PHONE OVERVIEW

П

MY CARRIER

This guide provides you with information you need to get started.

For more information and additional support, please visit https://t-mobile.com/support where you can:

- Register at my.t-mobile.com to check your usage, pay your bill, upgrade your phone, and change your rate plan.
- · Review your phone's User Manual.
- View the latest troubleshooting instructions in the Support Forums or ask a question of your own.

Service or use is your agreement to T-Mobile's Terms and Conditions. T-Mobile requires Arbitration of Disputes unless, for new customers, you opt-out within 30 days or for existing customers, you previously opted-out. Failure to activate service within 30 days from purchase will also be considered acceptance. For details, see T-Mobile's Terms and Conditions at T-Mobile.com/terms-conditions.

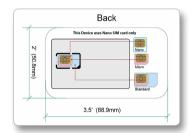

SIM CARD

The SIM (Subscriber Identity Module) card identifies your phone to the wireless network. You cannot make or receive phone calls without a properly installed SIM card unless its an emergency call (911).

Insert/Remove the Nano SIM and microSD Cards⁽¹⁾

 Detach the Nano SIM card from its packaging as shown below.

Note: Nano SIM is smallest SIM size available on card.

⁽¹⁾ microSD Cards are sold separately.

2. Power off your phone, remove the back cover via the notch at the bottom-left of the phone.

3. Remove the battery from the back of the phone.

4. To insert a SIM or microSD card, push the SIM or microSD card into the card slot with the gold-colored contacts facing down. To remove the SIM or microSD card, push down the plastic spring and pull the SIM or microSD card out.

BATTERY

To optimize battery performance, be sure to fully charge your phone before using it for the first time.

Charge the Device

 Insert the small end of the charging cable into the charge port as shown.

-

2. Connect charger to power outlet.

BATTERY MANAGEMENT

Optimize Battery Life

To optimize battery life, adjust your screen brightness and display timeout.

- From the Home screen, press the Center Soft Key (a), select Settings (a) and then press the Navigation key to select Personalization.
- Press up or down on the Navigation key and select Display.
- Adjust Brightness and Screen Timeout to optimize battery life.

POWER

To turn the power on/off, press and hold the **End/Power Key** _ > **J**.

HOME SCREEN

Press the **End/Power Key ___** to get instant access to the Home screen.

Status Bar

The Status bar appears at the top of your Home screen. You will find icons indicating your phone's status and new notification alerts will also appear in the Status bar.

Icon	Status
*	Bluetooth® active
्रे	Wi-Fi® active
{{	Vibrate
.ull	Network (full signal)
.iil	Network (roaming)
4 G	4G LTE data service
3G	3G data service
+	Airplane mode
**	Alarm set
[*]	Battery (charging)
	Battery (full charge)
e ×	Missed call
	New mail
P	New message

App List

From the Home screen, press the **Center Soft Key** (a) to access the **App list**.

Change Home Screen Wallpaper

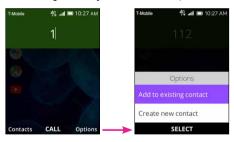

- From the Home screen, press the Center Soft Key (Soft), select Settings (2) and then press the Navigation Key to select Personalization.
- Press the Navigation Key and select Display -> Wallpaper. Select the image location to browse from Wallpaper, Gallery or Camera.
- Select new image, press the Right Soft Key
 to save. Exit out and new image will be displayed on the Home screen

CALLS

Make a Call

Dial the desired number and press the **Call Key** to place the call, or press the **Right Soft Key** to select a contact from **Contacts**, and then press up or down on the **Navigation Key** to select the desired contact and press the **Call Key**. If you make a mistake, you can delete the incorrect digits by pressing the **End/Power Key**. To hang up the call, press the **End/Power Key**.

Press the **Right Soft Key** — to select more options.

The number you entered can be saved to **Contacts** by pressing the **Right Soft Key** — while on the dial screen and select **Create new contact**.

International Call

Emergency Call

If your phone has network coverage, dial emergency number and press the **Call Key** ___ to make an emergency call. This works even without a SIM card.

