Charging for Music bomb smart speaker

Connect to computer or other USB charging device via the supplied Micro USB cable. The indicator light will be RED while charging. It will be turn off after charging is completed.

Connecting Audio Devices to the Steren Music Grenade Speaker

1. Wired connection

Connect the Steren Music Grenade smart speaker to any audio device via the 3.5mm cable supplied with your device.

NOTE: When a device is connected to the 3.5 mm jack port, function is disabled and wireless devices will not be able to play music.

2. Wireless Bluetooth® connection

① When you turn on the speaker, it will automatically be in Bluetooth mode.

② It will then begin searching for Bluetooth® devices automatically. You will hear a series of audio beeps and the indicator light will rapidly flash.

③ Turn on the Bluetooth® in your mobile device, then search and find the device named "Stere Grenade" please click it and wait for connection. The indicator light will turn on and slowly flash after connected.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- o Reorient or relocate the receiving antenna.
- o Increase the separation between the equipment and receiver.
- o Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- o Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

④ On some older Bluetooth® devices you may be asked to input a Passcode. If so, please key in "0000" and press enter.

How to Play Music & Answer Phone Calls with the Steren Music Grenade Speaker

1. Wireless Bluetooth® Connection:

Once connected via Bluetooth® to your mobile device, you can begin to play your music. If you cannot hear any sound, please check the Bluetooth® connection again and increase the volume.

2. Wired Connection:

Once connected via the 3.5 audio cable to your mobile device, you can begin to play your music. If you cannot hear any sound, increase the volume.

3. To control music (play, pause, skip tracks, fast forward, rewind and adjust the volume etc.)

Press and hold the button "+" or "-" to turn up or turn down the volume.

Press the call key (refer to item 2) to pause, and press it again to continue to play.

Press the button "+" or "-" to go to next or previous track.

4. Answering calls and speaker phone functions:

When the Steren Music Grenade speaker is connected with your mobile device via Bluetooth®, all calls will be available on it.

When you have an inbound call the indicator light will rapidly flash and the speaker will notify you of the incoming call, along with the number that is calling. You can press the Answer button to accept the call or hold on it to reject the call.

Notice: The music will be automatically paused during a call, then will resume when the call is ended.

Caring for your Steren Music Grenade speaker

Always store the speaker with the power off, and away from fine dust.

Avoid storage at extreme temperatures as it may shorten battery life and affect its function. Moreover, high temperatures may also degrade performance. Please try to place it in ventilated place.

Support

Frequently Asked Questions

Question	Answer
I cannot hear anything on the speaker	1. Turn up the volume 2. Ensure the speaker is paired or connected with the audio device that's playing music
I cannot answer and end call	It depends on your mobile phone whether it supports hands free, because some older devices won't support this.

I cannot connect with speaker via wireless	Make sure your mobile phone has Bluetooth® enabled and that the devices are connected. Refer to the section on "Wireless Bluetooth® Connection"
Can it connect two Bluetooth® devices at the same time?	No
I hear crackling	Bluetooth® is a wireless radio technology which means it is sensitive to objects between the speaker and the connected device. The speaker is designed to be used within 33 feet (10 meters) of a connected device, with no major objects in between (walls, etc.).
