speakers, select Sony Blu-ray Disc™ home theater systems and BD players to enjoy music throughout the house⁵. Music from the BD system can play on the Network Speaker, creating the perfect environment for enjoying music throughout your home.

Enjoy BRAVIA® Internet music

Enjoy Sony's incredible range of BRAVIA® Internet music services including Pandora, Slacker, Qriocity™ and many more² when connected in PartyStream mode with compatible Sony® Blu-ray Disc™ systems, BD players,⁵ AV receivers and multi-room iPod®/iPhone® docks.

360° room-filling sound

The speaker spreads sound throughout the room, thanks to one full-range speaker. Unique omnidirectional design and small footprint let you place the SA-NS300 almost anywhere in the room.

Elegant Compact Design

Elegant cutting edge design and ultra-compact footprint for flexible placement in a kitchen, office or bedroom.

DLNA® streaming

The speaker streams music from DLNA® (Digital Living Network Alliance) compatible computers and storage devices.

Wi-Fi® w/WPS

Connect to compatible WPS Wi-Fi® routers with a simple press of a button. No passwords or lengthy numbers to remember.⁶

Auxiliary input

Auxiliary input enables you to plug in personal music players or other sources for enjoyment in one room.

Remote Control

Operate the network speaker locally with the supplied remote control.

Expand to more rooms

No room should be without music. Purchase additional Sony® network speakers or docks to expand your music enjoyment into every room of the home.⁶ Each room can be independently controlled with the remote app³ or synchronized for whole-home music enjoyment.

-------------	----------------------	--

1. Wireless 802.11 home network with a broadband internet connection required. Audio quality may vary and is dependent upon broadband speed and delivery by content provider.

2. Premium content may require additional fees and/or PC registration.

3. Application must be downloaded from the iTunes® or Android Market™ application store. Requires that the wireless speaker, PC and the remote device be connected to the same wireless network.

4. Requires a home network with content stored on a DLNA compliant PC or server (with Windows Media Player 11 or equivalent software).

5. PartyStream mode requires compatible Sony Blu-ray Disc home theater system, Sony Blu-ray Disc player or additional Sony Wi-Fi® speaker, and connection to the home network.

6. Home Network and compatible wireless router required.