Answer or Decline a Call

When you receive a call:

- Press the Left Soft Key or Call Key to answer;
- Press the Right Soft Key

 or End/Power Key

 to decline.

To mute the ringtone volume of an incoming call, press the **Volume Key**.

EMERGENCY CALL

Although all phones are equipped with 9-1-1 emergency calling capabilities, this phone may or may not permit its location to be approximated during a 9-1-1 call.*

*Availability of this feature depends on upgrades to the (a) wireless network and (b) 9-1-1 calling system that are required to be installed by the local 9-1-1 response agency or public safety answering point (PSAP); these upgrades may not be available everywhere within our wireless coverage area or your roaming area. This approximation of the phone's location and the transmittal of location information are subject to emergency situations, transmission limits, network problems/limitations, interconnecting carrier problems, your phone, buildings/tunnels, signal strength and atmospheric/topographical conditions, and may be curtailed, interrupted, dropped, or refused. The phone's approximate location is transmitted to the local 9-1-1 response agency or PSAP while the call is in progress; this approximation is intended solely to aid the PSAP in dispatching emergency assistance or to limit the search area for emergency services personnel. You should not rely solely on a mobile phone for essential communications (such as a medical or other emergency). Please see T-Mobile's Terms and Conditions, and Privacy Policy for additional service restrictions and details.

ACCESS FILES

To access media files and photos saved on your handset or to transfer files from your handset's SD card to your computer, follow these steps:

Connect Device to PC

- Enable USB Storage in Settings -> Storage -> USB Storage.
- 2. Use micro-USB connector to connect your phone to your computer.
- Use your computer's operating system to find phone to access files or SD card.

This phone is compatible with Windows® XP, Windows® 7, Windows® Vista, Windows® 8, Windows® 10, Linux and Mac OS®.

VOICEMAIL

Set Up Voicemail

- 1. Press and hold [1 ...] to call voicemail.
- 2. Follow the prompts to set up your voicemail account.

13

VOLUME & RINGTONE

Adjust In-call Volume

While on a call, press the **Volume Up/Down Key** to adjust volume

Adjust Ringtone and Volume

- From the Home screen, press the Center Soft Key

 , select Settings
 , and then press the Navigation

 Key to select Personalization.
- 2. Press the Navigation Key to select Sound.
- Select Tones -> Ringtones to choose the desired ringtone.
- Select Volume option to adjust volume for Media, Ringtones, or Alarm.

CONTACTS

Create a New Contact

- From the Home screen, press the Right Soft Key , or press the Center Soft Key and select Contacts
- 2. Press the **Left Soft Key** to create a new contact.

- Enter contact's name and other contact information.
 You can use your voice to enter information, simply press and hold the **Center Soft Key** to activate the Google Assistant.
- 4. When finished, press the Center Soft Key () to save.

Add a Contact from Call History Log

- Access your call history log by pressing the Call Key
 — from the Home screen.
- Press the Navigation Key to select the number you want to save to contacts on the call history screen.
- Press the Right Soft Key
 to open the Options menu.
- Press the Navigation Key to select Create new contact or Add to existing contact.
- Enter contact's information and press the Center Soft Key (%) to save.

Make a Call from Contact List

- From the Home screen, press the Center Soft Key and select Contacts
- Press the Navigation Key to select the contact and press the Center Soft Key (So), dialing will start immediately.

E-MAIL

Set Up Email Accounts

- 1. From the Home screen, press the **Center Soft Key** and select **E-mail**
- Enter the account name, Email address and password. You can use Google Assistant to use your voice to input your name.
- 3. Press the **Left Soft Key** to go to **Advanced** options.

TEXT MESSAGING

Use the messaging feature to send and receive text (SMS) and multimedia (MMS) messages.

Create and Send a Message

- From the Home screen, press the Center Soft Key and select Messages to enter Messages.
- 2. Press the **Left Soft Key** to write a new text message.
- Enter the phone number of the recipient in the bar at the top of the page or press the **Right Soft Key** to add recipients.

