Quick Start Guide

1 Turn on Your Speaker

When the AC adaptor is connected to the speaker and the AC outlet, it will turn on automatically and the I/⏻ (ON/Standby) indicator will light up in green.

SA-NS410

SA-NS310

DC IN

* The shapes of AC outlets and plugs differ by region.

Set the NETWORK STANDBY/STANDBY switch to NETWORK STANDBY if you want to use the speaker via a home network.

SA-NS410 (Rear)   SA-NS310 (Bottom)

NETWORK STANDBY/STANDBY

Tips
- It may take a while until the speaker is turned ON. During starting-up, the I/⏻ (ON/Standby) indicator flashes.
- If the I/⏻ (ON/Standby) indicator is lit in red, press the I/⏻ (ON/Standby) button.

Keep the SSID (Wireless Network Name) and Security Key (WEP, WPA key or password) for your wireless network handy.

2 Set up Your Speaker (Wireless network connection)

Which device would you like to use to set up the speaker?

iPhone/iPod touch/iPad	Android device	Windows PC	Mac

iPhone/iPod touch/iPad / Android device

❶ Download the "NS Setup" application and launch it.

Download the free application here:

For iPhone/iPod touch/iPad — **Available on the App Store**

For Android devices — **ANDROID APP ON Google play**

When setting up with an iPhone/iPod touch/iPad
Go to [Settings] - [Wi-Fi Networks] and select [Sony_Wireless_Audio_Setup].

If "Sony_Wireless_Audio_Setup" does not appear, wait until the speaker finishes turning on. If it still does not appear, reset the speaker (see the reverse side).

❷ Follow the on-screen instructions.
When setup is completed, press the "Play test sound" button to confirm operation of the speaker by playing the test sound.
Windows PC

Note Wireless LAN is required when setting up the speaker.

❶ Load the supplied CD-ROM into the CD-ROM drive of your PC.
If the program does not start automatically, double-click on "NS_Setup.exe" on the CD-ROM.

CD-ROM

❷ Follow the on-screen instructions.
When setup is completed, press the "Play test sound" button to confirm operation of the speaker by playing the test sound.

Mac

❶ See "Option 3: Manual setting method using an Access Point Scan (for PC/Mac)" in the supplied Operating Instructions.

Setup completed!

Setup is required only once for each speaker.
No matter which device you use to set up the speaker, you can enjoy all features of Network Speaker and control playback from other devices in the same network.

3 Play Music!

What would you like to listen to?

Music on an iPhone/iPod touch/iPad	Internet music streaming using an Android device/ iPhone/iPod touch/iPad	Music on a Windows PC (including iTunes music)	iTunes music on a Mac

Music on an iPhone/iPod touch/iPad

❶ Launch "Music" application.

❷ Tap 🖵 and select [SA-NS410] or [SA-NS310].

iPhone, iPod touch or iPad

iPhone

SA-NS310

Internet music streaming

❶ Download the "Network Audio Remote" application and launch it.

Download the free application here:
For iPhone/iPod touch/iPad — **Available on the App Store**

For Android devices — **ANDROID APP ON Google play**

❷ Select the desired Internet music streaming.
e.g. Music Unlimited

[Music Services] - [Music Unlimited] - [Genre]

Music on a Windows PC

When using Windows Media Player
