Class A digital devices

“This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”

Changes or alterations to the Altierre ESL System not expressly approved by Altierre could void the user’s authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

“To satisfy RF exposure requirements, this device and its antenna must operate with a separation distance of at least 20 centimeters from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.”

ATAG User Manual

ATAGs are used by Retailers to display the product's pricing information to their consumers. This manual will provide an outline of the processes performed by the Users utilizing their RF Handheld to display the pricing information on the ATAG.

Displaying the ATAG's Pricing Data:

Step 1

Input the product's ID number

Step 2

Input the ATAG's ID

Step 3

ATAG data will download to the ATAG Display

Assigning the ATAG to a new product

Step 1

Input the product's ID number
