• RADIO WAVES:

THIS CELLPHONE MEETS THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your cellphone is a radio transmitter and receiver It is designed and manufactured not to exceed the emission limits for exposure to radio-frequency (RF) energy. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed This device complies with Part 15 of the FCC Rules. Operation is subject to the dent scientific organizations through periodic and thorough evaluation of condition that this device does not cause harmful interference. , scientific studies. These guidelines include a substantial safety margin designed to For other devices, they bear the following statemen ensure the safety of all persons, regardless of age and health.

The exposure standard for cellphones employs a unit of measurement known as the following two conditions: regulations. Only use the battery for the purpose for which it was designed. Never use ungged batteries or those not recommended by TCT Mobile Limited and/or its Federal Communications Commission of the US Government (FCC), or by Industry (2) this device must accept any interference received, including interference that may Canada, is 1.6 W/kg averaged over 1 gram of body tissue. Tests for SAR are conducted sing standard operating positions with the cellphone transmitting at its highest

Your cellphone is equipped with a built-in antenna. For optimal operation, you should certified power level in all tested frequency bands.

level of the cellphone while operating can be well below the maximum value. This is against your ear. In such circ because the cellphone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless that whatever product is used is free of any metal and that it positions the cellphone base station antenna, the lower the power output of the cellphone Before a cellphone at least 1.5 cm away from the body. model is available for sale to the public, compliance with national regulations and • LICENCES standards must be shown.

The highest SAR value for this model cellphone when tested is:

one touch 214A: 1.31 W/Kg for use at the ear and 1.23 W/Kg for use close to the ZICOTDOTATION and/or its Affiliates.

While there may be differences between the SAR levels of various cellphones and at various positions, they all meet the government requirement for RF exposure. For worn operation, the cellphone meets FCC RF exposure guidelines provided that it is used with a non-metallic accessory with the handset at least 1.5 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines The World Health Organization (WHO) considers that present scientific information does not indicate the need for any special precautions for use of cellphones. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using "hands-free" devices to keep cellphones away from the head and hody (fact sheet n°193) Additional WHO mation about electromagnetic fields and public health are available on the following website: http://www.who.int/peh-emf.

Note: This equipment has been tested and found to comply with the limits for a Class Home A C chargers will operate within the temperature range of 0°C (32°F) to 40°C. B digital device pursuant to part 15 of the FCC Rules These limits are designed to

Your cellphone is a transceiver that operates on GSM networks with 850 and 1900 MHz hands

Protection against theft (1)

Your cellphone is identified by an IMEI (cellphone serial number) shown on the packaging label and in the product's memory. We recommend that you note the number the first time you use your cellphone by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your cellphone is stolen. This number allows your cellphone to be blocked preventing a third person from using it. even with a different SIM card
