3. Connect to your Wireless Network
4. Pair your Bluetooth Devices

1. Before You Start

Package Contents

- TBW-108UB
- Quick Installation Guide
- CD-ROM (Driver & User's Guide)

Minimum Requirements

- Computer with USB 2.0 port or higher
- WiFi Operating System Compatibility:
 - Windows® 10 , 8.1, 8, 7, Vista, XP
- Bluetooth Operating System Compatibility:
 - Windows® 10 , 8.1, 7

2. Windows® OS Installation

1. Insert the included CD-ROM into your computer's CD-ROM drive.

Note: If you do not have the included CD-ROM, you can download the drivers from <http://www.trendnet.com/support/>

2. At the CD Autorun Prompt window, click Run Autorun.exe.

Note: If the Autorun prompt does not appear automatically, open the CD contents and double-click Autorun.exe.

3. At the CD-ROM main menu, click **Install Driver**. The WiFi and Bluetooth drivers must be installed separately.

Note: We recommend users first to disable onboard WiFi and Bluetooth adapters as they may interfere with TBW-108UB.

4. Follow the InstallShield Wizard instructions and restart the computer once the installation is complete. After the computer has rebooted, plug the Wireless N150 / Bluetooth USB Adapter into an available USB port on your computer.

Link/ Activity LED

LED On	When the LED is on, the network adapter has been successfully installed.
LED Off	When the LED is off, the network adapter has not been correctly installed.

3. Connect to your Wireless Network

1. Click on the wireless icon in the taskbar located in the bottom right corner.

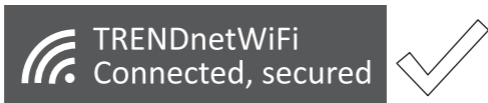

2. Select a wireless network, then enter the WiFi Key (password) and click **Next**.

3. The status will display “Connected” to indicate a successful connection.

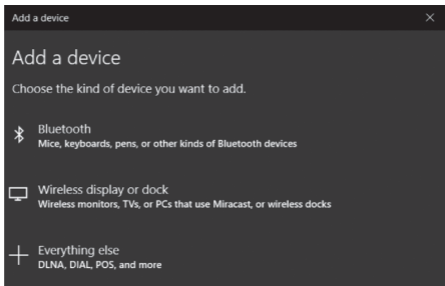

Note: If the connected message does not display, double check your WiFi key (password) and re-enter it.

4. Pair your Bluetooth Devices

This section describes how to pair your computer with a Bluetooth device using TBW-108UB. (Windows 10)

1. Click the Windows  icon at the bottom left corner of your screen, and select settings.
2. In the settings page, select **Devices**.
3. Make sure that Bluetooth is **On**, then click **Add Bluetooth or other devices**.
4. Select **Bluetooth** in the **Add a device** page. Your computer will begin searching for discoverable Bluetooth devices.

5. Once Bluetooth enabled devices in your proximity are discovered, select the device you wish to pair with.

6. A security PIN will be displayed on both your computer and your Bluetooth enabled device. Confirm the PINs are identical before selecting connect on both your computer and Bluetooth devices.

7. The Device window will alert you when the Bluetooth connection is successful.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

IMPORTANT NOTE:

Federal Communication Commission (FCC) Radiation Exposure Statement

This equipment complies with FCC radiation exposure set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 0.5 cm during normal operation
