Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts or if you have a family history of such occurrences please consult your doctor before playing video games on your mobile phone or enabling a flashing-lights feature on your mobile phone. Parents should monitor their children's use of video games or other features that incorporate flashing lights on the mobile phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:

Play at the farthest distance possible from the screen. When you play games on your mobile phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow these instructions to avoid problems such as ndinitis, carpal tunnel syndrome, or other musculoskeletal disorders:

Take a minimum of a 15-minute break every hour of game playing. If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again. - If you continue to have sore hands, wrists, or arms during o

- Address: Room 1910-12A, Tower 3, China HK City, 33 Canton

Road, Tsimshatsui, Kowloon, Hong Kong On our website, you will find our FAQ (Frequently Asked Questions) ection. You can also contact us by e-mail to ask any questions you may

An electronic version of this user guide is available in English and other languages according to availability on our server

Your mobile phone is a transceiver that operates on GSM in quad-band with 850/900/1800/1900 MHz or UMTS in tri-band with 850/900/2100

Protection against theft(1)

Your telephone is identified by an IMFI (phone serial number) shown on the packaging label and in the phone's memory. We recommend t you note the number the first time you use your telephone by ring * # 0.6 # and keep it in a safe place. It may be requested by he police or your operator if your telephone is stolen. This number llows your mobile telephone to be blocked preventing a third person from using it, even with a different SIM card.

There may be certain differences between the user manual description and the phone's operation, depending on the software release of your telephone or specific operator services

Contact your network operator to check service availability