- Press the Navigation Key to go to the Message bar to write a text message, or press and hold the Center Soft Key to use your voice to input the content of the message.
- Press the Left Soft Key to send text messages.

Send a Multimedia Message

MMS enables you to send video clips, images, photos, contacts and sounds to other compatible phones and email addresses by pressing the **Right Soft Key** — from the the text messages screen and then selecting **Add** attachment.

An SMS will be converted to MMS automatically when media files (image, video, audio, etc.) are attached or email addresses are added.

WEB BROWSING

- From the Home screen, press the Center Soft Key and select Google Browser .
- Press the Left Soft Key and enter the website you
 want to browse, then press the Center Soft Key
 oto search. You can also use Google Assistant to use your
 voice to input a web address.
- To access the Options menu, press the Right Soft Key —.

BLUETOOTH®

Your phone comes with Bluetooth connectivity, a wireless technology that enables a data connection between your phone and a Bluetooth headset or other Bluetooth device (sold separately).

Connect to Bluetooth

- 1. From the Home screen, press the **Center Soft Key** and select **Settings (5)**.
- Use the Navigation Key to select Network & Connectivity -> Bluetooth.
- 3. Using the **Navigation Key**, select **On** and press the **Center Soft Key** (oc) to turn Bluetooth on.
- The phone will automatically search for Bluetoothenabled devices by pressing Nearby Devices.
- 5. Select the desired Bluetooth device to pair with phone.

PROTECT YOUR PHONE

Add a security PIN to prevent others from using your phone without your permission.

Activate Security PIN

- Press the Navigation Key and select On to enable screen lock on the Screen Lock screen.

3. Enter the passcode twice and press the **Right Soft Key** ___ to create.

Deactivate Security PIN

Note: Be sure to deactivate this option before you return or exchange your phone or before factory reset to avoid PIN from being required to access phone.

- Press the Navigation key to select Off to disable screen lock on the Screen Lock screen.
- 3. Enter the passcode to confirm removal.

CARING FOR YOUR PHONE

Make it Last

Your phone is a complex electronic device; think of it as a mini-computer. Here are a few tips to help you extend the life of your new phone.

Do not get your phone wet. Even a small amount of moisture can damage your phone and accessories.

Protect your phone's screen. Your phone's screen is delicate.

Use the original manufacturer's batteries and accessories. Non-approved batteries and accessories can harm you and damage your phone.

Do not use damaged accessories. If your charger or any other accessory is damaged, please replace it. Do not attempt to charge your phone if the charger has been dropped, received a sharp blow, or has been otherwise damaged; doing so may damage your phone.

ACCESSORIES

Whether you want a charger, or a fashionable headphone, T-Mobile is the shop for all your phone accessories.

To purchase accessories for your phone, please visit <u>T-Mobile.com</u>, call **1.800.204.2449**, or visit your nearest T-Mobile store.

Accessories selection subject to change and may vary by location.

APPROVED FIRMWARE VERSIONS

This device will only operate with firmware versions that have been approved for use by T-Mobile and the device manufacturer. If unauthorized firmware is placed on the device, it will not function.

DEVICE SECURITY

T-Mobile encourages customers to take appropriate measures to secure their handsets and invites them to take advantage of the features available on this handset to help secure it from theft and/or other unauthorized access and use. This handset has a locking function (e.g., Security PINs) that can serve as a first line of defense against unauthorized use or access to stored information. Preloaded security applications that allow customers to track or locate misplaced devices can be found on several T-Mobile devices. Lost or stolen devices should be immediately reported to T-Mobile so that proper measures can be taken to protect accounts. For additional information, visit: www.t-mobile.com/devicesecurity and https://www.t-mobile.com/Company/PrivacyResources.aspx.

ADDITIONAL INFORMATION

Use of some content or features may require qualifying service or access to a Wi-Fi connection.

Wi-Fi: Devices using wireless connections may be vulnerable to unauthorized attempts to access data on the device. Plan data allotment applies to use by connected devices sharing Wi-Fi. Use of connected devices are subject to T-Mobile's Terms and Conditions

Devices and screen images are simulated. **Coverage** not available in some areas. Visit T-Mobile.com for **Terms and Conditions (including arbitration provision)**, rate plan information, charges for features and services, coverage details, and restrictions.

