

## Additional Warnings and Precautions

- Lithium batteries, like all rechargeable batteries, are recyclable and should be recycled or disposed of in normal household waste. Contact your local government for disposal or recycling practices in your area. They should never be incinerated since they might explode.
- To avoid hearing damage, make sure that the volume on your music player is turned down before connecting your headphones. After placing headphones in / on your ears, gradually turn up the volume until you reach a comfortable listening level.

## FEATURES & CONTROLS

### FEATURES

- Supports Bluetooth
- Wireless range: 33 feet
- Built-in microphone
- Aux in (3.5mm audio input)
- Adjustable headband
- On-ear controls
- DC battery power: built-in rechargeable lithium ion battery
- Battery life: approx. 6 hours at 50% volume
- Micro-USB port for battery recharge

### INCLUDES

- Micro-USB to USB cable
- 3.5mm audio cable (Aux In)
- Carry pouch

---

## BLUETOOTH

---

### Pairing a Bluetooth Device for the First Time

1. Simultaneously power on the unit and begin the pairing process by pressing and holding the **Power/Pair** button for approximately **4 seconds**.

*The indicator will flash red and blue. When pairing, remain within 3 feet of the unit.*

2. Using the native controls on your Bluetooth device, select the **IAHB16** in your Bluetooth settings to pair.

*If your device requests a password, enter the default password **0000**.*

*Refer to the user's manual for your specific device for instructions on pairing and connecting Bluetooth devices.*

*After initial pairing, the unit will stay paired unless unpaired manually by the user or erased due to a reset of the device.*

3. If your device should become unpaired or you find it is unable to connect, repeat the above steps.

### Playing Audio Wirelessly

1. To play or pause the selected track, use the native controls on the connected Bluetooth Device or press the **Play/Pause** button. Use the **Skip Fwd/Rev** buttons to skip between tracks.
2. Audio played through the connected Bluetooth device will now be heard through the headphones.

---

## LED INDICATORS

---

STATUS	INDICATOR
Power On	Flashing blue light
Power Off	No light
Charging	Solid red light
Charging Complete	Blue light
Pairing	Flashing red and blue lights

---

## AUX IN

---

### Using the Aux In Audio Input

Requires a 3.5mm audio cable (included).

1. Connect a 3.5mm audio cable to the **AUX IN** on the unit and the **audio output** on an audio device.
2. Use the controls on the connected device to select and play your audio through the headphones.

#### FCC Certification Requirements

**Caution:** Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
