TROUBLE SHOTTING / Q & A

Q1: If the pairing is not successful?

A1: Turn of the speaker and turn on again, then repair again.

Q2: The sound is low or completely silent.

A2: Make sure the connection (either Bluetooth or AUX) is fully functioning and secure.

If you are using the AUX port check the cable is connected properly.

Check the speaker and audio device volume and that an audible music track is playing.

Q3: My device cannot find the speaker

A3: Ensure the Bluetooth is on and not hidden on your audio device and that the speaker is not paired to another device.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
