

Stiga Park Compact 16 4WD

Our smallest 4WD is the perfect choice for those of you who wish to enter the world of four wheel drive.

The clever combination of a front mounted deck with genuine articulated steering makes it easy to mow around bushes, trees, fences and into corners. The back wheels follow the track of those up front. You no longer need to worry about the rear section bumping into obstacles and you can fully concentrate on mowing.

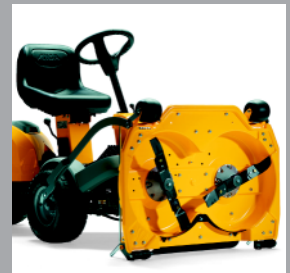

The front mounted deck is easy to use, clean and maintain. There are a 95 cm and a 105 cm Combi deck with Multiclip and rear discharge. The Multiclip system cuts and fertilises the lawn at the same time. No need for raking or emptying a collector.

The Compact 16 4WD comes with a lot of features like electric start, foot-controlled attachment lift, adjustable comfort seat with high backrest and wide 16' tyres.

Equipped with an environment friendly and quiet engine. The hydrostatic drive allows you vary the speed infinitely.