The Bluetooth® word mark and logo are owned by Bluetooth SIG, Inc. and are used by T-Mobile under license. T-Mobile and the magenta color are registered trademarks of Deutsche Telekom AG.

1 YEAR LIMITED WARRANTY

TCT Mobile Inc., offers a 1 year limited warranty on all TCL and Alcatel devices that are found to be defective in materials or workmanship upon submission of the following items:

 Proof of purchase – consisting of original invoice or sales slip indicating the date of purchase, dealer's name model and serial number of the product.

General Terms and Conditions

This warranty is confined to the first purchaser of the product only and is not applicable to cases other than defects in material, design and workmanship.

Items and Conditions Not Covered:

- Damages resulting from normal wear and tear and/or the need for regular maintenance shall not constitute a defect under the terms of this warranty.
- Abuse or misuses, including but not solely limited to the failure to use this product for its normal purposes or in accordance with TCT's instructions on usage and maintenance.
- Defects resulting from usage of the product in conjunction with accessories that are not approved by TCT for use with this product.
- TCT will not be responsible for any repairs caused by third party component parts, or service that is found to be the cause for the defect or damage of the product.
- TCT will not be responsible for failure to use the battery in accordance with the specific instructions of core outlined in the product user manual. For example, do not attempt to open sealed devices, such as batteries. Opening of sealed devices may result in bodily injury and/or property damage.
- Accidents, Acts of God, lightning, water, fire, public disturbances, improper ventilation, voltage fluctuations or any cause beyond the control of TCT.

 This warranty does not affect the consumers' statutory rights nor the consumers' rights against the dealer related to their purchase/ sales agreement.

TCT's 1 Year Limited Warranty will abide by the following options regarding claims:

- Repair the TCT product using new or previously used parts that are equivalent to new in performance and reliability.
- Replace the TCT product with the same model (or with customer consent a product that has similar functionality) formed from new and/or previously used parts that are equivalent to new in performance and reliability.
 - a. When a TCT product or part is replaced or provided, any replacement item becomes the customer's property and the replaced or refunded item becomes TCT's property.
 - b. TCT will not provide any data transfer service. This is the customer's responsibility. TCT shall not be liable for the loss of any saved/stored data in products that are either repaired or replaced. Customer should maintain a separate backup copy of the contents of the device's data.
- 3. All refund requests shall be submitted to the retailer where the device(s) were originally purchased and shall subject to the retailer's refund policies. Customers may obtain the retailers return policies at the links provided below:
 - a. U.S. https://us.alcatelmobile.com/return-policy/
 - b. Canada https://ca.alcatelmobile.com/return-policy/

- Repair or Replacement of any TCT product under the terms of this warranty does not provide right to extension or renewal of the warranty period.
- 5. Warranty repairs are available free of charge at TCT authorized repair centers for products that comply with the General Terms and Conditions of this warranty. Shipping cost of the defective product(s) to TCT authorized repair center is to be paid by the customer. The customer is responsible for any damage to the defective product during shipment to the authorized repair center.
- 6. This warranty is not transferrable. This warranty will be the purchasers' sole and exclusive remedy and neither TCT nor its service centers shall be liable for any incidental or consequential damages or breach of any express or implied warranty of this product.
- 7. This warranty extends to products purchased and sold within the United States and Canada. All products sold in United States will be subject to their respective state and federal laws. All products purchased in Canada will be subject to Canadian laws.

Company Contact Information

Customer Care may be contacted at:

USA Phone Number: 855-368-0829 or https://us.alcatelmobile.com/

Canada Phone Number: 855-844-6058 or

https://ca.alcatelmobile.com/

Electronic Recycling

For more information on Electronic Recycling:

- Visit Alcatel Electronic Recycling Program website at https://us.alcatelmobile.com/accessibility-compliance/electronic-recycling-program/, or
- 2) Call Alcatel US Customer Support at 1-855-368-0829.

