Functions And Features

- Simple operation: Suitable for various stages of tattoo master.
- Digital voltage display: IC control circuit.
- Built-in 2A overload current protection.
- Accurate and stable output voltage: Accuracy: 0.1V, Voltage range: 1V-14V.
- Long working hours: Built-in polymer lithiumion battery.
Continuous working hour: 5 or 8 hours optional.
- Smarter Size, Lighter Weight, More Portable.

Weight: 0.32Kg

Volume: 150 *84*28mm.

- Portability: Working without external power supply.
- Independent encoding recognition: Guarantee that each machine can be operated independently.
- Wireless foot pedal switch operating range: Maximum control distance-3 Metres.
- Compatibility: Compatible with wired foot switch.
- Material: High-quality aluminum alloy casing.
- Color: silver/black

Safety Instructions

Caution

- Follow all warnings and instructions marked on the product or refer to the attached printing copies.

- When you operate your wireless power supply, the basic safety precaution should reduce the risk of fire or electric shock and harmless to the people who use it. If you can't solve the problems that you meet, please ask for help immediately.

Prohibitions

- Do not use the unit in thunderstorm weather and it is recommended that you unplug it, keep it away from electrical noise generating devices.

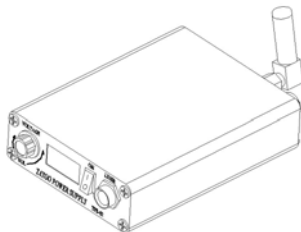

- Do not place any objects on the unit as they may touch dangerous voltage points or short-circuit our parts that could result in a fire or electric shock. Never spill any liquid on it.

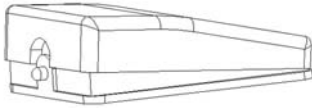

- Do not place the unit on uneven surface to avoid falling or serious damage.
- Do not place the unit in direct sunlight.
- If you need any service, please consult to the qualified professional personnel for help.

Operation Panel

- VOL: Adjust the output voltage by knob. Output voltage could be adjusted 0.5V by each circle. DC 1V-14V Maximum output current 2A.
- VOLTAGE: Output voltage could be displayed on the LED screen. DC 1V-14V; Accurate to 0.1V.
- ON: Before any work starts, please press the “ON” button.
- LINER: Connect to Clip-Cord and Output voltage.

- FOOT : Connect to wire foot pedal switch.
- ANT: Receive wireless signals from wireless foot pedal switch.
- CHARGE: connect to battery charger.

FCC warning statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
