Quick Start Guide

This product meets applicable national SAR limits of 1.6 W/kg. The specific maximum SAR values can be found on page 19 of this user guide.

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of 1.0 cm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

The mobile phone is in compliance with the requirement of EN 60950-1: 2006 amendment A12: 2011. There will appear a warning box when the volume level is over 4. If the user selects left soft key in the warning box, the volume can be increased and the phone will repeat the acknowledgement more than once every 20h of cumulative listening time

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Safety and use.....

We recommend that you read this chapter carefully before using your mobile phone. The manufacturer disclaims any liability for damage. which may result as a consequence of improper use or use contrary to the instructions contained herein

• TRAFFIC SAFFTY:

Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their mobile phone when the vehicle is not parked. Check the laws and regulations on the use of wireless mobile phones and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas. When driving, do not use your mobile phone and headphone to

listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas.

When switched on, your mobile phone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- do not place your mobile phone on top of the dashboard or within an airbag deployment area.
- check with your car dealer or the car manufacturer to make sure that the car's electronic devices are shielded from mobile phone RF energy.

CONDITIONS OF USE:

You are advised to switch off the mobile phone from time to time to optimize its performance

Remember to abide by local authority rules of mobile phone use on aircrafts.

Operational Warnings: Obey all posted signs when using mobile devices in public areas

Follow Instructions to Avoid Interference Problems: Turn off your mobile device in any location where posted notices instruct you to do so. In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Switch the mobile phone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, mobile phones can interfere with other electrical or electronic devices, or equipment using radio frequency.

15

Switch the mobile phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, gas station, or chemical plant, or in any potentially explosive atmosphere When the mobile phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump. In particular when using the mobile phone you should hold it against the ear on the opposite side to the device if any

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your To avoid hearing impairment, answer the call before holding your

mobile phone to your ear. Also move the handset away from your ear. while using the "hands-free" option because the amplified volume might cause hearing damage.

It is recommended to have proper supervision while small children use

When replacing the cover please note that your mobile phone may contain substances that could create an allergic reaction.

Always handle your mobile phone with care and keep it in a clean and

Do not allow your mobile phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids dust sea air etc.) The manufacturer's recommended operating temperature range is -10°C (14°F) to +55°C (131°F) (the max value depends on device, materials and housing paint/texture).

Over 55°C (131°F) the legibility of the mobile phone's display may be impaired, though this is temporary and not serious. Do not open or attempt to repair your mobile phone yourself.

Do not drop, throw or try to hend your mobile phone

Do not use the mobile phone if the glass made screen, is damaged. cracked or broken to avoid any injury.

Use only batteries, battery chargers, and accessories which are

recommended by TCL Communication Ltd. and its affiliates and are compatible with your mobile phone model TCI Communication Ltd and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries Your mobile phone should not be disposed of in a municipal waste.

Please check local regulations for disposal of electronic products. Remember to make back-up copies or keep a written record of all important information stored in your mobile phone.

BATTERY AND ACCESSORIES

Before removing the battery from your mobile phone, please make sure that the mobile phone is switched off

Observe the following precautions for battery use: Do not attempt to open the battery (due to the risk of toxic fumes

and hurns) Do not puncture, disassemble or cause a short-circuit in a battery.

Do not burn or dispose of a used battery in the garbage or store it at temperatures above 60°C (140°F).

Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCL Communication Ltd. and/or its affiliates.

This symbol on your mobile phone, the battery and the accessories means that these products must be taken to

collection points at the end of their life: - Municipal waste disposal centers with specific bins for these items of equipment.

- Collection bins at points of sale.

They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:

These collection points are accessible free of charge. All products with this sign must be brought to these collection points. In non European Union jurisdictions:

Items of equipment with this symbol are not be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled. In the United States you may learn more about CTIA's Recycling

Program at http://www.gowirelessgogreen.org/ CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

17

Home A.C./ Travel chargers will operate within the temperature range of: 0°C (32°F) to 40°C (104°F)

The chargers designed for your mobile phone meet with the standard for safety of information technology equipment and office equipment use. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction They should be used for this purpose only.

Characteristics of power supply (depending on the country): Travel charger: Input: 100-240 V. 50/60 Hz. 100 mA

Output: 5 V 200 mA

Lithium 400 mAh

• RADIO WAVES:

THIS MOBILE PHONE MEETS THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES

Your mobile phone is a radio transmitter and receiver It is designed and manufactured not to exceed the emission limits for exposure to radio-frequency (RF) energy. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. These guidelines include a substantial safety margin designed to ensure the safety of all persons regardless of age and health The exposure standard for mobile phones employs a unit of

