Important Safety Precautions

Always follow these basic safety precautions when using your Tablet. This reduces the risk of fire, electric shock, and injury.

➢ Do not expose this product to rain or moisture.

➢ Keep the device out of direct sunlight and heat sources.

➢ Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the cord attaches to the device.

> Only use the AC adapter included with the device. Using any other power adapter voids your warranty.

> Do not remove the cover. There are no user-serviceable parts inside.

> Clean your Device.

Treat the screen gently. To clean fingerprints or dust from the screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth.

Safety Precautions

Read these simple guidelines before using your device. Not following them may be dangerous or illegal.

◆ Aircraft

Switch off in aircraft and follow any restrictions. Wireless devices can cause interference in aircraft.

◆ Vehicles

Never use your device while driving. Place it in a safe place.

Position your device within easy reach. Be able to access your device without removing your eyes from the road.

◆ Electronic devices

In some circumstances your device may cause interference with other devices.

◆ Potentially explosive environments

Switch off your device when in any area with a potentially explosive atmosphere, and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

◆ Pacemakers and other medical devices

Pacemaker manufacturers recommend that a minimum separation of 8 inches be maintained between a wireless device and a pacemaker to avoid potential interference with the pacemaker.

Operation of any radio transmitting equipment, including wireless phones may interference with the functionality of inadequately protected medical devices. Consult a physician or the manufacturer of the medical device to determine if they are adequately shielded from external RF energy or if you have any questions.

Switch off your device in heath care facilities when any regulations posted in these areas instruct you to do so.

◆ Operating environment

When connecting to other device, read its user guide for detailed safety instructions. Do not connect incompatible products.

Do not place your device in the air bag deployment area.

Use the device only in its normal operating positions as explained in the product documentation.

Always switch off your device when its use is prohibited or when it may cause interference and danger.

◆ Areas with posted regulations

Switch off your device when any regulations posted in these areas instruct you to do so.

Care & Maintenance

◆   use only manufacturer-approved accessories. Use general accessories may shorten

the life of your device or cause device to malfunction.

◆   keep your device dry. Humidity and all types of liquids may damage device parts or

electronic circuits.

◆   Do not use or store the device in dusty, dirty areas.

◆   Do not store the device in hot or cold areas.

◆   Do not store your device near magnetic fields.

19

◆   Do not store your device with such metal objects as coins, keys and necklace.

◆   Do not drop your device or cause impacts to your device.

◆ FCC STATEMENT

1. This device complies with Part15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and

(2)This device must accept any interference received, including Interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits For a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits Are designed to provide reasonable protection against harmful interference In a residential installation. This equipment generates, uses and can radiate Radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in aparticular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

3. FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure requirement. The device can be used in portable exposure condition without RF striction.