Battery Recycling (USA & Canada):

Alcatel partners with Call2Recycle® to offer a safe and convenient battery recycling program. For more information on our Battery Recycling Program, please visit the USA and Canada website at https://us.alcatelmobile.com/accessibility-compliance/battery-recycling/ and https://ca.alcatelmobile.com/accessibility-compliance/battery-recycling/.

SAFETY AND USE

We recommend that you read this chapter carefully before using your mobile phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

Traffic Safety

Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the handsfree kit is used (car kit, headset...), drivers are requested to refrain from using their mobile phone when the vehicle is not parked. Check the laws and regulations on the use of wireless mobile phones and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas.

When driving, do not use your mobile phone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas.

When switched on, your mobile phone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- Do not place your mobile phone on top of the dashboard or within an airbag deployment area,
- Check with your car dealer or the car manufacturer to make sure that the car's electronic devices are shielded from mobile phone RF energy.

Conditions of Use

You are advised to switch off the mobile phone from time to time to optimize its performance.

Remember to abide by local authority rules of mobile phone use on aircrafts.

Operational Warnings: Obey all posted signs when using mobile devices in public areas.

Follow Instructions to Avoid Interference Problems:

- Turn off your mobile device in any location where posted notices instruct you to do so. In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.
- Switch the mobile phone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, mobile phones can interfere with other electrical or electronic devices, or equipment using radio frequency.
- Switch the mobile phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, gas station, or chemical plant, or in any potentially explosive atmosphere.
- When the mobile phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump. In particular when using the mobile phone you should hold it against the ear on the opposite side to the device, if any.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.

To avoid hearing impairment, answer the call before holding your mobile phone to your ear. Also move the handset away from your ear while using the "hands-free" option because the amplified volume might cause hearing damage.

It is recommended to have proper supervision while small children use your mobile phone.

Do not attempt to disassemble your phone. If you disassemble your phone, the warranty will not apply.

Always handle your mobile phone with care and keep it in a clean and dust-free place.

Do not allow your mobile phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc.). The manufacturer's recommended operating temperature range is 0°C (32°F) to 50°C (122°F) (the max value depends on device, materials and housing paint/texture).

Over 50°C (122°F) the legibility of the mobile phone's display may be impaired, though this is temporary and not serious.

Do not open or attempt to repair your mobile phone yourself.

Do not drop, throw or try to bend your mobile phone.

Do not use the mobile phone if the screen is damaged, cracked or broken to avoid any injury.

Do not paint it.

Use only batteries, battery chargers, and accessories which are recommended by TCL Communication Technology Holdings Limited and its affiliates and are compatible with your mobile phone model. TCL Communication Technology Holdings Limited and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.

Your mobile phone should not be disposed in municipal waste. Please check local regulations for disposal of electronic products.

Remember to make back-up copies or keep a written record of all important information stored in your mobile phone.

Some people may suffer epileptic seizures or blackouts when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your mobile phone. Parents should monitor their children's use of video games or other features that incorporate flashing lights on the mobile phone. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:

Play at the farthest distance possible from the screen.

When you play games on your mobile phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow these instructions to avoid problems, such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders:

- Take a minimum of a 15-minute break every hour of game playing.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Privacy

Please note that you must respect the laws and regulations of your jurisdiction or other jurisdiction(s) where you will use your mobile phone regarding taking photographs and recording sounds with your mobile phone. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and reproduce or distribute them, as this may be considered to be an invasion of privacy.

It is the user's sole responsibility to ensure that prior authorization be obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your mobile phone (including the operator) disclaim any liability which may result from the improper use of the mobile phone.

Battery and Accessories

Following air regulation, if the battery of your product is not charged, please charge first.

Before removing the battery from your device, make sure that the device is switched off.

Observe the following precautions for battery use:

- Do not attempt to open the battery (due to the risk of toxic fumes and burns).
- Do not puncture, disassemble, bend, deform, open, shred or cause a short-circuit in the battery.
- Do not burn or dispose of a used battery in household garbage or store it at temperatures above 60°C.
- Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, expose to fire, explosion or other hazard

The symbol below on your telephone, the battery and the accessories means that these products must be taken to collection points at the end of their life:

- · Municipal waste disposal centers with specific bins for these items of equipment.
 - Collection bins at points of sale.

