Bud Bluetooth headset / Quick start guide V0.43/ Damon Xi/ 02/28/2011

Getting Started

To use your onetouch BH50 Bluetooth headset (“headset”), please follow the steps below:

1. Ensure your headset is fully charged and power on.
2. Pair your charged headset with a Bluetooth-enabled mobile phone.

Charging Your Headset

The headset comes with a built-in rechargeable battery. Prior to using the headset for the first time, it is recommended to fully charge the battery.

Insert the microUSB tip into the headset’s charging socket (see fig.2) and plug the charger into the charging socket or USB charging cable into PC/notebook.

Use only the charger / USB charging cable in the package to charge the headset.

Indicator Light

Headset Status	Status Indicator Light (fig.1)
<ul style="list-style-type: none"> • Standby Mode (Operating) • Standby Mode (Out of Range) 	<ul style="list-style-type: none"> • Flashing Blue • Flashing PURPLE 4 times each 15 sec until reconnect (after 10mins without connection, headset turns off)
<ul style="list-style-type: none"> • Off Mode Charging • Off Mode Fully Charged • Standby Mode Charging 	<ul style="list-style-type: none"> • Solid Red • Solid Blue • Flashing PURPLE with RED LED on

<ul style="list-style-type: none"> • Standby Mode Fully Charged • Low battery • Out of battery 	<ul style="list-style-type: none"> • Flashing Blue • Flashing Red • The light turns off
---	--

◆ Charging indication will be delayed for a few seconds if the headset has not been used for a long time or the battery is drained.

Talk and Standby Time

A fully charged battery can offer up to 6 hours of talk time and up to 270 hours of standby time. The headset remains in standby mode after being turned on.

Pairing Your Headset with a Bluetooth Mobile Phone

- 1) Ensure the headset is off.
- 2) To activate the pairing mode, press and hold the headset's MFB without releasing your finger until its status indicator flashes red/blue.
- 3) Activate your mobile phone's Bluetooth, search Bluetooth devices, select "onetouch BH50" and enter the passcode "0000". When the pairing is completed, the headset's status indicator will flash blue light rapidly five times.

If the pairing cannot be completed within three minutes after the pairing mode has been activated, the headset's status indicator will flash purple 5 times and then turns to standby mode. Repeat steps 1 to 3 to pair the devices again.

Using your headset

Function	Button	Audio	Status indicator
POWER ON	Press and hold the MFB	a short beep	Flashing blue light 3 times
When you turn on your headset for the first time, the headset proceeds into pairing mode, i.e. the status indicator flashes red and blue alternately, so that you can immediately pair it with your mobile phone.			
POWER OFF	Press and hold the MFB until the LED turns red	a long beep	Red light for six seconds and then the light goes off
Incoming call		Ringtone on earphone	Quick flashing purple light

Answer a call	Press the MFB once		Flashing blue light
End a call	Press the MFB once		Flashing blue light
Adjust Volume	Press the volume control button to turn volume up or down		Flashing blue light
Voice Dialing*	Press the MFB once	a short beep	Flashing blue light
Say the voice tag as soon as you hear the short beep and you must have recorded the voice tag into your mobile phone.			
Last no. Redial*	Double click the MFB		Flashing blue light
Reject a call*	Press and hold the Volume Key for 2 seconds	a short beep	Flashing blue light
Call Transfer (headset to mobile phone)*	While speaking, press and hold the volume Key for 2 seconds		Flashing blue light
Call Transfer (mobile phone to headset)*	While speaking, press MFB once		Flashing blue light
* Subject to mobile support			

Factory Reset

You may reset **onetouch** BH50 to its default settings. Resetting will also remove the pairing history of your headset with the mobile phone.

1. Keep **onetouch** BH50 in “power on” mode
2. Remove the Bluetooth® connection to **onetouch** BH50 on your phone or other devices
3. Hold the button of “Volume up”, “Volume down” and “MFB” simultaneously

All rights reserved. Passing on and copying of this document, use and communication of this contents not permitted without written authorisation of TCL Communication Ltd

Bud Bluetooth headset / Quick start guide V0.43/ Damon Xi/ 02/28/2011

4. Headset will restart by flashing blue 3 times then goes into pairing mode automatically.

onetouch BH50 Bluetooth headset is designed to work with Alcatel Bluetooth devices. Due to large variability between different Bluetooth devices from different manufacturers, interoperability between the headset and non-Alcatel Bluetooth-enabled products is not guaranteed.

Troubleshooting

I can hear crackling noise.

To receive the best audio quality, it is recommended to wear your headset on the same side of the body as your mobile phone.

I can't hear anything in my headset.

- Ensure the headset is turned on and is properly charged.
- Ensure the headset is properly paired with the mobile phone.
- Ensure that the mobile phone is connected with the headset – if it does not connect, either refer to the mobile phone's Bluetooth menu or by pressing the MFB once (see “Using Your Headset” and “Pairing Your Headset with a Bluetooth Mobile Phone”).

I can't connect my headset with my mobile phone.

- Ensure your headset is turned off and is properly charged.
- Ensure the headset is properly paired with your mobile phone.
- Ensure your mobile phone's Bluetooth feature is activated. Please refer to your mobile phone user guide for specific instruction.
- Ensure the headset is within ten meters range of your mobile phone and there are no obstructions, such as walls or other electronic devices in between.

If the above steps do not solve your problem, please recharge the headset and remove your mobile phone's battery for a while.

Safety Information

- Check and observe local laws regarding the use of a mobile phone and a headset while driving. If you use the headset while driving, ensure your full attention and focus. It is your responsibility to drive safely. Consider to pull off the road before making or answering a call.

- Never leave your headset above any air bag deployment area inside your car as serious injury may result when an air bag deploys.
- Never allow children to play with the headset – small parts may be of choking hazard.
- Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas. These could include hospitals, blasting areas, and potentially explosive atmospheres.
- Turn off your headset prior to boarding an aircraft. Do not use your headset inside an aircraft.
- • To prevent damage to your hearing, please do not set the listening volume too high.
- Do not attempt to modify the headset.
- Do not keep the headset near a wash basin or other wet places.
- Do not use the headset outdoors in the rain.
- Do not use the headset in stormy weather.
- Do not clean the headset while it is being charged. Always disconnect the charger from the headset before cleaning.
- Do not attempt to force open the built-in battery.
- Only charge the headset's built-in battery in accordance with the instructions described in this user guide.
- Excessive sound pressure may harm your hearing.

Declaration of Conformity

Hereby, TCT Mobile Limited, declares that this product is in conformity with the following essential requirements of Council Directive 1999/5/EC (referred to as R&TTE Directive): Article 3.1a, 3.1.

Federal Communications Commission (FCC) Statement

onetouch BH50 complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's

All rights reserved. Passing on and copying of this document, use and communication of this contents not permitted without written authorisation of TCL Communication Ltd

Bud Bluetooth headset / Quick start guide V0.43/ Damon Xi/ 02/28/2011

authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Industry Canada (IC) statement

onetouch BH50 complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Guarantee

Your accessory is guaranteed against all manufacturing defects for six (6) months from the date of purchase shown on your invoice. Nevertheless, if the legal warranty period in force in your country exceeds six (6) months, the legal warranty alone shall be applicable.
