programs, data or removable data storage media, or the restoration or reinstallation of any software programs or data other to Buyer for replacement parts for warranty repairs. Seller is not responsible for any damage to or loss of any software ("No Defect Found"), or for product returned that Seller determines is not eligible for warranty repair. No charge will be made Customer shall be responsible for return shipment charges for product returned where Seller determines there is no defect assumes all costs and risks associated with this transportation; return shipment to the Customer will be at Seller's expense. on a "return to service depot" basis with prior Seller authorization. Customer is responsible for shipment to the Seller and Products. The sole obligation of Seller for defective hardware Products is limited to repair or replacement (at Sellers option) from returned products and that have been tested as meeting applicable specifications for equivalent new material and

Product, or until the end of the original warranty period, whichever is longer.

(D) Product Service Products may be serviced or manufactured with parts, components, or subassemblies that originate materials on the repaired component of the Product for a period of thirty (30) days from the shipment date of the repaired

(C) Repair of Symbol-branded hardware For repairs on Symbol-branded hardware Products under this Agreement, including repairs covered by warrantly, the repair services provided are warranted against defects in workmanship and shipment. Spare parts may be new or originate from returned units under the conditions set forth in subsection D below. (B) Spare Parts Spare parts (i.e. parts, components, or subassemblies sold by Seller for use in the service and maintenance of Products) are warranted against defects in workmanship and materials for a period of thirty (30) days from the date of

applicable Product specification in effect at the time of purchase or in the accompanying software license. ("Custom Products"), remanufactured products, and reconditioned or upgraded products, shall be as provided in the durations on software, integrated installed systems, Product modified or designed to meet specific customer specifications provided the Product remains unmodified and is operated under normal and proper conditions. Warranty provisions and and materials for a period of twelve (12) months from the date of shipment, unless otherwise provided by Seller in writing, (A) Warranty Symbol Technologies (hereafter "Seller") hardware Products are warranted against defects in workmanship

Warranty

END-USER LICENSE AGREEMENT

- You have acquired a device ("DEVICE") that includes software licensed by Symbol Technologies from Microsoft Licensing Inc. or its affiliates ("MS"). Those installed software products of MS origin, as well as associated media, printed materials, and "online" or electronic documentation ("SOFTWARE") are protected by international intellectual property laws and treaties. The SOFTWARE is licensed, not sold. All rights reserved. SOFTWARE includes software already installed on the DEVICE ("DEVICE") Software") and MS software contained on the CD-ROM disk ("Companion CD").
- IF YOU DO NOT AGREE TO THIS END USER LICENSE AGREEMENT ("EULA"), DO NOT USE THE DEVICE OR COPY THE SOFTWARE. INSTEAD, PROMPTLY CONTACT SYMBOL TECHNOLOGIES FOR INSTRUCTIONS ON RETURN OF THE UNUSED DEVICE(S) FOR A REFUND. **ANY USE OF THE** SOFTWARE, INCLUDING BUT NOT LIMITED TO USE ON THE DEVICE, WILL CONSTITUTE YOUR AGREEMENT TO THIS EULA (OR RATIFICATION OF ANY PREVIOUS CONSENT).

GRANT OF SOFTWARE LICENSE. This EULA grants you the following license:

