1.2 Getting started

1.2.1 Set-up

Removing or installing the back cover

Inserting or removing the SIM card

You must insert your SIM card to make phone calls. Please power off your phone before inserting or removing the SIM card.

Place the SIM card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted. To remove the card, press and slide it out.

Your phone only support mini-SIM card. Do not attempt to insert other SIM type like micro and nano card, otherwise it may cause phone damage.

Installing or removing the battery

Please power off your phone before removing the battery.

- Insert and click the battery into place, then close the cover.
- Unclip the cover, then remove the battery.

Installing the microSD card

To install, please insert the external microSD card into the slot with the gold contact facing down. To remove the external microSD card, gently press and slide it out.

Charging the battery

Connect the battery charger to your phone and outlet respectively.

The charging status bar will not display if your battery is completely consumed. To reduce power consumption and energy waste, when battery is fully charged, disconnect your charger from the plug; switch off Wi-Fi, GPS, Bluetooth or background-running applications when not in use; reduce the backlight time, etc.

1.2.2 Power on your phone

Hold down the **Power** key until the phone powers on. It will take some seconds before the screen lights up.

Set up your phone for the first time

The first time you power on the phone, you should set the following options: language, input method, date & time, Google account, etc.

If you power on your phone with no SIM card inserted, you can connect to a Wi-Fi network to sign into your Google account and to use some features.

1.2.3 Power off your phone

Hold down the **Power** key from the Home screen until the Phone options appear, select **Power off**.

1.3 Home screen

You can bring all of your favorite items (applications, shortcuts, folders and widgets) that you use most frequently to your Home screen for quick access. Touch the **Home** key to switch to Home screen.

Status bar

- Status/Notification indicators.
- Touch and drag down to open the notification panel.

Add a location to display local weather.

Favorite tray applications

- Touch to enter the application.
- Touch and hold to move or change applications.

Application tab

- Touch to open main menu.

Home screen is provided in an extended format to allow more space for adding applications, shortcuts etc. Slide the Home screen horizontally left and right to get a complete view of the Home screen. The white short line at the lower part of the screen indicates which screen you are viewing.

1.3.1 Using the touchscreen

Touch

To access an application, touch it with your finger.

Touch and Hold

Touch and hold the home screen to access the available options for setting the wallpaper.

Drag

Place your finger on any item to drag it to another location.

Slide/Swipe

Slide the screen to scroll up and down the applications, images, web pages... at your convenience.

Flick

Similar to swiping, but flicking makes it move quicker.

Pinch/Spread

Place your fingers of one hand on the screen surface and draw them apart or together to scale an element on the screen.

Rotate

Automatically change the screen orientation from portrait to landscape by turning the phone sideways to have a better view.

1.3.2 Status bar

From status bar, you can view both phone status (to the right side) and notification information (to the left side).
