

## SPEAKER

# WIRELESS STEREO HEADSET

Model: LI-E130BT

Carefully read operate manual to use this unit properly,  
and keep this manual handy for future reference.

## Features

- Bluetooth® Headphone with built in MIC
- Charging cable Included
- Built in Rechargeable Battery
- Incoming call vibration feature

### Power supply for Unit

- To charge the built in battery, connect one end of the supplied cable to the Micro USB jack and other end of the cable to USB power outlet (5V adaptor not included).
- For best results, please make sure built in battery is fully charged before use.
- While the unit is charging the red LED will stay on.

### How to operate the headphone

1. Switch ON the unit using the ON/OFF switch.
2. Scan from your Bluetooth® enabled device for "LI-E130BT" and pair it. After pairing is done your headphone is ready for use with your Bluetooth® enabled device.
3. To adjust the volume, press the button – to lower or press + to raise the volume. The volume can also be controlled from your paired Bluetooth device.
4. The Sound Output Clarity of this unit will depend on the quality of your MP3 files and distance of this unit from the Bluetooth® enabled device.
5. To change the track from your headphone, short press the ◀◀ button to listen to the previous track or short press ▶▶ to skip to the next track. You can also change the track from your paired Bluetooth device
6. To PLAY/PAUSE a track, press the ▶| | button from the unit or from your paired device.
7. To answer or disconnect your call, press the call button on the headphone. You will be able to use the hands free feature with the built in mic. You can also answer and disconnect your call from your paired Bluetooth device.
8. When your headphone is paired to your Bluetooth® mobile device and you receive a call, the vibration on the left ear piece will automatically alert you of the incoming call.

Please keep this manual in a safe place for future reference.

## Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference,
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