SAR limit set by public authorities such as the Federal Commun Commission of the US Government (FCC), or by Industry Canada, is 1.6 W/kg averaged over 1 gram of body tissue. Tests for SAR are conducted using standard operating positions with the mobile phone transmitting at its highest certified power level in all tested frequency hands Although the SAR is determined at the highest certified power level the actual SAR level of the mobile phone while operating can be well below the maximum value. This is because the mobile phone is designed to operate at multiple power levels so as to use only the

power required to reach the network. In general, the closer you are

to a wireless base station antenna, the lower the power output of

the mobile phone. Before a mobile phone model is available for sale

measurement known as the Specific Absorption Rate, or SAR. The

to the public, compliance with national regulations and standards must be shown The highest SAR value for this model mobile phone when tested is 0.688W/Kg for use at the ear and 1.113 W/Kg for use close to the body. may be differences bet SAR levels of various modes and at various position III meet the government requirement for RF exposure. For body-worn operation, the mobile phone meets FCC RF exposure guidelines provided that it is used with a non-metallic accessory with the handset at least 10 mm from the body. Use of other accessories may not ensure compliance with FCC

Additional information on SAR can be found on the Cellular Your mobile phone is equipped with a built-in antenna. For optimal Telecommunications & Internet Association (CTIA) Web site: operation, you should avoid touching it or degrading it. http://www.ctia.org/

The World Health Organization (WHO) considers that present scientific information does not indicate the need for any special precautions for use of mobile phones. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using "hands-free" devices to keep mobile phones away from the head and body, (fact sheet n°193). Additional WHO information about electromagnetic fields and public health are available on the following website: http://www.who.int/peh-emf.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Recrient or relocate the receiving antenna.

Increase the separation between the equipment and receiver Connect the equipment into an outlet on a circuit different from that

to which the receiver is connected Consult the dealer or an experienced radio/ TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment For the receiver devices associated with the operation of a licensed

radio service (e.g. FM broadcast), they bear the following statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

For other devices, they bear the following statement This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference

(2) this device must accept any interference received, including interference that may cause undesired operation.

Your telephone is a transceiver that operates on GSM 850/900/1800/

Protection against theft (1)

Your mobile phone is identified by an IMEI (mobile phone serial number) shown on the packaging label and in the product's memory. We recommend that you note the number the first time you use your mobile phone by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your mobile

Disclaimer

There may be certain differences between the user manual description and the mobile phone's operation, depending on the software release of your mobile phone or specific operator services. TCL Communication shall not be held legally responsible for such differences, if any, nor for their potential consequences, which responsibility shall be borne by the operator exclusively.

TCL Communication (US). Inc. Warranty

TCL Communication (US), Inc. warrants to the original retail purchaser of this wireless device that should this product or part thereof during normal consumer usage and condition be proven to be defective in material or workmanship that results in product failure within the first twelve (12) months from the date of purchase as shown on your original sales receipt from an authorized sales agent. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at the company's option without charge for parts or labor directly related to the defect(s). Batteries, power adapters, and other accessories sold as in box items are also warranted against defects and workmanship that results in product failure within the first six (6) months period from the date of purchase as shown on your original sales receipt. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at the company's option without charge for parts or labor directly related to the defect(s).

The limited warranty for your wireless device will be voided if any of the following conditions occur:

- Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area where your phone is used:
- Connection to any equipment not supplied or not recommended by TCL Communication (US), Inc.;
- Modification or repair performed by individuals not authorized by TCL Communication (US) Inc. or its affiliates:
- · Changes to the device operating system by the user or third party Acts of god such as inclement weather, lightning, power surges, fire, humidity, infiltration of liquids or foods, chemical products, download
- of files crash high voltage corrosion oxidation: Removal or altering of the wireless device's event labels or serial numbers (IMEI):
- Damage from exposure to water or other liquids, moisture, humidity excessive temperatures or extreme environmental conditions, sand excess dust and any condition outside the operating guidelines:
- Defects in appearance, cosmetic, decorative or structural items such as framing and non-operative parts:
- Damage as result of physical abuse regardless of cause

There are no express warranties, whether written, oral or implied, other than this printed limited warranty or the mandatory warranty provided by your jurisdiction. In no event shall TCL Communication (US), Inc. or any of its affiliates be liable for incidental or consequential damages of any nature whatsoever, including but not limited to commercial loss, to the full extent those damages can be disclaimed by law. Some states do not allow the exclusion or limitation of incidental or consequential damages. or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

Some people may suffer epileptic seizures or blackouts when exposed

to flashing lights, or when playing video games. These seizures or

blackouts may occur even if a person never had a previous seizure or

blackout. If you have experienced seizures or blackouts, or if you have

a family history of such occurrences, please consult your doctor before

playing video games on your mobile phone or enabling a flashing-lights

feature on your mobile phone. Parents should monitor their children's

use of video games or other features that incorporate flashing lights

on the mobile phones. All persons should discontinue use and consult

a doctor if any of the following symptoms occur: convulsion, eye

or muscle twitching, loss of awareness, involuntary movements, or

disorientation. To limit the likelihood of such symptoms, please take