They will then be recycled, preventing substances from being disposed of in the environment, so that their components can be reused.

In European Union countries:

These collection points are accessible free of charge. All products with this sign must be brought to these collection points.

In non-European Union jurisdictions:

Types of equipment with this symbol are not be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities: instead they are to be taken to collection points for them to be recycled.

In the United States, you can learn more about how to recycle your mobile device by visiting the CTIA website at www.ctia.org/news/how-to-recycle-your-mobile-device

CAUTION: IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DEVICE MIGHT EXPLODE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTION

MARNING: Cancer and Reproductive Harm www.P65Warnings.ca.gov

Chargers

Home A.C./Travel chargers will operate within the temperature range of: 0°C (32°F) to 45°C (113°F).

The chargers designed for your mobile phone meet the standard for safety of information technology equipment and office equipment use. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.

Characteristics of power supply (depending on the country):

Travel charger: 100-240V, 50/60Hz, 150mA

Output: 5.0 V. 550mA

Battery: Lithium 1350mAh

Radio Waves

THIS MOBILE PHONE MEETS THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES

Your mobile phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio-frequency (RF) energy. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. These guidelines include a substantial safety margin designed to ensure the safety of all persons, regardless of age and health.

The exposure standard for mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by public authorities such as the Federal Communications Commission of the US Government (FCC), or by Industry Canada, is 1.6 W/kg averaged over 1 gram of body tissue. Tests for SAR are conducted using standard operating positions with the mobile phone transmitting at its highest certified power level in all tested frequency bands.

Although the SAR is determined at the highest certified power level, the actual SAR level of the mobile phone while operating can be well below the maximum value. This is because the mobile phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output of the mobile phone. Before a mobile phone model is available for sale to the public, compliance with national regulations and standards must be shown. The highest SAR value for this model mobile phone when tested is 0.XX W/Kg for use at the ear and 1.XX W/Kg for use close to the body.

While there may be differences between the SAR levels of various mobile phones and at various positions, they all meet the government requirement for RF exposure. For body-worn operation, the phone has been tested when positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when properly used with an appropriate accessory and worn on the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. Additional information on SAR can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site: https://www.ctia.org.

The World Health Organization (WHO) considers that present scientific information does not indicate the need for any special precautions for use of mobile phones. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using "hands-free" devices to keep mobile phones away from the head and body. (fact sheet n°193). Additional WHO information about electromagnetic fields and public health are available on the following website: http://www.who.int/peh-emf.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

 Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

For the receiver devices associated with the operation of a licensed radio service (e.g. FM broadcast), they bear the following statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

For other devices, they bear the following statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Your mobile phone is equipped with a built-in antenna. For optimal operation, you should avoid touching it or degrading it.

As mobile devices offer a range of functions, they can be used in positions other than against your ear. In such circumstances the device will be compliant with the guidelines when used with headset or USB data cable. If you are using another accessory, ensure that whatever product is used is free of any metal and that it positions the mobile phone at least 15 mm away from the body.

Hearing Aid Compatibility

Your mobile phone is rated: «For Hearing Aid», to assist hearing device users in finding mobile phones that may be compatible with their hearing devices.

This device is HAC M4/T4 compatible. Reference ANSI C63.19 (2011).

For more information please visit our website https://us.alcatelmobile.com/

FCC ID: 2ACCJN032

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult you service provider or phone retailer.

E-labeling: To find more information regarding FCC ID, IMEI number, and more, go to **Settings** > **Device** > **Regulatory & Safety**.

SAFETY TIPS

Consider Device Compatibility

If you have a pacemaker or a hearing aid, check with your doctor to make sure it's safe for you to use a mobile phone. In some cases, cellular radio frequencies can disrupt the performance of other electronic equipment. If you have questions about the interaction between your phone and any other piece of electronic equipment, ask the equipment manufacturer.