- DEVICE Software. You may use the DEVICE Software as installed on the DEVICE.
- . COMPANION CD. A Companion CD is included with your DEVICE, and you may install and use the Microsoft® ActiveSync® 3.7 component on one (1) or more computers to exchange information with one (1) or more computing devices that contain a compatible version of the Microsoft® Pocket PC Software 2002 operating system. For other software component(s) contained on the Companion CD you may install and use such components only in accordance with the terms of the printed or online end user license agreement(s) provided with such component(s). In the absence of an end user license agreement for particular component(s) of the Companion CD, you may install and use only one (1) copy of such component(s) on the DEVICE or a single computer with which you use the DEVICE.
- Microsoft® Outlook® 2002. If Microsoft Outlook 2002 is included with your DEVICE, the following terms apply to your use of Microsoft Outlook 2002: (i) regardless of the information contained in the 'Software Installation and Use" section of the online EULA you may install one (1) copy of Microsoft Outlook 2002 on one (1) computer to use, exchange data, share data, access and interact with the DEVICE, and (ii) the EULA for Microsoft Outlook 2002 is between Symbol Technologies and the end user - not between the PC manufacturer and end user.
- Security Updates/Digital Rights Management. Content providers are using the digital rights
 management technology contained in this SOFTWARE ("DRM") to protect the integrity of their content
 ("Secure Content") so that their intellectual property, including copyright, in such content is not misappropriated. Portions of this SOFTWARE and third party applications such as media players use DRM to play Secure Content ("DRM Software"). If the DRM SOFTWARE's security has been compromised, owners of Secure Content ("Secure Content Owners") may request that MS revoke the DRM SOFTWARE's right to copy, display and/or play Secure Content. Revocation does not alter the DRM SOFTWARE's ability to play unprotected content. A list of revoked DRM SOFTWARE is sent to your computer whenever you download a license for Secure Content from the Internet. You therefore agree that MS may, in conjunction with such license, also download revocation lists onto your computer on behalf of Secure Content Owners. MS will not retrieve any personally identifiable information, or any other information, from your computer by downloading such revocation lists. Secure Content Owners may also require you to upgrade some of the DRM components in this SOFTWARE ("DRM Upgrades") before accessing their content. When you attempt to play such content, MS DRM SOFTWARE will notify you that a DRM Upgrade is required and then ask for your consent before the DRM Upgrade is downloaded. Third party DRM Software may do the same. If you decline the upgrade, you will not be able to access content that requires the DRM Upgrade; however, you will still be able to access unprotected content and Secure Content that does not

Service Information

For Vehicle installations and use

- An air bag inflates with great force. DO NOT place objects, including either installed or portable wireless equipment, in the area over the air bag or in the air bag deployment area. If in-vehicle wireless equipment is improperly installed and the air bag inflates, serious injury could result.
- Position your device within easy reach. Be able to access your device without removing your eyes from the road.
- Do not take notes or use the device while driving. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility, driving safely

Phones/Terminals (placed to ear or used with headset)

To comply with RF safety requirements use the specific belt clip. All other belt clips should be avoided and may not comply with RF safety requirements. The FCC has granted an Equipment Authorization for these model phones with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on these model phones is on file with the FCC and can be found under the Display Grant section of http:// www.fcc.gove/oet/fccid

Cell Phone/ Terminal Warnings

Safety on the Road

When driving a car, driving is your first responsibility. Check the laws and regulations on the use of wireless phones in the areas where you drive. Always obey them. When using your wireless device / phone behind the wheel of a car, practice good common sense and remember the following tips:

- Give full attention to driving driving safely is your first responsibility;
 Get to know your wireless device and any features such as speed dial and redial. If available, these features help you to place your call without taking your attention off the road. When available, use a hands free device.

 Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy
- traffic or hazardous weather conditions. Rain, sleet, snow, ice, and even heavy traffic can be nazardous.
- Dial sensibly and assess the traffic; if possible, place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.

 Do not engage in stressful or emotional conversations that may be distracting. Make people you
- are talking with aware you are driving and suspend conversations that have the potential to diver your attention from the road. Use your wireless phone to call for help. Dial the Emergency services, (9-1-1 in the US, and 1-1-2 in Europe) or other local emergency number in the case of fire, traffic accident or medical emergencies. Remember, it is a free call on your wireless phone! The call can be made regardless
- of any security codes and depending on a network, with or without a SIM card inserted. Use your wireless phone to help others in emergencies. If you see an auto accident, crime in progress or other serious emergency where lives are in danger, call the Emergency Services, (9-1-1 in the US, and 1-1-2 in Europe) or other local emergency number, as you would want others to
- do for you.
 Call roadside assistance or a special non-emergency wireless assistance number when necessary If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside
- assistance or other special non-emergency wireless number.
 Connection to an alert device that will cause a vehicle horn to sound or lights to flash, on receipt of a call on public roads, is not permitted.
- "The wireless industry reminds you to use your device / phone safely when driving"

Effect on Vehicles

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles (including safety systems). Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

Effect on Vehicles

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles (including safety systems). Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

An air bag inflates with great force. DO NOT place objects, including either installed or portable wireless equipment, in the area over the air bag or in the air bag deployment area. If in-vehicle wireless equipment is improperly installed and the air bag inflates, serious injury could result.

