

Bluetooth Speaker

Instruction Manual

Power:

- This unit works using an internal rechargeable Lithium battery. Please charge your speaker fully before first use.
- To charge the battery : Using a Micro USB cable (included), insert the jack into the "Aux-in Charging" hole located at the back of the unit and then plug the USB connector into the USB port on a computer or charger for charging.
- A red light at the back of the unit will indicate the unit is charging. When the battery is fully charged, the red light will turn off automatically.

Bluetooth Speaker Operation

- Turn on the unit by switching the switch at the back of the speaker to ***/Aux** position. A Blue light on the side of the speaker will start blinking to indicate the speaker is in pairing mode and searching for your Bluetooth mobile device.
- Open the Bluetooth function on your device and search the speaker named "UG-M6". After selecting this speaker, your device will pair without a password. (If required, enter the password "0000" to finalize the pairing). The Blue light will begin flashing four times every 3 seconds after pair is complete.
- Start playing music on your device. Keep your device within 30feet of your speaker.
- Adjust the volume of your device to a comfortable level.
- Turn off the unit when not in use.

Universal Speaker Operation

- For other music devices without Bluetooth, use the enclosed audio input cable. Insert the 3.5mm input jack into the "Aux-in" and the other end into your earphone jack.
- Turn on the unit by pushing the switch at back to ***/Aux** position.

Caution:

- This is not a toy. Please keep away from small children.
- Please keep away from water / heat.
- Low power may cause poor connection to the speaker unit.
- Do not over charge the battery.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation.
