Removing and installing the back cover

## Removing and installing the battery

### Inserting and removing the SIM card

Place the SIM card with the chip facing downwards and slide i into its housing. Make sure that it is correctly inserted. To remove the card, press it and slide it out.

Charging the battery

Connect the battery charger to your phone and outlet respectively

- The charging may take about 20 minutes to start if the battery is flat.
- Be careful not to force the plug into the socket.
- Make sure the battery is correctly inserted before connecting the charger. The outlet must be near to the phone and easily accessible
- (avoid electric extension cables). When using your telephone for the first time, charge the
- battery fully (approximately 3 hours). You are advised to fully charge the battery ( $\square$ ). To reduce power consumption and energy waste, when
- battery is fully charged, disconnect your charger from the plug; switch off Bluetooth when not in use; reduce the

The charge is complete when the animation stops.

### 2.2 Power on your phone

Hold down the \_\_\_\_\_ key until the phone powers on.

## 2.3 Power off your phone

Hold down the \_\_\_\_ key from the main screen.

# Calls .....

# 3.1 Making a call

Dial the desired number then press the \_\_\_ key to place the call. If you make a mistake, you can delete the incorrect digits by pressing the right softkey.

To hang up the call, press the \_\_\_\_\_ key.

### Making an emergency call

If your phone is covered by the network, dial emergency number and press the \_\_\_\_ key to make an emergency call. This works even without a SIM card and without typing the

## 3.2 Calling your voicemail (1)

To access your voicemail, hold down the | •• key.

### 3.3 Receiving a call

When you receive an incoming call, press the \_\_\_ key to talk and then hang up using the \_\_\_\_ key.

## 3.4 Available functions during the call

During a call, you can use your directory, your calendar, text messages, etc. without hanging up or dropping the call.

Contact your network operator to check service availability.

# PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker

Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their mobile phone when the vehicle is not parked. Check the laws and regulations on the use of wireless mobile phones and their of these devices may be prohibited or restricted in certain areas. When driving do not use your mobile phone and headphone to listen.

to music or to the radio. Using a headphone can be dangerous and forbidden in some areas.

When switched on, your mobile phone emits electromagnetic wa that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- do not place your mobile phone on top of the dashboard or within an airbag deployment area.
- check with your car dealer or the car manufacturer to make sure that the car's electronic devices are shielded from mobile phone
- RF energy.
  CONDITIONS OF USE:

You are advised to switch off the mobile phone from time to time to

Remember to abide by local authority rules of mobile phone use Operational Warnings: Obey all posted signs when using mobile

devices in public areas. Follow Instructions to Avoid Interference Problems: Turn off your mobile device in any location where posted notices instruct you to do so. In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode

or similar feature, consult airline staff about using it in flight Switch the mobile phone off when you are in health care except in designated areas. As with many other types of equipment now in regular use, mobile phones can interfere with other electrical or electronic devices, or equipment using radio frequency.

Switch the mobile phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, gas station, or chemical plant, or in any potentially explosive

When the mobile phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump. In particular when using the mobile phone you should