Safety on Aircraft

You are required to switch OFF mobile phones when on board an aircraft as operation may be dangerous and illegal.

Pacemakers

It is recommended by pacemaker manufacturers that a minimum of 15cm (6 inches) be maintained between a handheld wireless phone and a pacemaker to avoid any possible interference with the pacemaker. These recommendations are consistent with independent research and recommendations by Wireless Technology Research.

Persons with Pacemakers:

- Should ALWAYS keep the device more than 15cm (6 inches) from their pacemaker when turned ON
- Should not carry the device in a breast pocket
- Should use the ear furthest from the pacemaker to minimise the potential for interference.

If you have any reason to suspect that interference is taking place, turn OFF your device

Hearing Aids

The device may interfere with some hearing aids. In the event of interference you may want to consult your hearing aid supplier to discuss solutions.

Other Medical Devices

The device transmits radio frequency energy and has the potential to interfere with inadequately protected medical devices. Consult your physician or the manufacturer of the device to see if the particular device has sufficient protection.

It is good practice to turn OFF the device within a hospital or other medical facility where sensitive medical equipment is in use. In some countries, this is a legal requirement applying to all mobile phones and related equipment..

Warning Notices

Please observe all warning notices with regard to the usage of mobile phones.

Potentially Hazardous Atmospheres

You are advised not to use this device at a refuelling point. You are reminded of the need to observe restrictions on the use of radio devices in fuel depots, chemical plants etc. and areas where the air contains chemicals or particles (such as grain, dust, or metal powders) and any other area where you would normally be advised to turn off your vehicle engine.

Regulatory Information

All Symbol devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required. Any changes or modifications to Symbol Technologies equipment, not expressly approved by Symbol Technologies, could void the user's authority to operate the equipment.

Radio Modules

This device can contain the following approved radio modules. These modules are identified below:

- Symbol RLAN (11Mbps DSSS) radio module, Type: 21-64436*
- Symbol RLAN (2Mbps FM) radio module, Type: LA3021
- Siemens GSM GPRS MC45 or MC46 module, or Sierra Wireless EM3420 module
- Symbol Bluetooth Module, Type: 21-64381*.

*This device incorporates the International Roaming feature (IEEE802.11d) which will ensure the product operates on the correct channels for the particular country of use.

This device can contain the following Bluetooth™ qualified subsystems:

- BTID: B01285
- BTID: B00813

Power Supply

Use only a Symbol-approved power supply output rated 11-16 Vdc and minimum 2A. The power supply is certified to EN60950 with SELV outputs. Use of alternative power supply will invalidate any approval given to this device and may be dangerous. Benutzen Sie nur eine Symbol Technologies genehmigt in den Ausgabe: 11-16Vdc und minimum 2A. Die Stromversorgung ist bescheinigt nach EN60950 mit SELV Ausgaben.

FCC Exposure Guidelines

Safety Information

The device complies with Internationally recognized standards covering Specific Absorption Rate (SAR) related to human exposure to electromagnetic fields from radio devices.

Reducing RF Influence - Use Properly

It is advisable to use the device only in the normal operating position and it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

Handheld Devices

This device was tested for typical body-worn operations with the holster providing a minimal spacing of 4.0 cm from the body to the terminal/antenna.

The holster is designed to hold the terminal with the screen facing the body. The holster should be worn on the hip. Use of the terminal/holster in any other position may not comply with FCC RF Exposure requirements and should be avoided.

The use of other belt-clip/holsters and other non-tested accessories may not comply with FCC RF Exposure requirements and should be avoided.

