## Important Information

Before you use your device, please read the *Important Information* provided in your device regarding warranty, safety and handling information.

## Protecting your device from water and dust

Your device has IP (Ingress Protection) ratings of IP65 and IP68. These ratings mean that your device is dust tight and is protected against low pressure water stream as well as against the effects of submersion for 30 minutes in fresh (non-saline) water up to 1.5 metres deep.
Always firmly attach all covers to ensure the water and dust resistance of the device. If liquid is detected inside the device, for example, underneath one of the covers, your warranty will be void.
Before using your device in water and in dusty conditions, refer to the relevant section of the User guide for your device for more detailed information. An online User guide as well as a downloadable version is available at *www.sonymobile.com/support*.

! After using your device in water, wait for the USB port to dry before you insert a cable into the port.

## Assembly

### To insert the nano SIM card

! If you insert a nano SIM card while the device is powered on, the device restarts automatically.

1 Detach the cover for the nano SIM card and memory card slots.
2 Press the nano SIM card holder inwards and then release it immediately so that it slides out.
3 Place the nano SIM card in the holder.
4 Push the nano SIM card holder back into the nano SIM card slot until you hear a clicking sound.
5 Re-attach the cover for the nano SIM card and memory card slots.

## Basics

### Turning on the device

Make sure that the battery is charged for at least 30 minutes before you turn on the device for the first time.

### To turn on the device

1 Press and hold down the power key ⏻ until the device vibrates.
2 Wait a while for the device to start.

### Waking up the screen

### To activate the screen

• Briefly press the power key ⏻.

## Setting up your device

### Setup guide

The first time you start your device, a setup guide opens to help you configure basic settings, sign in to some accounts (for example, your Google™ account), and personalise your device. You can also manually access the setup guide at a later stage.

## To insert a memory card

1 Detach the cover for the nano SIM card and memory card slots.
2 Place the memory card in the memory card slot, then push the memory card all the way into the slot until you hear a clicking sound.
3 Re-attach the cover for the nano SIM card and memory card slots.

## To access the setup guide manually

1 From the Home screen, tap ⬛.
2 Tap ⚙ > Setup guide.

## Accessing settings

View and change settings for your device from the Settings menu. The Settings menu is accessible from both the Application screen and the Quick settings panel.

### To access your device settings

1 From your Home screen, tap ⬛.
2 Find and tap ⚙.

## Transferring your contacts

Xperia™ Transfer is an application that helps you to collect contacts from your old device and transfer them to your new device. Xperia™ Transfer, which you can access from within the PC Companion program, supports mobile devices that run on several operating systems, including iOS, Android™, Windows® and BlackBerry™.
To use Xperia™ Transfer, you need:

• An Internet-connected computer.
• A USB cable for your old device.
• A USB cable for your new Android™ device.
• Your old device.
• Your new Android™ device.

### To transfer contacts to your new device

1 Search and download PC Companion (on a PC) from *www.sonymobile.com* if the application is not already installed.
2 After successful installation, open the PC Companion application, then click *Xperia™ Transfer* and follow the relevant instructions to transfer your contacts.

## Finding your way

## Using the keys

◁ Back navigation key
• Go back to the previous screen within an application or close the application.

⌂ Home navigation key
• Exit an application and go back to the Home screen.

☐ Task navigation key
• Open the recently used applications window and the small apps bar.

⬛ Application screen
• Open the Application screen.

## Basic applications and settings

📞 Make phone calls by dialling the number manually or by using the smart dial function.

💬 Use the Messaging application to send and receive text and multimedia messages.

▶ Go to Google Play™ to download free and paid applications for your device.

⚙ Optimise the device settings to suit your own requirements.

## Status and notifications

### To open or close the Notification panel

1 To open the Notification panel, drag the status bar downwards.
2 To close the Notification panel, drag the panel upwards.

## Support on the web

Visit *www.sonymobile.com/support* to access a range of support options for your device, including downloads, troubleshooting tips and a User guide.

### To view the CE mark and the FCC ID

1 Detach the cover for the nano SIM card and memory card slots.
2 Place your fingernail just under the tip on the label tray, then drag out the tray. The information is displayed on the tray.

### To view the regulatory compliance mark

• Open the phone dialer, then enter *#07#.
