- 2. Turn the latches to unlock and open.
- 3. Insert the 6V battery
- pack into the battery compartment with correct polarity. 4. Close and lock the battery

Please read this user's guide before installing, setting up and using your new car www.radioshack.com

- This toy is recommended for children 8 years of age and older. To ensure that the child's play is both safe and fun, please review the operating instructions and these general safety rules with the child.
- Adult supervision is recommended when the vehicle is being operated.
- Keep fingers, hair and loose clothing away from the wheels while the vehicle is switched ON.
- To avoid accidental operation, remove the removable battery when not in use.
- If the vehicle and/or transmitter get wet, stop playing. Thoroughly wipe off all moisture and allow them to air-dry completely before use.
- DO NOT drive in the street! Make sure you have plenty of open space in all directions.
- Regularly inspect the antenna for cracks or breaks. Do NOT bend the transmitter antenna. DO NOT use the transmitter if the antenna is broken.
- The vehicle wire antenna is fragile. Never pull or tug

installing batteries

- Do not use batteries of different types, capacities or chemistries.
- Never leave dead or weak batteries in your transmitter or vehicle.
- If you do not plan to use your vehicle or transmitter for several days, remove all batteries from them. Batteries can leak chemicals that may destroy electronic parts.
- If your vehicle runs slowly or does not move at all, replace or recharge the batteries.
- Dispose of old batteries promptly and properly. Do not burn or bury them.
- Driving your vehicle for long periods of time can generate a high heat level, which causes wear and tear on the motor. To help keep heat levels down, when your vehicle's battery power dies, let it cool for at least 10 minutes before installing new batteries.
- Do not touch the motor or batteries immediately after using the vehicle, as they may become hot during use.
- If your vehicle's motor runs, but does not respond to the transmitter, move closer to the vehicle and try again.

important information

on the antenna, as it may loosen or detach from the vehicle. Never coil or knot the antenna.

- Use and store your vehicle in room temperature environments only. Handle your vehicle carefully; do not drop it. Wipe your vehicle with a damp cloth occasionally to keep it looking new. Do not drive your vehicle through puddles or mud, in the rain, snow or sand.
- Modifying or tampering with the vehicle's internal components can cause a malfunction and might invalidate its warranty, and void your FCC authorization to operate it.
- If someone uses a CB nearby, it might interfere with the control of your car. If this happens, move the car away from the CB.
- You cannot operate your car near devices with transmitters that use the same frequency as your car (27 MHz or 49 MHz). Check the box to see which frequency you have.

a Clas limits	quipment has been tested and found to comply with the limits for s B digital device, pursuant to Part 15 of the FCC Rules. These are designed to provide reasonable protection against harmful rence in a residential installation. This equipment generates, uses,
and ca accord comm not oc interfe	In radiate radio frequency energy and, if not installed and used in lance with the instructions, may cause harmful interference to radi unications.
