

## Stiga Park Diesel

A Stiga front mower with an ecofriendly and efficient Hatz diesel engine that offers brilliant economy per working hour.

The genuine articulated steering offers unsurpassed manoeuvrability. The back wheels follow the track of those up front. You no longer need to worry about the rear section bumping into obstacles and you can fully concentrate on mowing.

The front mounted deck is easy to use, clean and maintain. A high performance Combi Pro deck with a 125 cm cutting width gives a choice of Multiclip and rear discharge. The Multiclip system cuts and fertilises the lawn at the same time. No need for raking or emptying a collector.

This front mower comes with a lot of features. Hydrostatic speed control, adjustable foot pedal, high comfort seat adjustable with one hand grip, adjustable steering wheel, hour meter, headlight and mechanical servo steering.

The Park Diesel is an outstanding implement-carrier. You can easily change from a cutting deck, sweeper or edge cutter to a snow blade or snow thrower. The list of implements is long. Equipped with the patented quick connection for accessories.