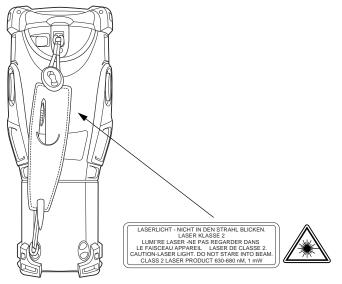

Laser Devices

Symbol devices using lasers comply with US 21CFR1040.10, and IEC825-1:1993, EN60825-1:1994+A11:1996. The laser classification is marked on one of the labels on the device. Class 1 Laser devices are not considered to be hazardous when used for their intended purpose. The following statement is required to comply with US and international regulations:

Caution: Use of controls, adjustments or performance of procedures other than those specified herein may result in hazardous laser light exposure. Class 2 laser scanners use a low power, visible light diode. As with any very bright light source, such as the sun, the user should avoid staring directly into the light beam. Momentary exposure to a Class 2 laser is not known to be harmful.

Scanner Labeling

CAUTION- LASER LIGHT WHEN OPEN. DO NOT STARE INTO BEAM.
ATTENTION- LUMIÉRE LASER EN CAS D'OUVERTURE. NE PAS REGARDER DANS LE FAISCEAU
VORSICHT- LASERLICHT, WENN ABDECKUNG GEÖFFNET. NICHT IN DEN STRAHL BLICK
COMPLIES WITH 21CFR1040.10,IEC 825-1:1993/EN10825-1:1994 + A11:1996

CE Marking and European Economic Area (EEA)

RLAN's (2.4GHz) for use through the EEA have the following restrictions:

- Maximum radiated transmit power of 100 mW EIRP in the frequency range 2.400 -2.4835 GHz
- France, equipment is restricted to 2.4465 -2.4835 GHz frequency range
- Belgium outside usage, the equipment is restricted to 2.460 -2.4835 GHz frequency range
- Italy requires a user license for outside usage.

Bluetooth™ for use through the EEA have the following restrictions:

- Maximum radiated transmit power of 100 mW EIRP in the frequency range 2.400 -2.4835 GHz
- Belgium outside usage, the equipment is restricted to 2.460 -2.4835 GHz frequency range
- Italy requires a user license for outside usage.

Statement of Compliance

Symbol Technologies, İnc., hereby, declares that this device is in compliance with the essential requirements and other relevant provisions of Directives 1999/5/EC, 89/336/EEC and 73/23/EEC. Declaration of Conformities may be obtained from: http://www2.symbol.com/doc/

Other Countries

Mexico - Restrict Frequency Range to: 2.450 - 2.4835 GHz. Israel - Restrict Frequency Range to: 2.418 - 2.457 GHz. Sri Lanka - Restrict Frequency Range to: 2.400 - 2.430 GHz.

Battery Information

Symbol rechargeable battery packs are designed and constructed to the highest standards within the industry. However, there are limitations to how long a battery can operate or be stored before needing replacement. Many factors affect the actual life cycle of a battery pack, such as heat, cold, harsh environmental conditions and severe drops. When batteries are stored over six (6) months, some irreversible deterioration in overall battery quality may occur. Store batteries discharged in a dry, cool place, removed from the equipment to prevent loss of capacity, rusting of metallic parts and electrolyte leakage. When storing batteries for one year or longer, they should be charged and discharged at least once a year. If an electrolyte leakage is observed, avoid any contact with affected area and properly dispose of the battery. Replace the battery when a significant loss of run time is detected. Standard warranty period for all Symbol batteries is 30 days, regardless if the battery was purchased separately or included as part of the mobile computer or bar code scanner. For more information on Symbol batteries, please visit: http://mysymbolcare.symbol.com/battery/batbasics1.html.

Radio Frequency Interference Requirements

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate

radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

Radio Transmitters (Part 15)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radio Frequency Interference Requirements - Canada

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radio Transmitters

This device complies with RSS 210 of Industry & Science Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

Label Marking: The Term "IC:" before the radio certification only signifies that Industry Canada technical specifications were met.
