

Let's get started with your new Kasa Spot Camera hub.

### STEP 1

## DOWNLOAD KASA

Get the **Kasa Smart** app from the Apple App Store or Google Play.

### STEP 2

## ADD CAMERA

Tap the  $\oplus$  button in the Kasa app, select **Add a Device**, then select **Cameras > Kasa Cam Battery**. Follow app instructions to add hub and cameras.

### STEP 3

## MOUNT CAMERA

Follow mounting instructions in the app for ideal camera placement.

## Need some help?

**Visit [www.tp-link.com/support](http://www.tp-link.com/support)**  
for User Guides, FAQs, Warranty & more

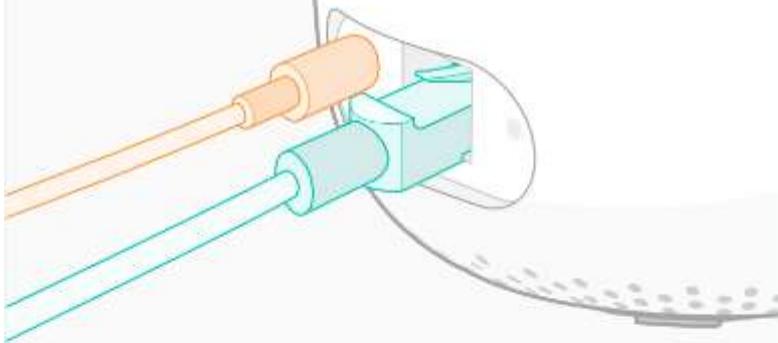

### **CAUTION:**

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN  
INCORRECT TYPE. DISPOSE OF USED BATTERIES  
ACCORDING TO THE INSTRUCTIONS.

## Power Up Your Hub

Plug in your Kasa Hub and connect it to your router with the provided ethernet cable.

Next

## Enable Setup Mode

Use a paperclip to press and hold the reset button for 15 seconds until the lights on the hub flash green.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference.
- 2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

---

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

### **FCC RF Radiation Exposure Statement:**

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

“To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.”

We, **TP-Link USA Corporation**, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.
